The Hilltop Record

Vol. XXVI, No. 45 — Minstrel Supplement—The Hilltop, Columbus, O., Friday, February 26, 1943 — Total No. 1250

14th Annual Hilltop Minstrel Will Open Wednesday Night

The curtain is set to go up next Wednesday night on the opening of the fourteenth annual Hilltop Minstrel Show presented by the Hilltop Business Men's Association, in West High Auditorium. The show will be presented for three nights, Wednesday, Thursday and Friday.

A patriotic theme will be carried out in the show this year and a gala selection of popular music is on tap, the background to be furnished by the Hilltop Chorus.

Mayor Floyd Green will again act as interlocutor.

Fun makers of the evening will be that veteran of Hilltop shows, Leo Phillips, poultrymen Marvin and Billy Southworth, singers Sam Russell and James McLinn, and that jovial showman, Herbert Davis.

Dance numbers and novelties will feature the fast stepping of Berniece Goodchild and the acrobatics of Naomi Barth. A new and unusual novelty will be presented by that father-daughter team of George and Jackie Hardy. Cherry Ann Moss and Joyce Miller will do some stepping and a novelty will be presented by Claire Jones and Mary Ann Gillivan to be known as the Gold Dust Twins.

A Spanish number will feature Virginia Jones.

Miss Keith Lovewell and Sue Ann Elleman will do a cake walk that is scheduled to give much of the old time minstrelsy air to the show.

Frank Ongaro, the liveliest accordion player in these parts, will also entertain the customers.

Al Kerns and his musical boses will add a novelty touch to the show.

That veteran performer Lee Koontz who made the audiences split their sides last year, will again parade his antics to provide fun and frolic.

A popular song number will be presented by Dorothy Hartley and favorites of today will be harmonized by the four Condon sisters.

Curtain on the show will go up at 8:15 prompt. Details of how to get reserved seats will be found elsewhere in today's minstrel edition of The Record.

Prexy

Dr. E. E. McNamee

These are busy days for Dr. McNamee, president of the Hilltop Business Men's Association. He is general chairman of the show and of course has numerous other association activities to participate in.

Interlocutor

Mayor Floyd Green

Mayor Floyd Green, as in the past several years, will act as interlocutor for the Fourteenth Annual Minstrel Show, Mar. 3, 4 and 5.

Minstrel Ticket Sale Explained By Group

In order that there will be no misunderstanding about securing tickets for the fourteenth annual Hilltop Minstrel, members of the committee in charge asked that the following important facts be made clear:

1—Positively no reserved seats will go on sale for any performance of the Minstrel Show until Saturday noon, Feb. 27, at the office of Shank & Saunders, 2459 W. Broad-st. There is no reserved seat sale until then.

2—These reserved seats will be sold on a first-come-first-served basis and positively no one will be favored over another. This is being done in order to correct any impressions that blocks of tickets are held out for persons by request. If you are first in line you can get the first reserved seat.

3—Persons purchasing the 35c general admission tickets for any performance must take their own chances of getting a seat to their liking. While there will be plenty of general admission seats available they will be on a first-come-first-served basis and the early birds will get the best seats.

4—Because there are always many requests for reservation of seats on the last night of the show, naturally the committee is anxious to have as many persons as can, attend the performances the other two nights, Wednesday, Mar. 2, and Thursday, Mar. 3, to eliminate the final night's rush.

This Will Be 14th Year For This Big Show

The opening of the Hilltop Minstrel next Wednesday night will mark the fourteenth annual show presented by the Hilltop Business Men's Association.

Proclaimed all over the city as being the best home talent production of its kind, the minstrel has come to be an institution looked forward to each year. Hundreds of people from all sections of the city visit the show each year.

In recent years there has been a sell-out performance each of the three nights the show has been presented.

Each year it costs between $1300 and $1500 to produce the show and of this amount not a cent is spent for salaries to any person participating in the show or having a part in the production of it.

Net receipts from the show go into the association treasury for activities for the community during the year.

Clear As Mud

Fast—What's the difference between a duck?

Slow — A duck and what else?

Fast—Just a duck!

Slow—There isn't any answer to that foolishness!

Fast—Yes, there is. One of its feet are both the same!

Easy Army Life

Suppose you heard the one about the milkman who wrote back home after joining the army. "This is the life for me. You can lie in bed every morning until five-thirty."

Mac Tooill Will Play For Show Again

"Mac" Tooill, that snappy director of the Masqueraders who delighted the audience of the Minstrel Show last year will return again this year. When the first curtain goes up he will be there "beating out" the rythm of that opening number.

This is the third year Mac has played for the Hilltop Minstrel.

Today he has one of the finest dance bands in these parts and they are regularly engaged for the best parties.

And it goes without saying that Mac's piano playing itself is no small feature of the success of the show.

Tasty Recipes For War-Time Given

Attention of housewives of the community is called to the numerous recipes in this edition of The Record.

These are provided through the courtesy of local independent grocers who believe in assisting the housewife with her war time problem of feeding the family economically and well during a time when so many foods are rationed.

It is their hope, as well as that of the wholesalers, who have provided the advertising to make this supplement possible, that the housewife will derive much benefit from these food hints.

HE KEEPS 'EM SMILING!

Lee Koontz

One of the high spots of last year's show is set for a repeat performance from Lee Koontz, 354 S. Richardson-av, who rolled them in the aisles last year with his comedy and trick violin numbers.

Lee is a veteran performer, having spent many years on stages all over the country.

At Sunday School

Dr. Baker Heads Reception Staff

Head of the staff to greet you when you arrive at the Hilltop Minstrel next Wednesday, Thursday and Friday nights is Dr. Baker. Numerous of the Hilltop business men will be on hand to act as hosts.

U.S.S. Kane Are Welcomed Home

Forgotten were duffle bags, boxes, and other equipment, as 23 of the 75 Columbus men who are members of the U. S. S. Kane crew were welcomed home last Thursday by an estimated crowd of 350 parents, relatives, friends and sweethearts, who were on hand for this event.

Their faces shining with happiness, all the boys could say was, "It sure is great to be home!" Others will start home Mar. 2. These at home will return to Seattle. Each of the sailors wore three service bars—Asiatic-Pacific, American-Continental and American defense.

Seven of these happy young men were Hilltoppers or West Siders. Charles O'Donnell, 441 Nashoba-av, beat the others home by several hours—he took a plane east. The others were: Edwin L. Brownfield, 1093 Frank-rd; Paul F. Distelhorst, 136 Dana-av; Melvin E. Hockman, 1963 Fairmont-av; Edward H. Scoles, 1491 Sullivant-av; George W. Whitecraft 2402 Sullivant-av, and Harry L. Zerbe, 1165½ W. Broad-st.

Auto Licenses On Sale March 1

Two local deputy registrars have been appointed to sell the 1943 automobile licenses on the Hilltop. They are: Henry Koontz, 1160 W. Broad-st, and Mrs. Frances Spohn, 2486 W. Broad-st.

When applying for the new licenses motorists shall present their registration card—the one they presented when getting gasoline rationing stickers—and their certificate of title. Heretofore only the certificate of title had to be presented. If the registration card has been lost a duplicate must be obtained.

This year the stickers will be displayed as near the lower right hand corner of passenger car and truck windshields as possible. The 1942 steel plates must also be displayed on all motor vehicles. Shortage of steel made it impossible to stamp new plates for 1943.

To Have Pie Walk

Members and friends of the Oakley Avenue Baptist Church are invited to a Pie Walk sponsored by the junior and senior choirs of the church at 6:30 p. m., Friday, Feb. 26, in the basemen of the church. Proceeds from the entertainment will be applied on the solo fund.

Loss Canned Foods, Loss Tin Cans

Since the announcement of the low values of food ration stamps there has been a lot of Victory Garden planning.

Now comes the problem of finding suitable spots for cultivation.

The Record is offering its services in acting as a clearing house for those who have garden spots they are willing to rent and those who want such spots.

If you have a lot or lots available why not register them at The Record office and if you want a spot do likewise and we will make an effort to find one for you.

This week it was understood that the large plot across from Westgate Park, owned by the board of education, might be made available for a number of community gardens. Numerous persons have indicated a desire to have a garden there. Should there be any lots available The Record will list them in later issues.

History Teaches These Things

Dr. John Wolfe, who one time edited this sheet with ability, sends me the following timely quotes from Charles Beard the historian in answer to the question of what he had learned from his life long study of history:

"Whom the gods would destroy, they first make mad with power."

"The mills of the gods grind slowly, but they grind exceeding fine."

"The bee pollinates the flower it robs."

"When it gets dark you can see the stars."

Bennett To Army

"You're in the army now, you're not behind a plow" . . . that was the sound that greeted Charles Bennett, band instructor at West High School, at the opening of a surprise farewell party given by the band and the band parents, Tuesday evening at 8 o'clock. He was presented with a utility kit by the band, and a correspondence kit by the band parents. He is leaving today at 2:30 for the army.

Presbyterians To Have V Song Service

The congregations of Hoge Memorial and Miami Avenue Presbyterian Churches will unite in a victory song service at the Hoge Memorial Church Sunday evening, Feb. 28, at 7:30 o'clock. This is the second song service in a series planned by the two congregations. The first was held at the Miami Avenue Church in January.

Led by a united chorus choir of more than 60 voices the congregation will sing the great hymns of the church.

The services, which are open and free to all the people, are patterned after the traditional Welsh song services which became famous throughout Wales and the Welsh communities in this country. The chorus choir will be under the joint direction of W. Hayden Jones, director of Hoge Memorial choir and Prof. Dale Gilliland, director of the Miami Ave. choir, and member of the music staff of the Ohio State University. Fern Buckingham will be at the organ and Anna Dole will play the accompaniment.

Youths Rob Woman But Overlook $20

As she was walking south of Broad-st on Richardson-av, Tuesday evening, Mrs. Winfield Lent, 220 S. Richardson-av, was knocked to the ground and robbed of $35, a diamond ring, a gentleman's ring and a watch.

The incident occured around 7:15 p. m., and according to Mrs. Lent, two youths, about 17 or 18 years of age, grabbed her from the back, threw her to the ground, and grabbed her purse, which was found later in a yard on Terrace-av. A $20 bill was still in the purse.

Our Freedom Is Priceless

By JOSEPH E. DAVIES
Former Ambassador to Russia and Belgium.

(Written for the Treasury Department in connection with the Retailers' "SAY YES" campaign to complete the nation's 150,000,000 partially filled War Stamp albums.)

What I myself saw in my four years in Europe gave me a new realization of the priceless rights which we here enjoy.

No secret police can in the night whisk us away, never again to be seen by those we love.

None of us can be deprived by any party, state or tyrant of those precious civil liberties which our laws and our courts guarantee.

None of us can be persecuted for practicing the faith which we found at our mother's knee.

None of us can be persecuted, tortured or killed because of the fact that an accident of fate might have made us of the same race as the Nazarene.

No American can be placed by any party or government in a regimented vise which takes from him or her either freedom of economic opportunity or political religious liberty.

What would the millions of unfortunate men, women and children in Europe give to be able to live and enjoy such a way of life?

Well, in this war, those are the things in our lives which are in jeopardy. Our boys are dying to preserve them for us.

Then we can do no less than to "say yes" and fill those war stamp albums. It is our duty and privilege to help the secretary of the treasury, Mr. Morgenthau, in his magnificent effort to do the tremendous job of getting the money to keep our boys supplied with the weapons with which to fight our fight.

Surely that is little enough for us to do on the home front.

To Fall Back On

"Then you believe in marrying for money?"

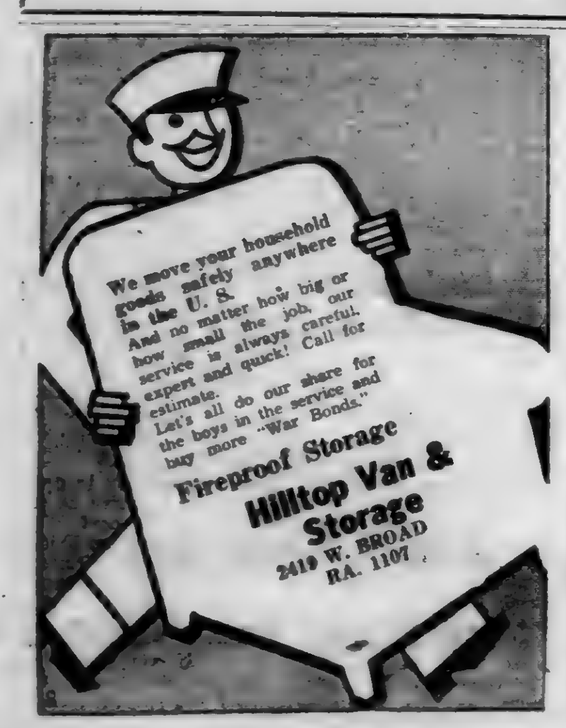
"I wouldn't say that exactly; but when you marry a man it's just as well to know there's something about him you will always like."

Deduction

"My income has just been cut down $15 a week."

"Oh, well, that isn't much."

"Not much? That's all I made."



"...And Tommow night he sails for..."

Think twice before you tell someone else what you just heard. You have no way of establishing its truth and if it's a secret, it's safer left that way. Don't be a gossip monger.

ONE PERFECT THING

I'd ask one thing before I leave this world—
A bit of sweetness held against the breast
Unturned; I'd ask that banners fly unfurled
For just a moment on the highest crest;
And hope to hear the music of a sphere
That does not hold one single note of pain
To call upon the eye a waiting tear
That blots the surface with a faulty stain.
Show me the beauty chiseled on a face
That is not marred by ugliness within;
I'd ask to look into the heart of space
So clean it cannot harbor any sin.
God, let one tender wind upon me blow
Perfection; in dust-eternal let us grow.

What You Buy With **WAR BONDS**

Refrigerators are out for the duration. Manufacturers have now cooled their plants for production of war materials. Common-sense-folk, however, are saving now, not spending, and building up a fund for purchase of refrigerators and other domestic needs through investment in U. S. War Bonds.

Your Money put into War Bonds today will bring you back $4 for $3 at maturity. So start saving for those domestic needs when you will be permitted to buy them. Join the Payroll Savings Plan at your office or factory and let's all "Top that Ten Percent."

THE CIRCUIT RIDING PARSON

He preached three sermons Sunday
Uncoth and unique,
Then labored in the fields on Monday
And all the rest of the week.
A prosy congregation gathered together
Raiment, [illegible] spun, some rags,
He rode miles regardless of weather
A picturesque figure, horse, saddle bags.

More often seen in the western states
When our nation [illegible]
Never received much in collection plates
Dollars those days were few.
The old west had famous frontiersmen
Buffalo Bill and Kit Carson.
The best in the west never to come again
Was the circuit riding Parson.

Rosebud

Rosebud is eight, and the most beautiful shade of caramel fudge. To her loving Mammy and Pappy she is known, on approximately alternate days, as "Angel" and "You devil child". It was on her devil-child days that Rosebud tied the knots in the shirts that Mammy had taken in for washing, and poured the whole of the vanilla bottle into the lamb stew, just, she said later through bitter tears, to "flavor it up some".

On her angel days Rosebud is equally imaginative even if a more restful occupant of the little shack down on Vinegar Hill. Once when

Mammy was out doing day work, Rosebud got a wave of cleaning fever and scoured every pot and pan in the kitchen so that they literally glistened. Another day, left alone, she tidied up Mammy's and Pappy's room to such a point of apple-pie order that it was a week before Pappy could find an undershirt.

Rosebud is a great reader of the newspapers. Mammy and Pappy don't take one, but there are plenty of perfectly good newspapers blowing round Vinegar Hill. It was out of one of them that Rosebud got her idea for spending the ten cents the Bunny had put under her pillow the night her tooth came out. After breakfast Rosebud disappeared down the Hill and reappeared soon after with a beautiful ten-cent War Stamp pasted firmly into a brand-new book with neat little squares for more stamps. She displayed her investment to Mammy. "I declare you're an angel child," Mammy said. Rosebud went on sitting on the kitchen floor staring with large brown eyes at the empty squares in her book. From time to time she took hold of one or another of her teeth and wiggled it, gently.

Mammy was engrossed in a particularly big washing. Rosebud was as quiet as a mouse and Mammy forgot about her until, coming in from the yard with her arms full of dry sheets, she encountered her child with a large hammer in her hand. Scenting the devil in her angel child, Mammy shouted at her. "Rosebud! Come yere with that hammer! What you planning on doing?"

But what was done was done. In Rosebud's other hand was another tooth. Her mouth was stretched in a broad if slightly bloody smile. "I ain't doing nothing, Mammy," she said. "I'm just filling up my stamp book."

Father-Daughter Dance Team

George and Jackie Hardy

Something new in the way of a dance number, something that has not been used in any previous Hilltop Minstrel, is to be performed by George and Jackie Hardy, well known local father-daughter team. It's a . . . well that would be telling, so wait and see when you attend the Fourteenth Annual Hilltop Minstrel at West High, Mar. 3, 4, 5.

MODERN POETRY

By Esther Weakley

WANDERER

I have no roots to hold me to the soil,
No plot of ground that I can call my own.
But I can find contentment, if I know
I have a dwelling place, within your heart.

—Celia Keegan, in
THE DREAM SHOP.

MONUMENTS

In London streets her soldiers, poets, seers,
Still out-ride death in stone or stand, their eyes
Empty of consternation or surprise,
Gazing down lenghtening vistas of the years.
Lordly the sculptured brows of England's sons
And eloquent their lips to celebrate
The fame of Britain made articulate
From age to age in granite and in bronze.

Yet ruin proves, with shrapnel, bomb and flame,
A sculptor that, more powerfully than art,
Can signalize the glory of England's name.
Show forth the immortal staunchness of her heart.
Her monuments most noble, most august,
Are rubble, broken walls and scattered dust.

—Mary Sinton Leitch, in
THE POETRY CHAP-BOOK.

AWAKENING

There was room in my heart for the greatest joy,
After the greatest pain.
For grief had stretched the spaces wide,
To be filled with rapture again.
My eyes were brighter because of the tears,
That Time somehow had dried.
I could now see my brother's grief.
Where before I had never tried.

—Susan R. Chenault,
in VISTAS.

DESOLATION

You left my heart an unplowed field
Where weed and thistle grew.
And many is the hour I roamed there
Thinking of you.

You left my heart a darkened sky
Where a chill wind blew.
The ice-bound clouds held the tears
I wept for you.

—Myrtle L. Reeder, in
THE POESY BOOK.

ST. LOUIS CATHEDRAL

It mattered little that its creed
Was not my own;
I only sensed the welcome of
Its doors, wide thrown;

The cool dusk of its quiet aisles,
Its rest and peace;
A tender feeling that my soul
Had found release.

Great ones lay at the altar's feet—
Their beads all told . . .
The stained glass windows blessed their sleep
With sunset gold.

The world was but a distant dream—out there . . .
Here was a place of healing and of prayer.

—Sheila Stinson,

A CUP O' THIS AND THAT

In Grandma's day her recipes read "a tumbler of flour," "a bit of shortening half as big as a hen's egg," "pinch of salt" "butter size of an egg"—a cup o' this and that. Today we recommend more exacting measurements, but Grandma did make delicious dishes and we may well look back to some of her favorite recipes for some special foods today.

What Grandmother didn't have sugar cookies for you in the cookie jar in the pantry?

Grandma's Sugar Cookies

1½ C. flour
¼ tsp. nutmeg
½ tsp. baking powder
¼ tsp. salt
½ cup shortening
¾ cup sugar
1 egg, well beaten
1 Tbsp. milk.

Sift flour, measure, add nutmeg, baking powder, salt; sift again. Cream shortening, add sugar gradually and continue to beat until light; add egg and milk and blend thoroughly. Combine with dry ingredients to form a rather stiff dough. Chill. Roll out to about ⅛ inch thickness; cut with cookie cutter. Sprinkle with granulated sugar and bake in hot oven, 400 degrees for 10 to 12 minutes. Makes about three dozen cookies.

Apple dumplings were favorite with all of us at Grandma's.

Apple Dumplings

1 Recipe flaky pastry
6 medium, tart red apples
1 C. granulated sugar
1¼ tsp. cinnamon
5 Tbsp. butter or margarine
1¼ C. boiling water
3 Tbsp. lemon juice
1 Tbsp. grated lemon rind

Make pastry, 2¼ C. all-purpose flour, ¾ C. shortening as needed. Roll out to 3/16 inches thickness; cut into six seven-inch squares. Peel and core apples, reserving skins. and place one in center of apples with ½ C. of the sugar and one tsp. of the cinnamon, combined. Dot apples with one Tbsp. of butter. Moisten edges of pastry squares with water; bring points up over apples, sealing seam edges of pastry by pressing together with fingers. Put into greased pan, 12x7½x1¾ inches, and chill in refrigerator.

Pour the boiling water over the apple peelings, and simmer covered for 20 minutes. Drain off liquid, and combine with remaining ½ C. sugar, ¾ tsp. cinnamon, four Tbsp. butter, lemon juice and lemon rind, and stir until sugar is dissolved. Pour into bottom of dumpling dish. Brush dumplings with slightly beaten egg white, and sprinkle with granulated sugar. Bake in very hot oven of 500 degrees for 10 minutes; reduce heat to moderate oven of 350 degrees; bake ½ hour, or until tender. Serve hot with fruit sauce or milk. Serves six.

New England Boiled Dinner

4 lbs. corned beef
4 qts. water
3 large onions
2 large turnips
3 parsnips
5 carrots
3 large potatoes
1 small head cabbage

Wash meat in cold water. If very salty, soak half an hour in cold water or let come to a boil and drain. Place meat in kettle, with boiling water to cover. Allow to simmer three to five hours or until tender. One hour before serving, add all the vegetables. Serve on a large platter with the meat in the center and the vegetables around it.

Sweet Potato Pudding

6 sweet potatoes
¾ pound butter
1½ pints milk
½ teaspoon cinnamon
1 grated lemon rind
4 egg yolks
¾ pound sugar
½ teaspoon nutmeg
½ teaspoon allspice

Boil and mash sweet potatoes, add other ingredients, beat thoroughly. Bake in buttered casserole, covered, for 45 minutes, uncover for 15 minutes.

Corn Fritters

1 can corn
1 cup flour
1 teaspoon baking powder
2 teaspoons salt
¼ teaspoon pepper
2 eggs

Finely chop corn, adding flour into which baking powder has been sifted, add salt and pepper and well beaten egg yolks. Then fold in stiffly beaten egg whites. Drop mixture by tablespoonfuls into hot fat. When brown and thoroughly cooked drain on waxed paper and serve.

Baked Onions

Parboil the onions, place in a buttered baking dish, salt and pepper to taste, cover with white sauce and bake about 40 minutes or until the white sauce is brown on top.

Turnip Cup With Pea Filling

Wash, pare and cut a slice from forming a cup. Have peas ready, end. Hollow out the insides, turnips so that they will stand on heated and seasoned with white sauce. Fill the cup with the mixture and sprinkle top with chopped parsley. Garnish with parsley and serve.

Cranberry Relish

Wash and drain 1 quart cranberries, add pulp of 1 orange and a little rind. Grind in food chopper. Then add 1½ cups sugar. Requires no cooking.

SHARE THE MEAT

Sharing is patriotic. It gives strengthening meat for the best diet on earth to our fighting men. It gives healthful meat to our people in munitions factories, and our Allies who need it so badly.

Sharing is fair. The homemaker in war work, for instance, cannot get to the meat shop until late in the day. Or a civilian may not be able to eat early in a public dining place. It is unfair to ask them to struggle for meat. We must restrict ourselves so they can get their share.

Sharing is sensible. Restriction means that a year's meat supply can be wisely managed.

We all know that there is no "substitute" for meat, but the aim of the "Share the Meat" program is not to forego meat but to make meat for as far as possible. Here are some suggestions to help you do your part.

Liver Roast Country Style

3 lb. liver, in one piece
¼ C. flour
½ C. lard or drippings
4 large onions
1 tsp. salt
⅛ tsp. paprika
1 C. sour cream
½ C. water

Rub flour into the liver. Brown in the lard or drippings. Remove to baking dish. Slice onions, brown in fat, spread over meat. Mix remaining fat with salt, paprika, sour cream, and water. Pour over meat. Cover, place over low heat or in oven and cook gently one and one-half hours or until tender.

Lamb Loaf

2 lbs. ground amb
1½ C. boiled rice
½ C. tomatoes or tomato juice

Hi Neighbors

By Kay Kameron

The poet Byron says:
Washington's a watch word,
Such as ne'er,
Shall sink while there's
An echo left to air.

But to most of us, Washington's birthday makes us think of cherry trees and cherries. I want you to have some of my cherry recipes. Washington's birthday is a few days past but the recipes are good anytime.

CHERRY CAKE

1 cup sugar
½ cup vegetable shortening
2¼ cups flour (sifted)
¾ cup milk
½ teaspoon salt
1¼ teaspoon vanilla
¼ teaspoon almond extract
2½ teaspoon baking powder
3 egg whites (beaten)
½ cup maraschino cherries drained and cut in small pieces.

Method:

Blend shortening, salt and flavoring add sugar gradually and cream well, sift baking powder and flour three times, add to creamed mixture alternately with milk. Fold in egg whites, add cherries, bake in two 8 inch layer pans, 25 minutes

FROSTING

2 egg whites (unbeaten)
1½ cup sugar
3 tablespoons water
3 tablespoons light corn syrup
⅛ teaspoon cream of tarter
1 teaspoon vanilla
Few drops almond extract.

Put egg whites, sugar, water, syrup and cream of tarter in top of double boiler. mix thoroughly. Place over boiling water and beat constantly with rotary egg beater until mixture will hold a peak, (about 7 min.) Remove from fire, add flavoring and beat until thick enough to spread, for variation, color with red coloring or add ¼ cup maraschino cherries cut in tiny pieces.

CHERRY MOSS

1 tablespoon granulated gelatin
¼ cup cold water
¼ cup boiling water
1½ cups dark red canned cherries
½ cup cherry juice
2 egg whites
Few grains salt

Method:

Soak gelatin in cold water, dissolve in boiling water, and add cherries (stoned and cut in halves) and cherry juice. When mixture begins to thicken, beat and add salt and egg whites beaten until stiff. Turn into slightly oiled mold and chill. Serve with whipped cream.

Beans, Peas Rates Rich In Vitamins

No matter what the color, shape, name, all dried beans and peas are good nourishing food. Like meat, eggs, milk and cheese, they rate as "body builders" with their protein, vitamin B, iron, and many more food values.

Ways to use home-cooked beans in meals are unlimited—and here are some new and exciting ones to start you on an inventive turn toward new favorites.

Soak—Simmer—Season

Any of the recipes below presupposes that you will sort over the beans and throw out the bad ones, wash well to remove the grit and usually soak at least five to six hours before using. Longer is better. Cooking in the soaking water adds vitamins and minerals. Watch the beans as they cook because they can absorb a lot of water.

Hot Bean Salad

Hot bean salad is easy to fix if you have cooked beans or hand. Cut two strips of bacon or salt pork into half-inch pieces and fry to a light brown. Add a third of a cup of chopped onion and brown lightly. Add three cups of boiled or baked beans, one-half teaspoon of mustard, one-fourth cup each of vinegar and water, and dash of pepper. Simmer until the beans absorb the vinegar and the water. Serve hot. Double the recipe if you wish to serve hot bean salad as the main dish.

Bean croquettes are a variation of the recipe above. Mold into ball or cone shapes. Dip in raw egg beaten up with a little water, then in fine, dry bread crumbs. Fry in deep fat until golden brown. Or mold into patties and brown in a little melted fat. Sprinkle with chopped parsley.

Gold Coast Salad Bowl

2 grapefruit
2 oranges
French dressing
Romaine
Endive
½ avocado
Mayonnaise

Peel grapefruit and oranges, removing sections whole. Marinate in French dressing. Chill. Line small salad bowl with alternate spears of romaine and endive. Pare and half avocado. Remove stone. Cut one half in serving-size pieces. Fit pieces together and place in center of the salad bowl; fill cavity of avocado with mayonnaise. Arrange orange and grapefruit sections around center. Serve with extra dressing if desired.

Sweet Potato Puff

Mash sweet potatoes with plenty of butter. Put in baking dish with layers of marshmallow whip and bake until brown.

Fruit and Nut Salad

1 large pineapple
¾ pound shelled almonds
¼ pound shelled filberts
1 dozen marschino cherries
1 cup whipped cream
1 cup mayonnaise

Cut pineapple in small pieces. Blanch nuts. Mix all and serve on lettuce leaves.

Time To Plan A Victory Garden

With the severe rationing program in effect it appears that there may be the possibility that tin cans will be collected from homes only if they are properly prepared for the tin can collection.

It may be fitting to remind those housewives who are not already doing so that now is a good time to get in the habit of properly preparing their cans, which includes washing them, removing the labels, cutting the tops and bottoms out, and smashing the can flat. They should then be put aside in a carton to await pickup by the truck.

For the convenience of the Hilltop residents, here is a list of the coming tin can collections:

Route 12: From Broad-st to South corporation line, from Central-av to, *but not including* Terrace-av. Collection: Feb. 26.

Route 13: Broad-st to corporation line, Terrace-av to *and including* Derrer-rd. Collection: Feb. 27.

Properly prepared cans should be placed at the curb line on the above dates.

West Meets North To Close Season

By Harold Mers

The West Cowboys will close their 1942-43 city league campaign this evening when they take on the North Maroons on the West hardcourt.

The Bucks still have a chance for a part of the title, if the South team, which has defeated West twice, can take the Central squad over the road to their third loss.

At present standing, the Cowboys hold down undisputed second place, after dropping last Friday's game to the Irish of Aquinas, and trimming the East Bengals in a rough-and-tumble game Tuesday evening.

Win One: Lose One

In a battle of defenses, the Bucks came out second best when they couldn't penetrate the 1-2-2 zone which the Aquinas team set up.

Although the Cowboys led throughout most of the first half, it was the third quarter which finished them, when they were held to three points while the Irish hit the nets for 10 more. West never threatened in the fourth period and the game ended with Aquinas on the long end of a 37 to 25 score.

In their Tuesday game, the Bucks handed East its ninth straight set-back in city competition in a game that saw six players ejected from the game on personal fouls; of which there were 43 called, one more on West than East.

Dick Hoover and Bill Richards each hit the baskets for 14 points to share scoring honors, followed by Ira Blackwell with 13 markers.

Less Canned Foods, Less Tin Cans

Since the announcement of the low values of food ration stamps there has been a lot of Victory Garden planning.

Now comes the problem of finding suitable spots for cultivation.

The Record is offering its services in acting as a clearing house for those who have garden spots they are willing to rent and those who want such spots.

If you have a lot or lots available why not register them at The Record office and if you want a spot do likewise and we will make an effort to find one for you.

This week it was understood that the large plot across from Westgate Park, owned by the board of education, might be made available for a number of community gardens. Numerous persons have indicated a desire to have a garden there. Should there be any lots available The Record will list them in later issues.

History Teaches These Things

Dr. John Wolfe, who one time edited this sheet with ability, sends me the following timely quotes from Charles Beard the historian in answer to the question of what he had learned from his life long study of history:

"Whom the gods would destroy, they first make mad with power."

"The mills of the gods grind slowly, but they grind exceeding fine."

"The bee pollinates the flower it robs."

"When it gets dark you can see the stars."

Local Boys From U.S.S. Kane Are Welcomed Home

Forgotten were duffle bags, boxes, and other equipment, as 23 of the 75 Columbus men who are members of the U. S. S. Kane crew were welcomed home last Thursday by an estimated crowd of 350 parents, relatives, friends and sweethearts, who were on hand for this event.

Their faces shining with happiness, all the boys could say was, "It sure is great to be home!" Others will start home Mar. 2. These at home will return to Seattle. Each of the sailors wore three service bars—Asiatic-Pacific, American-Continental and American defense.

Seven of these happy young men were Hilltoppers or West Siders. Charles O'Donnell, 441 Nashoba-av, beat the others home by several hours—he took a plane east. The others were: Edwin L. Brownfield, 1093 Frank-rd; Paul F. Distelhorst, 136 Dana-av; Melvin E. Hockman, 1963 Fairmont-av; Edward H. Scoles, 1491 Sullivant-av; George W. Whitecraft 2402 Sullivant-av, and Harry L. Auto Licenses On Sale March 1

Two local deputy registrars have been appointed to sell the 1943 automobile licenses on the Hilltop. They are: Henry Koontz, 1160 W. Broad-st, and Mrs. Frances Spohn, 2488 W. Broad-st.

When applying for the new licenses motorists shall present their registration card—the one they presented when getting gasoline rationing stickers—and their certificate of title. Heretofore only the certificate of title had to be presented. If the registration card has been lost a duplicate must be obtained.

This year the stickers will be displayed as near the lower right hand corner of passenger car and truck windshields as possible. The 1942 steel plates must also be displayed on all motor vehicles. Shortage of steel made it impossible to stamp new plates for 1943.

kitchen of Hdqtrs. Bat.

He writes, "I receive the Record every week through Hoge Memorial Church, and I do not have words to express my appreciation of this, for I sure enjoy having it. There are five boys from Columbus here with me, so you see, it serves six people.

It makes me homesick to read about the Minstrel Show for it is the first one I have missed and wish you success in this year's show. I sure would like to sing in it but I am glad I can do my bit for Uncle Sam, and I hope to be home someday. I can start in again. No one will ever know what the Hilltop Chorus has done for me, and how much it has meant to me. I was just a kid when it was organized, and it kind'a helped me to grow up."

Mr. and Mrs. I. L. Kidd, 38 N. Warren-av, have received word from their son, First Lt. Walter L. Kidd, of the birth of a baby daughter, Feb. 18. Lt. Kidd is stationed in Jacksonville, Fla., at army air base hdqtrs. His wife is with him in Jacksonville. They were former residents of the Hilltop, but have been in New York for the past 13 years where he was employed by the Bell Telephone Co. Prior to his enlistment he was an executive chief accountant with that company.

Following are excerpts from a letter from Bob Cornwell stationed at Great Lakes:

"The Navy is tough but it can be easy if you make it so. There are three boys from Columbus in my detail, we work together, and have a lot of fun doing it. Everyone should know the Navy is a great organization, we have all kinds of sports, we like it. We learn what we are training for and what we will fight for. We are like a football team with plenty of teamwork and lots of discipline. If people knew how they trained us and what the Navy needs, no one would mind doing without so the Navy could have things."

Aviation Cadet Paul M. Churton is spending a weeks' leave at the home of his parents, Mr. and Mrs. Daniel Churton, 92 N. Powell-av. He will return to his flight training base at Glenview, Ill., Monday of next week, and from Glenview will be transferred to another station for further training.

WESTGATE—

(Continued from Page 1)

dating back to 1925 were executed and made binding the restrictions upon the purchaser until the date Jan. 1, 1950. The engineers at the city hall, admitting that the zoning ordinance cannot take precedence over the deeds until Jan. 1, 1950, are probably following some recent opinions handed down by judges of the common pleas courts in this county.

"It would appear to me that city council had no right to pass an ordinance changing these restrictions until the time limit of the deeds expires, Jan. 1, 1950.

"In other words, has the city council, the mayor, the engineer or building department the right to encourage the violation of a contact between two individuals or an individual and a corporation?

"Why should the city council or any department at city hall use time writing an ordinance, voting on it, spend valuable time discussing, pay printers to print it and clerks to record it, when, according to the original deed, such an ordinance cannot be of any value for 20 years or as long as the original deeds are binding upon the purchasers of lots in these districts?

"Such is the case with ordinance dated Nov. 17 1930. Someone, thinking the city ordinance does have preference, purchase a lot for an intended purpose and finds that it conflicts with the agreement he assumes when he accepts a deed as a record of purchase. If I am not mistaken, some of our city officials live within this district, and when accepting their deeds, agreed to maintain the standards set forth as restrictions. Yet we find some of these zoning ordinances bearing the name of a prominent city official.

"I am suggesting that those interested contact their councilmen and have all rezoning ordinances which are contrary to deed restrictions repealed. This will avoid lawsuits, argument, discussions, and the taxpayers' money.

"As an example, the plan I witnessed at the city hall showed our school site between Westgate and Huron, Wicklow and Fremont as B1 four dwelling or apartment house district. We may want this land for a school some day after the war is over. I, therefore, suggest that zoning plans be brought up to date and city council refrain from passing ordinances that conflict with deed restrictions."

O. S. U. Offers Night Course In Explosives

Opportunity for 65 men and women to prepare at government expense for transfer from non-essential to essential positions is provided in two night classes in chemistry of explosives starting March 1 at Ohio State University.

Classes will be held four evenings a week, Monday through Thursday, and the courses will end on June 11, at which time those taking the work will be ready for employment in a type of war industry where critical shortage of workers exists.

One of the classes will be for women only. A requirement for admission in this class is two years of college chemestry or a certificate from one of the night courses in chemistry techniques given recently at the university. Thirty women will be admitted to the class, and they will be prepared for positions in the laboratory, safety, or inspection departments of ordnance plants.

The other chemistry of explosives course opening Mar. 1, has a somewhat different admission requirement—three years of college chemistry or the equivalent in scientific or industrial experience. It will qualify for technical and supervisory positions in ordnance plants. Enrollment in this group is limited to 35 men and women.

Both courses are sponsored by the government, as a part of its war training program in engineering, science and management. Tuition is free, but those selected will provide their own textbooks and make a laboratory deposit.

If You Had MY JOB

KEEPING HOUSE, helping take care of the family—you would realize that business girls are not the only ones who sometimes get Headache and Tired Aching Muscles. We home girls often work just as hard and have just as many Headaches, just as many Stomach Upsets and get just as Tired.

About a year ago, I first used

ALKA-SELTZER

I find that it eases my Aching Head, takes the kinks out of Tired, Aching Muscles and brings relief when I have Acid Indigestion.

The family says I am a lot easier to live with since I have known about Alka-Seltzer.

Have you tried ALKA-SELTZER? If not, why don't you get a package today? Large package 60¢, Small package 30¢, also by the glass at Soda Fountains.

By pledging to buy carefully, you are helping to win the war! Buy wisely to meet your family's current needs. Buy only quality merchandise that will serve you well in the war years ahead . . . that need not be replaced often. Read labels. Watch weights and measures. Check sizes and colors. Compare prices. Avoid wasteful buying and wrong selection. Conserve for Victory by carrying your share . . . by cutting down the number of returns and exchanges. Make every penny you spend build strength for America's future. Don't hoard! Take care of the things you already have. Remember, your buying power is a Victory weapon. Use it to protect the American standard of living . . . to speed the day of Victory.

Today we are faced with restrictions and substitutes of materials. As in the past 34 years, we will strive to continue our service and obligation to our customers and community with a complete selection of wearing apparel and household needs for the whole family.

Thompson Honored For Plant Suggestion

Ralph Thompson, 640 Van Buren-dr, has been honored by a joint labor-management war production drive committee at the Curtiss-Wright Corp., for a suggestion which he submitted to increase the production of Helldiver dive bombers.

For his valuable suggestion, the committee has given Mr. Thompson an award of honor and a prize of war stamps.

Married, the father of three children, Charlene, seven years; Judy, five years, and Ralph 14-months. Mr. Thompson attended South High School and Ohio State University.

ANSWERING THEIR COUNTRY'S CALL

We see them every day in uniform
Our Nations strong and best,
Showing no sign of the awful storm
That is raging in their breast.
Willingly going, destination unknown
Leaving all they cherish here
Parents, friends, everything they own
Upon this hemisphere.

Hiding an interior by a gay exterior
No craven creature there,
Trying to obey orders from a superior
Ready and willing to go anywhere.
Why placed on this Earth of discontent
Is a mystery no one understands
Too few there be who thoroughly repent
Unstable as water and the shifting sands.

Stop a Moment and Look at the Spot Your Grocer Is In
It isn't just the holiday rush. It isn't more customers, big orders and lots of them!
No! Your grocer's problems today are far more serious than that. Already he's beginning to face shortage of certain foods. Not that there won't be plenty to eat.
But we're certainly not going to find the same lavish assortments and the big displays we've been used to. We won't be able to pick and choose with the same prewar freedom. We're not going to like that. None of us. We may even be annoyed and impatient.
So, when your grocer says, "Sorry, I'm all out," or "I hope to have what you want next week—it ought to be in," how should you take it? In the name of fair play don't blame the grocer. Instead, remember—
IT IS NOT YOUR GROCER'S FAULT. It is not the packer's fault. Nor the grower's. It isn't anybody's fault. It's the War.

A V-Home conserves—but does not hoard—food, household supplies, and vital materials. "Hoarders," says OCD, "are on the same level as spies." Conservation is one of the five qualifications of a V-Home. Ask your Air Raid Warden or Block Leader about the other four. Make yours a V-Home! Gluyas Williams contributed the illustration.

WHAT A FUNNY OLD WORLD THIS BE

I counted the cars, a few old fashioned
That passed one day on broadway,
Drivers looked sad, every thing rationed
But tried to be happy and gay.
Burdened with care, Brothers over there
Fighting a Godless throng
Their lack of joy on Satans thoroughfare
No time for a jolly song

Eighty cars an hour passed along broadway
Nearly every one modern and new
While friends far away, fighting night and day
Protecting the Red, White and Blue.
I had to ponder that day while counting
What a funny old World this be
Half fighting and dying the other half sighing
For bacon, sugar, coffee and tea.

IN MEMORIAM
DAVID H. JACQUES who passed away Feb. 26, 1936.
It seems but yesterday we could hear his footsteps and see his smiling face and could hear his friendly greeting, "Hello Mom and Pop" and "Hi Sis and Polly," too. A cheery greeting he had for everyone he knew. 7 years have passed and gone, sweet memories he left behind, linger on, but memories are the only thing that grief can call its own. The Lord called him home but we shall see him again some day. He is sleeping now until the dawn breaks and shadows flee away.
—Mom and Pop and Loved Ones.

While Doctor Is Away

More than forty thousand doctors and thirty-five thousand trained nurses are now in Army khaki or Navy blue. Till that happy day when your doctor comes marching home again, his old job of keeping your family healthy will be largely yours. As a wife and mother there are several things that you can do to make yourself a qualified "health guardian" for your family. As a patriotic citizen you should do them NOW!

First in Order to Feed Your Family Right . . . Study Nutrition

You may pride yourself on being an excellent cook and housewife. But now a good many commonly-used foods are scarce, or rationed in your own protection. You will want to "fill in" the gaps in the family menu with other foods and food combinations that will provide a pleasant and adequate diet.

Second. Prevent Accidents . . .

Learn First Aid!

If you have not already received your certificate in First-Aid, enroll in a class taught by a qualified Red Cross instructor at once. Every woman (and every man and older child, too) should know the RIGHT thing to do in case of accident, it may save a life.

Third. Proper Home Nursing . . . Means Quicker Recovery!

Can you take care of a sick person at home PROPERLY? Every wife and mother should know these things in war-time—for trained nurses are scarce and should be used only in cases of dire need.

The Minstrel And The War

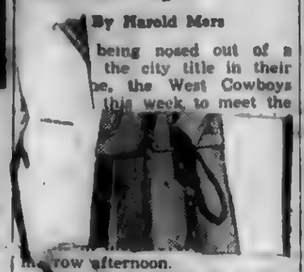
To those who are participating in the Hilltop Minstrel tonight for the third night in a row, we extend our hearty congratulations. It has been a pleasure to work with this group again.

This year the show has meant more than in most years in the way of sacrifice of time for those participating. Yet, with all due consideration to the fact that nearly everyone in it or having any part to do in its production is doing more hard work these days than usual, we have heard no complaints.

This fine spirit has made the Hilltop Minstrel an institution that has grown stronger with its 14 years.

Today it was the hope of all members of the Hilltop Business Men's Association that the show would add something to the morale of the community. Everyone seems w[orried] to death these days. It is sincere here that the m[en] are fashion news[men] in a "bunny shot" might serve as a pic[ture] single-breasted [suit] streak. As the North "pause that refreshes." [Coach] now under co[ntract] well broke in to take [stitched C]ld passed it to Rich[ards] sleek [Richards] promptly hooked it in for an[other] two-pointer.

Then [the] Cowboys really got hot, taking the ball from the Polar Bears everytime they got it, and passing it to Richards, who ran his streak of points up to 12 in three minutes!



However, time was running with the Bears and the gun ended the game with the Bucks still four points behind, knocking them out of a half-share in the 1942 city league title.

Bits and Bits: A big surprise act is in store for those attending the Hilltop Minstrel tonight, if things go as planned . . . A well known gentleman of the stage has promised to entertain if his plane gets here in time from Washington . . . I'd liked to have been present for that reunion when Bob Rose came home from Great Lakes and introduced the girl friend to the family for the first time . . . Eve Berman used to have an orchestra of her own and plays a mean violin . . . Colleen Cheuvront has the mumps as does Chas. Weidner and Alice Smith has jut completed a seige of the pesky things . . . The daddy of Little Miss Joan McKinney, who recites the American's Creed in the minstrel, is with Uncle Sam's forces abroad . . . Bill Stokes would make a good man on the newly formed city recreation committee . . . Weldon Shively was one sleepy boy Thursday a. m., and wonders why new arrivals pick such wee small hours of the morning to make their appearances.

West Meets Aquinas In Tourney

[being] nosed out of a [the] city title in their [game], the West Cowboys [this] week to meet the

[the] row afternoon.

North Edges West, 46 to 42

In the final game of city league competition, the North Maroons took the Cowboys measure and pushed them out of a first place tie with Central, who dropped their game to the South Bulldogs.

Big Bill Butler, six foot three-inch North center, was too tall for the Westerners and his control of the rebounds was the deciding factor in the game.

However, it was the Cowboys who were in the game at the end, thanks to the sterling performance by guard Bill Richards who began to pour baskets in from all over the floor.

[They] were behind 15 [to] 30, with about three [minutes] remaining when Rich[ards] streak. As the North [Coach] ed the ball up the [court] well broke in to take [stitched C]ld passed it to Rich[ards] sleek [Richards] promptly hooked it in for an[other] two-pointer.

First Federal Offers Service

Most people today are buying War Bonds. It has been the experience of the First Federal Savings and Loan Association of Columbus that a large majority of these people have no safe place to keep their bonds.

They are placed in office desks or bureau drawers, with the result that many have been lost or mislaid. In the event bonds are lost, it is an inconvenience to the government as well as the owner, to secure duplicates.

As a service to the government and purchasers of War Bonds, the First Federal is providing a free, safe-keeping service for War Bonds. A receipt is given for the bonds deposited and additional bonds may be deposited at any time. All bonds so deposited, or a portion of them, may be withdrawn at any time.

This service and the sale of War Bonds, officials said, is available to the public and is not restricted to customers of First Federal.

POCKETBOOK STOLEN

A pocketbook containing a small amount of money, ration cards and keys, was stolen from the auto of Mrs. Gladys Lamb, 181 S. Sylvan-av, when it was parked in rear of the Hilltop Record office Monday morning. Her drivers license and some papers were found at Roys and Broad later that day and the empty pocketbook was found in an alley at Warren and Broad Wednesday.

Not Much Buying As Food Rationing Starts

Fairs! Have you studied yours? Observations made by most Hilltop grocers this week were that most housewives had not completely studied point rationing since it went into effect last Monday.

You are entitled to use only your A, B and C coupons, amounting to 48 points in each book for each member of your family, through the month of March.

The following grocers had this to say:

Ray Haunts, Haunts' Food Market stated, "Some housewives are confused but all are accepting it very gracefully."

Carl Capretta of Capretta's Market observed, "They either don't want to spend their stamps or else they want to spend them all at once."

Bob Nowell, Nowell's Market, could only say, "There was not much buying. They must be using what they already had on hand."

"Not so difficult," was the statement of Jerry Watson at Watson's Red and White Store.

The same was said by "Chubby" Distlehorst at Distlehorst's Market, adding "Most housewives take for granted the grocer is right, which makes things much easier than we had anticipated."

Observations by Charles Kent, Kent's Modern Market were: "They do not seem to know the amount of points they are entitled to, but seem to be taking it very nicely."

Chet Herbert, at Davis and Herbert Food Market, stated "Still aren't buying a great deal on their stamps."

In making the above statements most of them added that deliveries could be speeded up a great deal by the housewife having her books available immediately upon delivery.

Housewives are asked to bear in mind the following in regard to their points:

1. Only one-half of the first page in your book, the A, B and C coupons are good in this period.

2. The popular-sized cans and their approximate weights are: No. 2—from 1 lb. 2 oz. through 1 lb. 6 oz.; No. 2½—from 1 lb. 11 oz. through 2 lb.; No. 3—from 2 lb. 12 oz. through 3 lb.

3. Make up your grocery list before going to or calling the store, endeavoring to ascertain the number of points necessary for your order.

4. You must tear out your own stamps from your book.

Point rationing will continue, however at a grocers meeting held Tuesday, Feb. 23, an agreement was reached whereby an attempt will be made to increase the point value.

Missionary Society Has Interesting Meet

The regular monthly meeting of the Tena Wagner Missionary Society of the Hilltop Lutheran Church was filled with information and deep interest.

Mrs. Carveth Mitchell presented a study of Latin America in an original manner. A Spanish atmosphere was created when a Senorita gave each lady a flower for her hair. Ladies representing natives of the republics of South America gave descriptions of their countries each one leaving it to the society to guess the country described.

The business meeting was then conducted by Mrs. Newton Thatcher, president, after which Miss Fannie Parks, guest speaker, told the group of the problems of the Negro race. She was assisted by Miss Lois Harris who entertained with three songs accompanied by her mother at the piano. Refreshments were served by the hostesses; Mrs. Little, Mrs. Lucas and Mrs. Stokes.

1. Share your food with the fighters, protecting your home.
2. Don't hoard anything. Accept rationing cheerfully—help make it work.
3. Learn to use your ration book right. Use the 8 and 5 point stamps in settlement when possible, reserving the 1 and 2 point stamps for low point articles. Your storekeeper cannot give you "change" in stamps.
4. Use your point stamps wisely—don't run short of stamps by buying "high point" foods where "low point" foods will do. Buy only what you need.
5. Plan your family's diet carefully—plan menus ahead for a week or a month — see that everyone gets enough nourishment.
6. Eat fresh fruits and vegetables instead of canned, bottled and frozen. Use the more plentiful non-rationed foods whenever you can.
7. Lighten congestion in the stores—shorten the waiting line at the cash register, by shopping early in the day and early in the week.
8. Don't complain if your favorite food is all gone. Select your next choice and enjoy it. This is war.
9. Plant a Victory Garden—all you can care for.
10. Do all the home canning possible, according to your family's needs.

Wasting Time
Discussing Time

Several organizations in town are about to petition city counsil to change Columbus time to the fast schedule from April 1 to Oct. 1 and back to the slow schedule in the alternate period.

It seems too bad that so much time has been wasted already in discussing the time change. After the state legislature adopted the new slow time it has caused considerable confusion with federal offices and transportation lines running on one time and the residents of the community on another.

With practically every plant in the nation operating three full shifts and with everyone in the country working there seemed little need for a war time in the first place. The days are just as long and the loads are just as heavy one way as another.

All the commotion about time changing has a little of the flavor of restricting the slicing of bread. When there is as much to be done today it seems rather silly to waste time legislating and discussing programs that only add to the confusion.

Thanks, Gene

Last week this corner told our readers they were in for a pleasant surprise that evening at the Hilltop Minstrel. It was sure enough a surprise and a pleasant one.

The Hilltop's own, Gene Sheldon, 389 Belvidere-av, flew in that afternoon from Washington where he had been playing in "Priorities of 1943" and entertained the minstrel crowd from the West stage.

Gene had been called to report to Uncle Sam but when he took his physical Tuesday he was turned down on account of a heart condition.

We believe our Uncle is missing a good man by not taking Gene. He could cause the Japs to rare right out of the bushes with laughter. But if he stays there you can put him down as contributing a whale of a lot to our morale on the home front.

Thanks a lot Gene, for your appearance Friday. Come again anytime!

An attempt is being made to secure another large local property for victory gardens and if such is accomplished will be made available through The Record next week.

West Loses To Aquinas In Tournament

By Harold Mers

The West Cowboys finished their basketball season last Saturday when they dropped an overtime decision to the Aquinas Terriers, 46 to 44, in the Central District tournament.

The Bucks trailed most of the way, but consistent playing by George Ours, Bill Richards and Dick Hoover kept the team in the game. At the end of the half, the Cowboys were three points behind, 23 to 20, but the end of the third period saw positions reversed and the Westerners enjoyed a three point lead.

The final quarter was a hair-raiser with the score being tied most of the way. Bob Watkins' accurate shooting from the corner kept the Cowboys in the game during the closing period. With the score tied 40-all, Dick McQuade was fouled and made both free throws. The Bucks out the ball into play, and a beautiful long shot by Richards tied up the game just seconds before the gun called for an overtime period.

Tournament rules called for a three-minute overtime, and this cost the Cowboys the game, for had it been "sudden-death" or the first score ending the play, West would have won, for another long shot by Richards put the Westerners ahead 44 to 42. The Irish came back with a field goal, and when West lost the ball under their own basket, D. McQuade shot a long one and stripped it, with only several seconds left. The gun ended play as the Cowboys started up the floor with the ball.

14th Annual Minstrel Is Big Success

Another success for the Hilltop Minstrel was marked up with the presentation of the third performance of the fourteenth annual show Friday night at West High School.

A full house was present Friday night and the two previous evenings had been very well attended.

Members of the Hilltop Business Men's Association in meeting Tuesday evening at Schmelzer's Restaurant, extended a vote of thanks to all who had participated in the show to contribute to its success.

Johnny Jones, Dispatch columnist and radio commentator, was the speaker at the Tuesday meeting and entertainment was furnished by the Rail-Lite Trio, made up of Messrs. Gayman, Nice and Webster.

The association voted to ask city council to change Columbus to fast time from Apr. 1 to Oct. 1 and then to slow time for the alternate period.

Booster prizes were won by C. O. Wright, Ray Hauntz, Dr. W. M. Baker, Charles Kent and Mrs. E. E. Webster.

B. H. McConnell, real estate man at Sullivant and Wrexham, was voted membership in the association.

Red Cross Gets Slow Start Here

The local Red Cross drive this week had a rather slow beginning toward the goal of $5,700 on the Hilltop before the final luncheon meeting next Monday.

A total of $1,941.56, or 33 per cent, has been collected, it was reported by Mrs. Paul Benton, 65 S. Westgate-av, at a luncheon held at Memorial Hall Monday. Coach Paul Brown presided at this luncheon and a short talk was given by Billy Southworth.

Troop 18 of Glenwood Church of which Clayton Stickel is Scoutmaster, has voted to give the Red Cross $25.

The drive's slogan "double or better" is being met by the larger contributors.

This year several accounts were taken from the Hilltop groups which means that the workers must make a more thorough canvass of residences.

Special Services

With the mid-week vesper service held Ash Wednesday evening, Hilltop Lutheran Church opened a special series of mid-week Lenten vespers.

Preaching on "The Man Who Knows," Rev. Carveth P. Mitchell delivered the first of a series of Lenten sermons on the theme "Prayer and Our Present Day." The remaining sermon topics in the series are: Mar. 17, "The Problem of Petition"; Mar. 24, "Behold the Intercessor"; Mar. 31, "Fetters That Bring Freedom"; Apr. 7, "Prayer and Personal Faith"; and Apr. 14, "Prayer and Our Buried Selves."

TOTTERING ON THE BRINK

Are we better today in our civilization
With the brocade and silk we wear
Than stoic Indians on the reservation
And the burdens they have to bear?
Indians piously follow a lofty tradition
A religion that is truly divine
But white men ruined their disposition
Now white men are in the bread line.

When battleships are the only solutions
To preserve and protect our race
Our superior wisdom and large institutions
Are tottering on the brink of disgrace.
Our religion, ingenuity and flaunted education
Have surely failed in their mission
When people in every known civilized nation
Are praying for guns and ammunition.

—C. S. Parks.

GARDEN SPOTS WANTED!

Wanted: All vacant lots on the Hilltop for Victory Gardens!

Hundreds of vacant lots over the community have not yet been made available for Victory Gardens for this summer. These lots are badly needed and much in demand.

Owners of such lots who desire to be patriotic and make them available for such gardens are asked to register them with The Hilltop Record office and The Record in turn will find gardeners.

At present The Record has a long list of persons desiring garden spots and many have been secured but many more are needed.

Persons wishing to offer a garden spot for this program are asked to call Ra. 1125 and advise The Record of the location.

Truth In This Piece

C. S. Parks, from down Wisconsin-av way, who advertises his service station by way of his poetry, has submitted a little ditty that contains a good deal of truth as well as poetry:

The bureaucrats are worse

Rationed news, shoes, shirt

They'd better abdicate to a

Cos there'll be a massacre in

Lack of Beds and Baths Outstanding In Experiences of Hilltopper in Africa

"I am over here in Africa and what a place!" a Hilltop boy writes his mother.

Lt. Eugene F. Grubbs, stationed somewhere in North Africa, in his letters to Mrs. Forrest Grubbs, 111 N. Hague-av, tells of the lack of beds and baths down among the Arabs.

Manners are entirely lacking in Arab gentlemen. On a sojourn into town, the man always rides on a donkey, while the rest of the family walks. Eugene, or "Dude" as he is called by his friends, tells of going into a hardware store to buy some things, giving the clerk a $20 bill. That was probably the most money she had seen at one time as she tried to sell him the whole store but he told her he didn't wish to go into the hardware business, just 'came to do a job for Uncle Sam'.

"Dude" was one of four fellows who built themselves a house out of bamboo and wood. They had to dig a hole in the ground about four feet deep and line it with empty gasoline cans to make it bomb proof. Their beds are made of four sticks with chicken wire nailed on them, straw on top of that, and their bed rolls on top of the straw (if the bed roll catches up with them in their movings). They call their little house the 'Stork Club.'

Over here people are complaining because they get only one cup of coffee a day. They get only tea and say they would gladly give five dollars for a cup of coffee.

Grubbs, at last writing, was in a field hospital recuperating from an attack of sinus headaches, and he reports he was thus able to get his second bath since landing in Africa. He also tells his mother she wouldn't know him if she passed him on the street on account of a long over due haircut being needed.

Telling how the world gets smaller every day Lt. Grubbs relates that a man came to his hospital bed recently and said, "Lieutenant you don't know me and I don't know you but our names are the same. I'm Charlie Grubbs." At first "Dude" thought it was his brother. He learned the man is from Dayton. He also reports seeing Arthur Currier in Africa.

He reports his four years of French are coming in handy these days as everyone in the town is French. These same people can't get over the fact that things are rationed in America where they thought we had everything and money was found in the streets.

"Dude" observes that it wouldn't do for the Frenchmen to come to America and follow their same manners. Over there they meet the women on the streets and kiss them on both cheeks. He observes that over here "they might get slapped in the face."

Grubbs was recently promoted to first lieutenant and reports he is seeing much action in the air over North Africa.

110 Complete Home Nursing

There have been 110 women on the Hilltop who have recently received their home nursing certificates. Classes were held in West Broad School.

There will be another class starting soon. Mothers who wish to attend can have their children taken care of at the school during class, by a trained nurse.

A very large quota of surgical dressings is being turned in by the women when they meet each Tuesday, Wednesday and Thursday in West Broad School.

Church Organizations Sponsor Lenten Series

A series of Lenten Services will be sponsored by the various organizations of Hoge Memorial Presbyterian beginning Wednesday evening, Mar. 24, at 7:30.

The first service will be sponsored by the Young People's Department, with Dr. Robert Reed of Indianola Presbyterian Church as speaker.

Other services will be held as follows: Mar. 31, sponsor, Adult Department, Rev. R. E. Dronsfield, speaker; Apr. 7, sponsor Fidelis Bible Class, Dr. Clarence Gee, speaker; Apr. 14, sponsor Married People's Bible Class, Rev. Marshall Scott, speaker. The series will close with two identical Communion Services on Good Friday evening.

Annual Senior Mixer At West Tonight

Plans are in readiness for the annual senior mixer to be held at West High gym this evening. Woodrow Pickering, president of the 12A class, states that the party will begin at 8:30 and continue until 11:30.

Music for dancing will be provided by Alvinza Bunner's record player. For those who do not like to dance, there will be games and shuffleboard. Contests will be held and the winners will receive prizes. A floor show will also be presented.

Refreshments, included in the admission fee, will include pop and hot dogs. The admission price was not decided at the time the paper went to press.

Committees working on the plans are:

Publicity: chairman, John Layman, Tom Cline, Billie Cale, Virginia Woda, Jean Symes, Bill Schneider, Regina Matlock.

Decorating: chairman, Guy Kent, Glenn Chevalier, Eleanor Smith, Betty Horne, Charlotte Koons, Millicent Shafer, Jack Embry, Tom Webb.

More Farmers Go Into War Industry Than Are Drafted Report Shows

Results of a ten-county farm-registrant survey, just completed by Selective Service officals and local board members, was announced yesterday by Col. C. W. Goble, state director.

The report of 13 local boards located in 10 representative agricultural counties, and the purpose of its accomplishment was to check the existing classifications of all farm-registrants.

The state director emphasized the fact that the results obtained by this survey were in no instance estimated, but are based on an actual file by file check of the information contained in the folder of every man of military age registered in the particular local board.

The survey reveals that the farms in the ten counties checked, have furnished considerably less men to the armed forces, in proportion of farmers to registrants who are engaged in other activities.

In addition, the individual local board reports, brought out the factual information that the farms in the counties, thus far surveyed, had lost two times as many men to industry, prior to Mar. 1, as were drafted into the armed forces.

To Erect Honor Roll At Glenwood

The large Honor Roll to contain names of Hilltoppers in the armed services will be erected on the hillside of Glenwood Park facing W. Broad-st, it was announced this week by members of the committee from Camp Chase Post of the American Legion, sponsors of the project.

It is expected that work will be started on the large board sometime in the near future and will contain all the names of Hilltoppers in the service if such names are submitted to The Hilltop Record office.

The board will cost about $800. Members of the committee ask that anyone interested in making a contribution toward the cost of the honor roll contact either the Legion or the Hilltop Record.

The following new names were submitted this week:

Red Cross Drive Here Totals $4630

At a noon luncheon given yesterday at the Southern Hotel, a total of $4630.47 has been given by the Hilltop toward the local Red Cross drive.

Mrs. Paul Benton, 85 S. Westgate-av, commented she was more than pleased with the report as the workers have all done a fine job.

Even with most of the women who would ordinarily give from their home, working and now giving at their place of employment, the amount collected is still over last years' figure by five or six hundred dollars.

On Mar. 9, the women of San Margherita gave a spaghetti dinner with the proceeds of $200 turned in toward the Hilltop drive. The captains for that district were Mrs. William Frazinni and Mrs. Lilda Deleweese.

Anyone desiring to make a contribution who has not been contacted, is asked to call Mrs. Floyd Green, Ra. 5178 or Mrs. Benton, Ra. 9494.

The Victory dinner will be given next Wednesday, Mar. 24.

Many times we have had calls late Saturday asking us to deliver a paper. Whenever possible we are glad to oblige because we do want all our subscribers to receive their paper, but it is often impossible to get a carrier boy after Friday.

Again we remind all subscribers if at any time they do not receive their paper by noon Friday we will be glad to have the report of the miss. We will make every effort to see that a paper is delivered to your home yet that day.

As a paid subscriber we invite you to use the service The Record offers, yet we must remind all that today the matter of giving service in any endeavor is far more difficult than under normal times.

is the skirt to live in and to love!"

When a gal finds a skirt that's trim enough for the office, and feminine enough for a soldier-boy's dream after dark . . . her wardrobe question is **solved!** And **Swurlskirt** is such a skirt! A clever 6-button closing, 32 graceful tuck-gores that swish with equal ease to the filing cabinet or past the dance orchestra! Fashioned of smart new **Sylph-Crepe*** with the non-curl, **bias-cut** rayon taffeta Girdl-waist* that makes your waistline **look smaller** than it is! The price? So little you can have several **Swurlskirts** . . . and still buy your quota of war bonds!

Arm Removed After Suicide Attempt

Mrs. Ida Dick, 28, of 1543 Thomas-av, is in critical condition at Mt. Carmel Hospital where she was taken after attempting to end her life Sunday afternoon with a shotgun, according to police.

Her left arm was amputated and a blood transfusion given. Shotgun pellets were scattered through the arm and upper part of her body, an attending physician said.

Mrs. Dick, in ill health for many years, shot herself in the kitchen of her home, police said. A five-year-old daughter in another part of the house at the time was the first to reach her mother. Mrs. Dick was taken to the hospital by her husband, Paul Dick.

Mrs. H. R. Doles and granddaughter of 374 S. Terrace-av, have just returned from Orlando and Daytona Beach, Fla. They were visiting Lt. and Mrs. James C. Michal. Mrs. Doles had to return early so she could be home when another daughter, Miss Emogene Lowry left for Hunter College, N. Y., where she reports for active duty in the WAVES.

THE EVIL OUTWEIGHS THE BENEFIT

Bonaparte, Kaiser Bill then Hitler
Where do they get that breed?
There isn't a cannibal or wild animal
That hasn't a better creed.
Why should they revert to barbarism
Depriving all of their liberty
Similar to throwbacks to atavism
Unbelievers in Divinity.

Millions killed on the battlefield
Others living disfigured forever,
Historians a willing pen will wield
Lauding the brave and clever.
T' would be a blessing to our people
If war history we'd omit
Children shouldn't recite about any fight
The evil outweighs the benefit.

Columbus Did Not Discover America in 1492!

On October 12, 1492, Columbus sighted an island which he called San Salvador, and which has since been identified with Watling Island. On his 3rd voyage, in 1498, he beheld, for the first time, the mainland of South America.

The blue stamps now in use, lettered A, B and C will be good until Mar. 31. This provides one week of overlap at the end of March in which stamps for either period will be valid.

Chinamen say they can whip the Japs
If they had enough equipment.
They're experts in getting skunk traps
Why not send them a shipment?
Send over large ships that are replete
With plenty of ammunition:
Let our farmers raise hominy, hogs and wheat
That will keep them in condition.
Send bombing divers with every transport,
A long lonely track to trace,
Try our very best with an efficient escort
Heaven will protect the Chinese race.
We don't need any more in the Army
Send guns to those over there
Then we'll eat pigs feet instead of horse meat
And have spare ribs to spare.
—C. S. Parks.

Student Sprat: "No, sir, that's just the fog I'm in."

Vance has been active in seeking additional medical assistance for the community, as a representative of local railroad men. He is legislative representative of the Order of Railroad Conductors and

Hi Neighbors
By Kay Kameron

Here is a nice Sunday dinner menu that can be prepared before leaving for church, providing you cook your chicken Saturday.

Chicken and corn casserole
Noodles cooked in chicken broth
Vegetable salad
Baking powder biscuits and honey
Lemon meringue pie

Method: Cook chicken until tender, remove bones and dice. Put alternate layers of diced seasoned chicken and whole grain corn in casserole. The last layer being either cracker or bread crumbs, pour in milk until about two-thirds full, bake half an hour in moderate oven.

Noodles: One egg, ½ teaspoon salt, flour. Beat egg slightly, add salt and flour enough to make very stiff dough, knead and roll real thin, let dry on one side then turn over, cut in fine or broad strips to suit your taste. Cook about 15 minutes in the chicken broth.

Vegetable salad: Shred cabbage, one onion, one carrot, a stalk of celery or use celery seed, soak in cold water to crisp, drain well, season with salt and mix with your favorite salad dressing or mayonnaise.

Baking powder biscuits: Two cups bread flour, four teaspoons baking powder, one teaspoon salt, two or four tablespoons shortening, three-fourths cup milk or half milk and water. Sift dry ingredients twice, work in shortening, add liquid gradually, mixing with knife to make soft dough, knead lightly; roll three-fourths inch thick, cut out with biscuit cutter, place in cookie pan and bake 12 to 15 minutes.

Lemon meringue pie: One and one-half cups sugar, one and one-half cups water, four tablespoons corn starch, four tablespoons flour, two eggs (yolks), slightly beaten, grated rind two lemons, one-half cup lemon juice, two teaspoons butter, one-half teaspoon salt. Mix flour, corn starch, salt and sugar, add to boiling water, add butter, pour on egg yolks and cook two minutes, cool, add juice and rind, fill nine inch baked pie shell, make meringue of the two egg whites and cover, bake a delicate brown.

Victory Gardens Deserve First Consideration

Welcome news came for victory gardeners this week from the city safety director.

He stated arrests would be made of owners of dogs that are allowed to roam the community trespassing on gardens. The ordinance which bans the free running of dogs carries a penalty of from $5 to $50 for the owners of same.

So, if you have a complaint about dogs, your answer is to call the police department. Owners of pets will do well to see that they are prohibited from roaming at large.

Cash My Check?

A representative of the United States Secret Service paid us a visit this week to ask our cooperation with the banks in warning people not to cash checks for strangers.

He points out that a lot of checks are being cashed today by individuals who are not careful enough in handling money.

He advises that before you accept commercial and government checks you should demand absolute and positive identification, do not cash checks for strangers and know your endorsers.

Every week hundreds of Hilltop Records are being mailed to local boys all over the world. The reports we have back from these boys indicates that they enjoy thoroughly all the news of their buddies from back home.

We welcome all kinds of news articles and especially are interested in having all reports of activities of the boys in service. This is your invitation to call us anytime you have an interesting item. Letters from abroad are also most welcome.

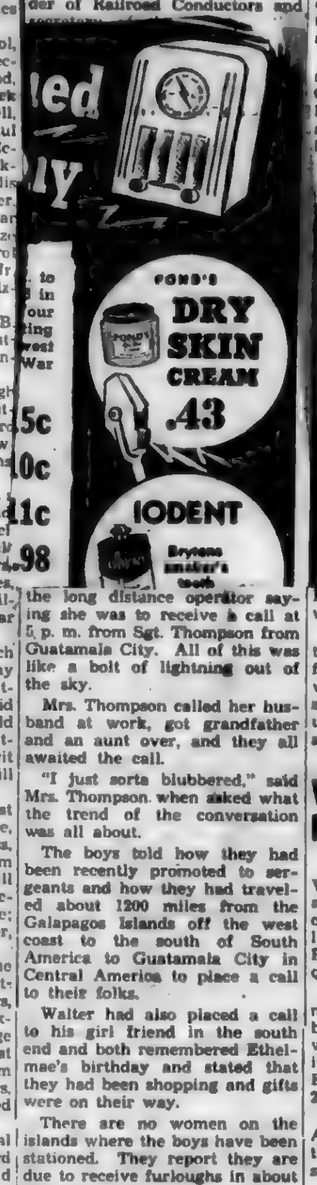
Comes To The Stump Family Who Learn Son Is Prisoner

Good news came to another Hilltop family this past week.

On Saturday Mr. and Mrs. Charles Stump, who operate the food shop at 3241 W. Broad-st, had a telegram from the war department stating their son, Master Sgt. James H. Stump had been located as a prisoner of the Japanese in the Philippines.



They had received no word from their son who had been missing since the fall of Bataan last May.

They expect to receive a letter soon stating how they may contact their son by letter.

Believe Two Doctors Will Be Returned

The United States Army Procurement Board this week advised that relief from the shortage of doctors in this community will be forthcoming in the very near future and that the needs of the West Side will be adequately taken care of.

C. W. Vance, 3023 Palmetto-st, expressed the opinion that at least two Hilltop doctors will be returned but claimed he had no information which ones the army would return here. Vance has been active in seeking additional medical assistance for the community, as a representative of local railroad men. He is legislative representative of the Order of Railroad Conductors and

the long distance operator saying she was to receive a call at 5 p. m. from Sgt. Thompson from Guatamala City. All of this was like a bolt of lightning out of the sky.

Mrs. Thompson called her husband at work, got grandfather and an aunt over, and they all awaited the call.

"I just sorta blubbered," said Mrs. Thompson when asked what the trend of the conversation was all about.

The boys told how they had been recently promoted to sergeants and how they had traveled about 1200 miles from the Galapagos Islands off the west coast to the south of South America to Guatamala City in Central America to place a call to their folks.

Walter had also placed a call to his girl friend in the south end and both remembered Ethelmae's birthday and stated that they had been shopping and gifts were on their way.

There are no women on the islands where the boys have been stationed. They report they are due to receive furloughs in about eight months.

Dr. Howard Whitehead To Celebrate 50th Year In Medicine Here, April 3rd

Fifty years of medical practice on the Hilltop will be observed by Dr. Howard Whitehead with open house from 2 to 5 p. m. and 8 to 10 p. m., Saturday, Apr. 3, at his home, 3239 W. Broad-st.

His many friends and patients are invited to greet him and Mrs. Whitehead. The reception will be informal and they ask that no gifts be presented.

Dr. Whitehead has the distinction of being the Hilltop's first doctor but is not its oldest. Today he continues in the active practice of medicine from his office adjoining his home.

Dr. Whitehead recalls he was able to get a start for funds for his medical training from work on a farm in Texas at the rate of 50c per day. Later he taught school for four years and held teaching certificates in Delaware and Franklin Counties.

In 1893 he was graduated from Starling College which is now St. Francis Hospital. At the time of graduation he was awarded $40 offered by Dr. Loving for the best written and defended thesis.

On Apr. 3, 1893 his father "brought me and my effects, mostly debts, to Columbus and I located on W. Broad-st, near the State Hospital. I boarded where I could and slept in the office until October, 1896, when I was married."

Dr. Whitehead recalls that in 1893 the street cars came to the foot of the hill in Broad-st, and from there on the road was known as the National Road. Few houses were present in this community then and a toll gate was operated beyond the present Big Four R. R.

At that time there was a school house at 129 Clarendon-av, and another at the corner of what is now Broad and Warren. Not more than 50 children attended the two schools.

Dr. Whitehead was a charter member of Glenwood Methodist Church founded in 1894. He has held many offices in the church and calls it his outstanding hobby.

Dr. Howard Whitehead

He prides himself on his summer garden which produces a variety of vegetables and flowers.

Dr. Whitehead recalls that one of his first patients of 50 years ago is still living and a resident of the Hilltop and that he has treated four generations of many Hilltop families.

13 Receive Scout Award

Thirteen Hilltop Boy Scout leaders were honored with the presentation of the Scouter's Veteran Award when the annual meeting of the Central Ohio Area Council was held Tuesday night.

They include: Walter Elder, deceased, P. A. Campbell, G. C. Heitz, Charles Riggs, Claris E. Jones, C. O. Rawlings, M. E. Sensenbrenner, Clayton F. Stickel, Ray McVay, Harold Meilke, Howard S. Miller, O. O. Tope and W. W. Weatherman.

Robert M. Draper was elected vice-president of the council. He is chairman of the Southwest District.

Highlight of the evening was the burning of the note given five years ago to obtain funds with which to construct the swimming pool at Camp Lazarus. The council is now without any indebtedness of any kind.

Westgate Church In Easter Drive

Westgate Methodist Church, West High School, is putting on an Easter campaign to clear its church site. The site is formed like a "V", overlooking Westgate Park, where Brinker and Algonquin unite at Wicklow.

This site was bought last summer for $7500. Two teams are being organized to give the whole community an opportunity to help remove "the stone." Each team will be composed of 20 members.

The men's team will be led by Albert Davis, 2970 Wicklow-rd, the women's team by Mrs. Wilson Hall, 263 S. Westgate-av.

There will be a "Victory Dinner" after Easter and the losing team will serve the winners. The big stone which represents the balance owed on the site will be broken up into five dollar pieces. If four hundred such pieces can be taken away by Easter, the

Ball Glove Belonging To Soldier Brother Lost By Newsboy

Lost, a ball glove!

Back in December, Bob Ardle, son of Mr. and Mrs. E. A. Ardle, 185 S. Huron-av, was killed in military service.

Before Bob went into the army he had a good baseball glove that was to be used this year by his brother Richard, 14. This past week Richard lost the glove somewhere on his paper route, either from the sub station at Powell and Broad or on Brinker or Algonquin-avs.

A reward will be offered for the return of the glove. More particularly Richard is interested in getting the glove back because it belonged to his brother.

Nephew Killed In Action In Tunisia

Mrs. J. B. Lowry, 363 Midland-av, has received word of the death of her nephew, Sgt. Albert L. Dalton. He died Mar. 3, of injuries received in action while on gunner duty in a bomber over Tunisia.

Meat Ration Program Will Start On Monday Mar. 29

After a meatless week local housewives may again order their favorite cuts of fresh meat and also be assured of having butter on the table, when the freeze order on fresh meats, fats and oils is lifted on Monday and all such purchases will come under the new point rationing.

In the first month, each holder of War Ration Book Two, regardless of age, will have a basic allotment of 16 points a week to spend and family shopping may be done with the books of all members. During the first five weekly periods, red stamps from War Ration Book Two will become valid and will expire as follows:

Mar. 29 to Apr. 30—Stamp A (16 points).
Apr. 4 to Apr. 30—Stamp B (16 points).
Apr. 11 to Apr. 30—Stamp C (16 points).
Apr. 18 to Apr. 30—Stamp D (16 points).
Apr. 25 to date to be announced—Stamp E (16 points).

An official list of point values of meats is printed in The Record today on another page and it is suggested the housewife cut this from the paper and preserve it for future reference when ordering groceries or planning her meals.

All restaurants, hotels, and other "institutional users" will be allotted supplies of the rationed foods on a basis that will reduce their use of these foods to approximately the same level as that of the private individual who eats at home.

As each series of red stamps becomes valid it may be used with complete freedom of choice by a consumer to buy any one of the rationed products. There is no distinction made in the use of red stamps as between meats and cheese, butter, the other edible fats and oils, and canned fish. A housewife may divide up her point spending in any manner to fit her family's eating habits, using whichever series of stamps happens to be valid at the time.

The "point values" of the various rationed commodities will be shown on the "table of point values" to be displayed in all retail stores. It shows not only the point values in "pounds" but also the point values in ounces. The latter is given in a smaller table at the bottom of the poster. In practice, the consumer will first ascertain the exact weight of the merchandise, and then find the point value of odd ounces, or fractions of a pound in this "point values by ounces" table.

This simple provision is made necessary because the retailer cannot cut meat or cheese to exact weights. In cases of butter, margarine, lard and other commodities which come in pound containers, no reference to the "ounce table" is necessary. For canned fish and meat, processed cheese and other items which come in containers of less than one pound, reference to the "ounce table" is necessary, of course.

Use your eight-point and five-point stamps first, whenever you can.

When you buy foods that take a lot of points, or several different rationed items at the same time, use the high point-stamps first.

Don't use more stamps than you need to make up the amount. For example, for a 16-point purchase, use two eight-point stamps—not three fives and a one.

Save your low point-stamps for low-point foods you may want to buy later in the month.

Peas, beans and lentils when bought exclusively for use as seed are exempt from the processed foods rationing program and do not require the surrender of either point stamps or ration certificates, C. C. Hartley, chairman of the local War Price and Rationing Board, announced today.

This exemption was worked out by the Office of Price Administration in conjunction with the Department of Agriculture and was considered necessary for two important reasons. Since this is the planting season, it was found too cumbersome to require farmers and victory gardeners to apply to local boards for certificates to enable them to acquire bean, pea and lentil seed. In addition, local boards are now preoccupied with their numerous duties in connection with the various rationing programs.

Motorists with "A" mileage ration books were reminded today that Mar. 31 is the deadline for initial inspection of their tires under the Office of Price Administration's program of periodic examinations to extend the life of casings now on cars.

Powell Lots Available For Gardens

Lots in the Powell Addition, owned by Everson Powell, were made available this week through the Highland Garden Club. These lots, approximately 150 of them, extend from Broad-st to Wicklow-rd in the section bounded on the west side of Hague-av to the alley beyond Chase-av.

If you are one of the many who desire to plant and reap the harvest from your own Victory Garden this summer and have not been able to secure a lot, the club has the above lots for you and may be reached at the Hilltop Library, 31 N. Hague-av, tonight, tomorrow and Monday from seven to nine p. m., also tomorrow from three to five p. m.

Gardeners may find information they need either at the Garden Center or the Hilltop Library. Books and governmental leaflets are available and if sufficient interest is shown a public meeting will be held next month.

Bernard Engler, one of the volunteer Garden Center consultants and an expert gardener, listed the following amounts of seed and sets needed for a balanced, 30 by 50-foot garden:

Small 5-cent or 10-cent packages (depending on quality), of squash, leaf lettuce, radishes, Swiss chard, New Zealand spinach, early beets, early carrots, early spinach, bush cucumbers, turnips, parsnips and kale;

One-half pound of early sweet corn and one-quarter pound of main crop sweet corn; one-half pound of bush snap beans; one-half pound of early peas; 50 tomato plants; 25 cabbage plants; one pound of onion sets, and 12 pepper plants.

The jacket is young in outline, and its five-button closing is news in itself. With the suit is worn a very new bow-tie blouse in a crisp pique.

ATTEND FUNERAL

Mr. and Mrs. Albert A. Ogden, Miss Kathryn Ogden and Mrs. Harry A. Walter attended the funeral of their sister, Mrs. Ernest Hughes last week in Chillicothe. She died on the same day that a posthumous decoration of the Purple Heart arrived for her son, Sgt. Ernest Highes, killed in North Africa last month.

TWELVE YEARS OF TEARS

I haven't the disposition to be a politician
All I know is how to split rails,
But the President is in one fearful condition
Trying to wear shirts without tails.
New Dealers have had twelve years to succeed
But have acted like men full of liquor
Many things we'll need if we follow their creed
Let's elect for President J. W. Bricker.

West High Round-Up

By Shalmir Springer

EDITOR'S NOTE: It is our hope that this column will be a regular weekly feature of The Hilltop Record, of interest to West High students. Their contributions will be welcome.

Here's a roundup of juicy gossip that has been floating around West High the past week, and some news, too.

First, for the sick list: Don Davis and Virginia Harper both have the mumps; and Marilyn Stamper returned to school just last Wednesday after having had scarlet fever. WELCOME BACK!

What's this we hear about Gladys Sahr's nickname? As for Wanda Hummel's nickname, it's "jeep." Defining this, she says, "I'm always bouncing into trouble."

West senior coeds are often happy these days. Did you know Jeannette Stone looks for letters each Wednesday and Thursday—and each letter is from a different boy? Oh, and haven't you noticed Ellen Clark's gay smiles? That's because she has received another of those frequent letters from her sailor-boy.

Rumors are to the effect that Suzy Johnson is wild about the sax. Why, Suzy, why??? Oh, yes, and why is Martha Griffis so suddenly interested in 12A activities? Checking on what he's doing, Martha?

Doris Huey can recite all five verses of "America For Me" in one minute flat. This was witnessed and timed by Donna Hoover.

I'm stopping here — I'm starving! Which reminds me —Hope Strickland's favorite sandwich consists of liver cheese, peanut butter, American cheese, catsup, salt, pickles and bread. I intend to eat, but not that, Hope!

Loew's Ohio this week is showing the Spencer Tracy-Katharine Hepburn romantic mystery, "Keeper of the Flame," reuniting the two great stars of last year's outstanding "Woman of the Year." Added feature is the army life comedy, "Fall In" with William Tracy and Joe Sawyer.

Loew's Broad

Loew's Broad is now showing the musical cavalcade, "Hit Parade of 1943" with four stars, three bands and a host of vaudeville acts. John Carroll, Eve Arden, Gail Patrick and Susan Hayward plus the bands of Freddie Martin, Count Basie and Ray McKinley are in the show. Added feature is the Frank Buck wild animal thriller, "Jacare."

HOUSEHOLD HINTS

An occasional application of oil will keep leather in chairs and suitcases from cracking.

Grease can be removed from an iron by rubbing it with corn meal.

• • •

Used brooms can be made stiff and clean by dipping them in a pail of boiling soda water, and drying them in the sun. If the broom is sprayed or sprinkled occasionally with a little kerosene, it gathers the dust much better.

• • •

Rub over the inside of a cushion with hard soap before you fill it. Then the points of the feathers will not come through.

• • •

It will help keep your shoes if you put them on shoe trees or stuff the toes with paper when they are not being worn. Always wipe them dry of moisture and dirt after exposure.

• • •

Here's a hint for the workshop: In filing a saw, first smoke the teeth with a lighted candle. This will make it easy to see the fresh filing and to hold the file at the right angle for the job.

Every amateur ought to have a cold frame, if only to grow lettuce in. If seeds are sown the latter part of March there will be lettuce to eat in a few weeks, with radishes as a sort of side crop grown between the lettuce plants. When hot weather comes it will be found that lettuce grown in the cold frame will head nicely and be crisp and tender, while that grown in the open ground will mostly go to seed. This is the secret of growing good summer lettuce, and few people know it.

COOKIES FOR ROOKIES

The old saying that an army marches on its stomach is indeed true—only it doesn't go far enough. The army today not only marches on its stomach; it flies, rides, climbs mountains, travels on skiis and snowshoes, sometimes even swims to attain its objectives. And, according to a scientific survey of gifts soldiers like to get, that small-boy craving for homemade cookies and cakes is well toward the top of the list. Soldiers may be too shy to speak up, but someone should remind those who send them homemade goodies that it's no fun to get so many packages at once that you can't eat them all and have a lull when there's not a homemade cookie to crunch for days at a time. Why not arrange a stagger system where you'll all send packages regularly on different days. Choose a cookie your rookie really likes and see that it keeps coming to him.

1 egg
¼ C. milk
1 tsp. lemon juice

Stir in peanuts. Drop from a spoon onto lightly oiled baking sheet. Flour palm of hand lightly and press cookies out flat. Bake at 375 degrees for 10 minutes.

Old-Fashioned Molasses Cookies

1 C. walnuts, chopped (or dates or coconut)

Blend shortening, salt, cloves, cinnamon, and ginger. Add sugar and cream well. Add molasses. Combine milk and soda and add to mixture. Add egg and beat well. Add flour and walnuts and mix thoroughly. Drop from tablespoon on shortening-coated cookie sheet. Bake in moderate oven, 350 degrees, 12 to 15 minutes. Makes 40.

Ship Ahoy Cookies

1 tsp. vanilla
½ C. honey
½ C. sugar
1 egg, unbeaten
2-3 C. sifted flour
½ tsp. baking powder

½ C. nuts, chopped

Blend shortening, salt, and vanilla. Add honey and sugar and cream well. Add egg and beat well. Sift flour with baking powder and add to creamed mixture, blending well. Add oats, coconut, and nuts and mix well. Pour batter into 8x8-inch shortening-coated pan. Bake in moderate oven, 350 degrees, 45 to 50 minutes. Cool and cut in bars. Makes 16.

Canteen Cookies

½ C. shortening
¾ tsp. salt
1 Tbsp. grated orange rind
2 Tbsp. orange juice
1 C. brown sugar, firmly packed
2 eggs, unbeaten
2 C. sifted flour
1 tsp. baking powder
½ tsp. soda
½ C. nuts, chopped
1 seven-ounce bar semi-sweet or bitter-sweet chocolate cut in pieces

Blend shortening, salt, rind, and juice. Add brown sugar gradually and cream well. Add eggs, singly, beating well after each addition. Sift flour with baking powder and soda. Add to creamed mixture and mix thoroughly. Add nuts and chocolate and blend. Drop from tablespoon on shortening-coated baking sheets. Bake in moderate oven, 375 degrees, 10 to 12 minutes. Makes 3½ dozen.

THIS IS NOT NINETY SEVEN

Air pilot shouted, to his gunner down below
Shovel in a block bursting bomb,
Then soon as we vision, a German bungalow
We will register, where we are from.
Register with a bomber, prouder and louder
Than the Hun ever heard a gun before
Register with Garands, knives and giant powder
Clearly demonstrate, how we win a war.

Unseen is our limousene, war is now our trade
Fighting for the Red, White and Blue
We are sailing down grade and nobody is afraid
The jabbering Japanese, we will soon subdue.
All new equipment, first class in construction
Every soldier a fighter to the core,
This is not ninety seven but an imp of destruction
Modeled, shaped and fashioned for this war.

We Know Our Job--

But We Need Your Help!

Our job is to keep the trucks and cars running for the duration. Goods, for the war effort, must reach their destinations. Workers must be on the job every day. At least 85% of this transportation depends on private owned trucks and cars.

These trucks and cars are getting older—they need more attention—but, they must be kept going. It's true, our service department is working overtime on these trucks and cars—but we can keep you going, if at the first sign of trouble, you will call us—a definite appointment can be made to care for your needs so that delays in delivering of goods or loss of time from work can be avoided.

OPA Advises How To Replace Lost Gas Books

Local residents who have lost, destroyed, or mutilated gasoline ration books or coupons will be interested in regulations forwarded to the local war price and rationing board by OPA.

A definite procedure is to be used in applying for replacement of the books or coupons, in order that there may be uniformity of action.

The four necessary steps follow:

1. Applicant must sign an affidavit, before a notary public or the chief clerk of the ration board authorized to take oaths.

2. Applicant must advertise in a newspaper having general circulation in the area in which the applicant resides at least twice within the 10 days following the application, requesting in said advertisement that the finder return to the applicant at his address the ration book or coupon described in the application, which description shall be stated in the advertisement. The applicant must advise the local police department of the loss of said book or coupon.

3. Applicant shall mail a copy of the advertisement to the enforcement attorney in care of the Columbus OPA office.

4. After the elapse of 10 days the applicant may appear before his local board or the clerk thereof and upon exhibiting a copy of the advertisement and stating that the loss had been reported to the police department and that said book had not yet been returned the applicant may receive a replacement of the lost, destroyed or mutilated coupon book or certificate.

In the event that the denial of a replacement of a lost coupon book during the 10-day period will directly retard the war effort, the provisions for withholding the replacement during the 10-day period may be waived by the local board and the coupon book may be immediately issued: however, the applicant must still sign the affidavit, advertise at least twice and notify the police department, and send a copy of one of the advertisements to the district enforcement attorney. In the event the lost coupon book is returned it must be turned over to the local board.

Ventilation Important In Fighting Fires

Ventilation plays an important part in modern fire fighting, according to Lieut. J. Jordan of the city fire department. When a fire is discovered, it is best to close the door and call the fire department. Closing the door will retard the spread of the fire by confining it for a short time to the place where it started.

The heat of the fire drives the smoke and gases up through vertical stairways, and horizontally through the halls and rooms. Unless the place if quickly ventilated the concentrations may reach deadly proportions. The matter of ventilation at a fire should be left to the firemen, who, by experience and training, are acquainted with the proper procedure. A fire might start in the basement and never get above the first floor. Yet someone asleep upstairs might be found dead after the fire had been extinguished due to the accumulation of heat and smoke in the upper part of the house.

The recent Cocoanut Grove fire in Boston can be used to illustrate this point. In that disaster, some 500 people lost their lives, but the records show that only a small fraction of that number were burned to death. The rest were either asphyxiated or trampled in the panic. This tremendous loss of life probably would have been lower had someone been able to break a few windows and released the heat and smoke.

So rapidly do bacteria multiply that it is said by scientists one bacillus in 24 hours will produce 16,500,000 others.

Men in the U. S. armed services now wear a pair of identification tags.

Don't brag, the whistle doesn't drive the steamboat.

The greatest argument in the world for advertising is the eternal fact that to the man who does not know you—you do not exist.

When I was a boy of 14, my father was so ignorant I could hardly stand him around. But when I got to be 21, I was astonished at how much the old boy had learned in seven years.—Mark Twain.

WE CAN'T REWARD THEM HERE

We'll never know all the suffering
Of soldiers on a battlefield,
All the pain and hardships endured
Will never be revealed.
Long hours on a lifeboat drifting
No place to lay their head
But they'll be rewarded in Heaven
When the sea gives up its dead.

Many are killed in the first battle
And we think that fate is unkind
But nothing can equal the suffering
Of the living crippled and blind.
Drifting on a raft no food or water
A tropical sun overhead
But they'll be rewarded in Heaven
When the sea gives up its dead.

—C. S. Parks.

Dinners To Stretch Meat Allowances

"Alternate main dish" is a new phrase that has come up this winter to describe the mainstay dish of a meal when it isn't made of a restricted meat. While poultry and the small meat organs, or "variety meats," as they're often called, are included in these "alternate main dishes," for the most part they are made from the same materials many people have always used during the Lenten season . . . fish, eggs, cheese, beans and nuts.

Dishes made from any of these materials will "stick to the ribs" well, have flavor and supply protein similar to the protein of meat. Using whole-grain or enriched grain products and dark green leafy vegetables and potatoes, adds to the total food value of meals with main dishes made of fish, poultry, eggs, dried beans and peas, soybeans, and nuts.

Scalloped cheese, spaghetti and cabbage make a hearty dish . . . almost a meal in itself. Make alternate layers of shredded raw cabbage, cooked spaghetti, and cheese sauce in a greased baking dish. Top with bread crumbs and bake until the crumbs are brown. Always keep the heat moderate when cooking cheese, or dishes containing eggs.

Another good cheese dish is **tomato rabbit.** This is a colorful cousin to Welsh rabbit. Melt 2 tablespoons of fat in a skillet, add ½ cup of chopped celery, ½ of a green pepper, chopped, ½ of a small onion, chopped. Cook a few minutes, stiring often. Sprinkle on this 2 tablespoons of flour and pour in 1 pint of cooked or canned tomatoes. Add ½ pound of cheese shaved thin and 1 teaspoon of salt. Cook over low heat, stirring until the mixture thickens and the cheese melts. Pour some of the mixture into 2 well-beaten eggs and pour all back into the skillet. Continue cooking until thickened and creamy. Serve hot on crisp toast or crackers.

Bean "sausages" are another cheap and hearty dish. Mash 3 cups of cooked beans and mix well with ½ cup of bread crumbs, 2 beaten eggs, 1 teaspoon of sage, if desoired, and salt and pepper to taste. Shape into sausages, dip in raw egg beaten with a little water. Moisten with milk. Roll in bread crumbs and brown in a little melted fat.

Nut and potato cakes are easy to make. Use left-over potatoes, white or sweet. Mash and season them, add 1 cup of chopped pecans, almonds, or filberts for each cup and a half of mashed potato. Brown the cakes on both sides in a little fat. For white potato and nut cakes a tomato and cheese sauce goes well.

Fish chowder is another substantial main dish. Ingredients are:

1½ pounds fresh or frozen cod, haddock, or any other large fish
2 cups diced potatoes
1 cup diced carrots
1 quart water
¼ pound salt pork, diced
1 onion, chopped
2 tablespoons flour
Salt
Pepper
1 pint milk

Cut the fish into small pieces and remove bones and skin. Cook fish, potatoes, and carrots in the water for 15 minutes. Fry the salt pork until crisp, remove from the fat, cook the onion in the fat for a few minutes, add the flour, stir until well blended, and add the milk. Add this mixture to the fish and vegetables, add the salt and pepper, stir frequently, and simmer for 10 minutes longer, add more seasoning if necessary, and serve over crackers.

Government Sponsors Explosive Course

Under the sponsorship of the federal government, a free full-time day course in chemistry of explosives will start at the Ohio State University Apr. 5. The course will last six weeks.

The course is for men and women with three years of college chemistry, including organic, and prepares the students for war work in ordinance plants, as supervisors, inspectors and in other positions.

Dr. Herrick L. Johnston of the department of chemistry will have charge of the instruction. Applications are now being received at the office of Prof. Harry E. Nold, director of war training classes, in Lord Hall on the Ohio State campus. The class is limited in size.

Lieut. George D Jones who recently spent his 10-day furlough with his sister, Mrs. T. J. McNaughten, 2882 Neil-av, has returned to Aberdeen, Md.

"I called to make an appointment with the dentist."

"He's out now."

"Good, when will he be out again?"

The world is full of hard knocks, but take them all. One of these knocks is sure to be opportunity.

Spring Brings New Duty Toward Car

Declaring that the arrival of spring this year brings with it a critical stage in the preservation of the nation's automotive transportation system, Ed Hedner, national director of service for Chevrolet, urges the individual car and truck owners of America to accept as their patriotic duty the responsibility of making sure their vehicles are thoroughly and properly "Spring conditioned."

"There are many reasons why it is tremendously important for owners to accept such responsibility this year," he said. "Subnormal driving at low speed, plus the attendant inclination of many owners to neglect proper service, and the rigors of severe winter conditions in many sections of the country have exacted heavy toll of the nation's cars and trucks.

Whether or not our motor vehicles will continue to function effectively in getting war workers to and from their jobs, and in transporting an increasing volume of war materials depends, to a large extent, on how well the individual owners respond right now to appeals from the government as well as industry to put their equipment in the best possible operating condition."

Vital statistics of the nation's car and truck "population" were offered to point up the urgency of the situation and to impress upon owners their responsibility in maintaining transportation vital to the war effort. These statistics show that prior to Pearl Harbor, more than 5,000,000 passenger cars and 1,500,000 trucks, consigned to the scrap heaps, left the highways every sundown, never to return to service.

Today with the birth rate "zero" as the result of the cessation of production of cars and trucks for civilian use, it is pointedly plain, according to Chevrolet's national director of service, that we must take good care of every vehicle now in operation, to assure its enduring usefulness in helping to win the war, according to representatives of the Rodenfels Chevrolet Co.

31st Political Spell

This Hilltop is becoming a hot political spot these days as time for the city mayoralty race draws near.

Mayor Floyd Green, who lives at 3046 Crescent-dr, will seek re-election and now comes the news that Newton Thatcher, who lives east on Crescent-dr, just two blocks from the mayor will also be in the race.

There has also been some talk about Councilman Ray Hauntz being a candidate. Ray lives within a stone throw of Mr. Thatcher on Binns-blvd.

Jerry Spears, local funeral director, has been talked of as a candidate but he has no statement to make as yet.

This spring weather may bring out more candidates yet. It looks like a lively time ahead!

More About Dogs

Bernard Shoaf representing the Columbus Police Department, was a caller at the Record office Wednesday stating he had been making numerous calls regarding complaints against dogs in the community.

He pointed out that Chapter 17 of the city code, section 1007 deals with animals running at large and points to a fine of $5 to $50 for conviction of owners of such animals.

"We are not seeking arrests," he said. "We merely want dog owners to keep their dogs confined to their own premises and thus make it possible for people of the community to raise better victory gardens and more beautiful lawns."

Dramatize Party

West Play Selected

[illegible] of the Frying Pan," a very successful Broadway play which has been lauded by New York critics as one of the most hilarious comedies produced, has been chosen by West High's senior class for their annual production.

These parts are to be portrayed by Alice Erb, Jane Gibbon, Marjorie Bast, John Brown, Don Murphy and Tom Webb. The supporting parts are to be played by Dick Janes, Roger Miller, Bonnie Lear, Gloria Calentine, Louis Womeldorf and Don Stout.

Full of youth and laughter, the play promises to be highly entertaining from the very beginning until the final curtain falls. The dates which have been set for the performances are May 13 and 14.

charge of the program. Mrs. M. Robinson will lead devotions. This is the last meeting of the year. All members are urged to be present. Mrs. Roy Goudy will be assistant hostess.

Mrs. W. W. McNutt, chairman of Circle No. 2, will entertain her circle in her home, 756 Racine-av, Tuesday, Apr. 6. This will be a luncheon. Mrs. Earl Fulton will have charge of the program and Mrs. Harry Starchfield will be in charge of the devotions.

A collection of favorite classics including the "Blossom Time" symphony by Schubert, combined with folk tunes and popular melodies will comprise the program as arranged by conductor Izler Solomon for the Columbus Philharmonic "Pop" concert, Apr. 11, in Memorial Hall.

This concert, marking the first attempt of the orchestra to present a program of this nature, is designed for the layman and musician alike. The concert is dedicated to all service men and war workers, and as an added convenience, will be played on Sunday afternoon at 5 p. m. so that those who heretofore have been unable to attend the evening concerts might share in the enjoyment of their own orchestra. The twilight hour was also selected so that parents might bring their children and to enable young music students to attend in a group.

The board of directors of the Philharmonic Association wish to point out that the Sunday afternoon concert is a supplementary one, and that all season subscribers, holding tickets for the fifth and last scheduled concert of the season, previously announced for Apr. 20, will be presented on Monday, Apr. 12, with the same program as that planned for the Sunday concert.

Tickets for the "Pop" concert will be sold by section, rather than reserve seat, and may be secured at Seiller's. Mrs. W. L. Millikin is in charge of the sale in Hilltop district after Apr. 5.

Women's

which form a part of the deeds to each lot in the Westgate Park Addition.

The first named companies and Sam Roessler intended that Mr. Chapman should bring an individual enjoinder for each of these companies or individuals and the judge ruled as follows:

To require separate actions would, in the opinion of the court, only result in a multiplicity of suits and a complete inability to settle the question raised in this case.

Readers of The Record will recall that previously Judge Duncan had ruled that Mr. Chapman was in his right to ask for an enjoinder on behalf of himself and other residents who might be injured by the construction of these lower cost homes. Judge Gessaman's ruling also established the right of Mr. Chapman to enjoin the defendants jointly which he had elected to do and that in the opinion of the court the defendants were properly joined.

It was also brought out that the Pavey-Johnson Co. had established a general plan of uniform restrictions which had been represented to prospective purchasers and covenanted to purchasers of lots in the subdivision and that all sale of lots in this subdivision would be made subject to these restrictions and that the restrictions would be for the protection of everyone who might become an owner of a lot in this subdivision.

It is hoped by interested parties that the above ruling will expedite bringing this case to final conclusion in the courts very shortly and will definitely establish that the restrictions as set up must be maintained by all interested parties not only for residences built in the past or under construction at this time, but those to be constructed in the future.

Little Beaver Rates a "B" Card

WestHigh Round-Up

By Shalmir Springer

Comes Spring and everyone seems to have visited the hairdresser's. Some of the boys with those "glamor" haircuts are "Rabbit" Evans, Louis Erf, Dick Gilmore, Bob Harvey, Joe Moore, and Don Sturdevant. Perhaps they did it to keep up with a fashion of fads since the girls have their hair in braids? Phyliss Gill, Gladys Sohr, Ruth Slick, Marilyns Mitchell, Jane Dugan, and Shirlee Bradford . . . just to mention a few. And Karen Dentner threatens to cut her long locks. Don't you dare . . . Say, girls, what's wrong with West High boys? Evelyn Kenworthy says "Hilliards for me!" Pat McDonald sticks to Aquinas, while Dorothy Henderson's interest attends State.

Here and There . . . Bob Busick is our baseball manager again this year . . . Barbara Dauber was tossed into a barrel the other eve. They say she looked funny struggling to get out . . . Ted Scharrenberg and Bill Schneider are surely some rug cutters . . . and Norma Ours has three pairs of shoes!! Are you engaged in the black market, Norma? . . . Mollie Mills is out scouting for a new boy friend . . . Dan Jenkins and Bill White are now working at Union Fork and Hoe Co. . . . It's being told that Ted Colburn bit Beverly Phillips.

With the Students . . . We congratulate John Layman and Marjorie Bast, Seniors, four points. Bob Van Order, who placed fifth in the state history scholarship test last year is taking the same this year. GOOD LUCK!! Bouquets for the only two girls who got "A" from Mr. Stone in Chemistry, Barbara Dauber and Dorothy Henderson . . . It seems our dramatics teacher, Mrs. Gillmore, has a hard time teaching the boys to put the correct feeling in the words "I love you" but Eugene Jewell finally reached near-perfection. And with the students should be included Beverly Biglow, who has learned not to talk in Latin class.

Seen at the Tournament . . . cute sophomore manager, Betty Ham in blue slacks and jerkin . . . the star of the sophomore team was guard "Tubby" Underwood . . . How could anyone miss those sharp red shorts of the Juniors . . . Ruth Placke has been unofficially acclaimed Junior all-star . . . Aggie Hart and Mollie Mills had their hair in pigtails . . . "Rinky" Cleveland drew some admiring glances as she passed the crowd . . . Most disgusted person of the week is Jenny King who gave up skating for Lent, and along comes the G. R. A. party. But more about that next week.

TO DR. HOWARD WHITEHEAD

To live and serve for fifty years
The suffering human race,
Requires great strength of brain and brawn
And infinitude of grace.

I see this doctor when a youth,
Begin his life's profession,
And privileges and comforts few
Had he in his possession.

But handicaps were overcome
By grit were circumvented,
So one by one they disappeared
And left him quite contented.

With eager mind new truth to gain
He never tired of learning,
He delved in books and magazines
Their countless pages turning.

For one ambition filled his soul
One purpose over all,
To bring the best of mind and heart
To answer human call.

Would that all youth in quest of fame,
This lesson would learn well,
That true devotion to life's task
Will real achievement spell.

To labor thus so many years
And still be "going strong"
Marks an unusual record
That to very few belong.

To work with God for fifty years,
And serve both rich and poor,
With trust in One—the Lord of life
The future is secure.

About Service Subscriptions

We cannot accept subscriptions for service men who are now overseas unless the subscription is accompanied by a written request from the service man endorsed by his proper superior officer.

We can accept subscriptions from anyone for any service man who is now in the United States and we can follow him wherever he goes without any further "red tape" and if subscription is renewed we can continue it for such time as the renewal calls for.

You may mail your copy of The Record to your service man as long as he is in the United States but we advise you to subscribe for him in order to assure his getting it if he goes overseas.

Under present conditions we cannot, of course, guarantee that each and every copy will be delivered but we can assure you that chances are better when we mail it for you.

The subscription rate outside of Franklin County is $2.00 per year, each copy to service men is wrapped for convenience in handling and the address may be changed as often as necessary.

Receipt of The Hilltop Record by your boy is just like a big letter from you.

Come in to The Record office or mail your check with full complete address or phone it in and we will start it and send collector.

The above is the subscription situation as it now stands. The government or post office department may find it necessary to modify or change the rules from time to time but in any case your best bet is to subscribe for him NOW.

Send him HIS community paper NOW.

REMOVE WHAT THORNS YOU CAN

I counted three stars in one window
Three boys gone away to war,
The joy of spring won't likely bring
Much pleasure inside that door.
To the rugged cross they're clinging
Praying for those far away
The spring birds are gaily singing
But no music will they convey.

They've made a wonderful sacrifice
Remove all the thorns you can,
Giving our best to protect the land
Is the plan of God and man.
Remember your next door neighbor
Who have boys over the sea
Visit them often after your labor
Extend your love and sympathy.

Colors "Styled" to Match Upholstery for New "Ash" Rattan Furniture

"A little more Texolite now," says Leo Juranek, as he helps Pat Fitzgerald produce a color to match upholstery in the new line of "ash" rattan furniture just being introduced by Haywood-Wakefield. There are no priorities on ash for this new line of "war-time" furniture. And there is no priority on water, used to mix with Texolite. So both fit well into today's requirements.

The Black Market in Meat

The present widespread growth of the black market operations in meat is a matter of growing grave concern.

Make no mistake about it—the black market is a serious menace to our country, fighting for its life. Unless it is broken up the food supply for our armed forces and camps here at home and on the fighting fronts overseas is threatened. A steak diverted from regular channels of trade well may be meat needed for your son, your nephew or the "kid next door."

As the result of black market operations and of meats being sold in violation of price ceilings and meat delivery restriction orders, the meat packing industry is not getting livestock in sufficient quantities to meet government requirements and the requirements of heavily populated civilian areas in the United States.

Without prompt adequate enforcement, the situation menaces the existence of many in the meat industry and the honest, patriotic American retailer who refuses to deal in meat "stolen" from normal channels where it is needed to help win the war.

Heavy penalties are provided for black market operations. Violators are subject to various criminal and civil penalties, and for certain violations may be fined as much as $10,000 or imprisoned in a Federal penitentiary up to 10 years, or both.

Black market operations can be classified broadly into two types. The first type pays high prices for live animals, for by ignoring price ceilings on dressed meat he can get exorbitant prices for meat. The second type of black market operator is the smaller killer who is going far beyond his quota allowed under the Restriction Order.

A soldier, sailor or marine can't fight without food. A supply of food would have saved Bataan. We must not have another "Bataan."

To illustrate what is happening, the Federally inspected slaughter of hogs in January was 28% less than was anticipated prior to January. In the case of cattle, there was a decrease of 12 percent. In the case of calves, the decrease was 26 percent. Similar significance decreases occurred in February.

Black markets are causing heavy losses of material vital to the prosecution of the war—including hides (needed for shoes for our fighting men), fats and oils, and other products essential to the war effort and our civilian economy.

One of the steps designed to help break up these illegal operations is a government permit system under which the slaughter for sale of meat animals is prohibited unless a permit has been granted in advance. This system, effective as of April 1, covers all slaughterers from the very largest down to the farmer who sells meat to others.

Under licensing, all meat of every description on every market should have upon it the government permit number. Look for this permit number, or the regular Federal, state or local establishment number which, in the case of these meat packers, is the permit number. Your meat man, handling legal meat will be glad to show you the permit or inspection number on the wholesale cuts he receives.

The black market has lowered the amount of meat civilians in this country will receive under rationing. Unless corrected it may sentence thousands of American soldiers, sailors and marines to death, by lengthening the war.

Wartime Recipes

A secret of true genius lies in being able to do much with little.

Here are some recipes that are easily prepared, economical, nutritious and tasty.

Baked Meat Roll

1½ lbs. round steak
2 cups soft bread crumbs
1 Tbsp. chopped onion
2 tsp. salt
¼ tsp. pepper
2 Tbsp. melted butter
1/3 cup water
1 Tbsp. chopped parsley
2 Tbsp. fat

Sprinkle one teaspoon of the salt over the meat and add the other teaspoon to the bread crumbs, onion, melted butter, water and parsley, which have been thoroughly mixed. Spread this mixture on top of the meat and roll up like a jelly roll. Tie with a white string. Place in a baking pan, add half an inch of water and the fat. Cover and bake one hour in moderate oven. A browned gravy may be made from the drippings and served with the meal if desired.

Butterless, Milkless, Eggless Cake

1 cup brown sugar
½ cup fat
2 cups raisins
½ tsp. salt
1 cup water
2 tsp. cinnamon
½ tsp. cloves
½ tsp. mace
½ tsp. nutmeg
1 tsp. soda
1 tsp. baking powder
1 tsp. vanilla
2 cups flour
½ cup nutmeats

Place the sugar, fat, raisins, water, salt and spices in a stew kettle and cook slowly, stirring constantly for five minutes, cool, add all the rest of the ingredients and beat for two minutes. Fill a loaf-cake pan, lined with waxed paper, half full, and bake in a moderately slow oven for about one hour. This cake keeps moist a long time.

A modern wise man was once asked if he believed in luck. Here is his answer:

"Do I believe in luck? I should say I do. It's a wonderful force. I have watched the careers of too many lucky men to doubt its efficacy.

"You see some fellow reach out and grab on opportunity that the other fellow standing around had not realized was there. Having grabbed it, he hangs on it with a grip that makes the jaws of a bulldog seem like a fairy touch. He calls into his play his breath of vision. He sees the possibility of the situation, has the ambition to desire it, and the courage to tackle it.

"He intensifies his strong points, bolsters his weak ones, cultivates those personal qualities that cause other men to trust him and cooperate with him. He sows the seeds of sunshine, of good cheer, of optimism, of unstinted kindness. He gives freely of what he has, both spiritual and physical things.

"He thinks a little straighter works a little harder and a little longer; travels on his nerve and enthusiasm; he gives such service as his best efforts permit. He keeps his head cool, his feet warm, his mind busy. He doesn't worry over trifles.

"He plans his work and then sticks to it, rain or shine. He talks and acts like a winner, for he knows in time he will be one. And then . . . LUCK does all the rest."

Home Sewing Solves Clothing Problems During Wartime

Sewing for yourself is a soul satisfying activity—it gives you a sense of achievement as nothing else does, and besides, it gives you something pretty to wear.

Facts from all fronts indicate that American women are sewing today—more busily than they have since the days when great, grandmother made all of her own clothes, the children's and even great-grandfather's shirts by her own fireside.

Naturally, the war with its accompaning shortages of manufactured civilian goods has accelerated the return to making clothes at home. People associated with home sewing in all its branches, however, feel very strongly that this increased interest in sewing is by no means entirely an outgrowth of wartime conditions. As a matter of fact, an ever-growing interest in sewing had been observed for several years before the outbreak of the war.

The economy of making clothes at home is another factor which has increased the ranks of home

April Fool Story That Really Fooled

Mack Sauer, editor of our Greenfield Times, recently pulled a stunt that has been publicized far and wide.

It happened on Apr. 1. The Times that day carried a big front page picture with appropriate headlines and story of the bombing and destruction of the Ohio State Stadium.

It was a "duzy" of a story. And it was realistic in every detail. But it was continued on page three where it was properly related that the whole thing was a concoction of the editor's mind . . .

The Ohio State Lantern this week carried a detailed story of how it all happened. The townsfolks laughed and damned Mack. But he can take it.

Just to give you some idea of how the story reacted we print herewith a letter from a Greenfield boy stationed in a Florida camp:

"We got the paper about the bomb bursting in the Ohio Stadium. There are lots of fellows from Columbus here and when we read those headlines we went sky high. Fellows went like the very dickens to tell their buddies and they all swarmed in my room to read about it. Well, there was such an uproar that we elected someone to read it out loud. We all sat there with our mouths open and all kinds of things were said, but when they came to the end, well, that's a long story. Some laughed, others didn't. You can tell Mack Sauer that he was called every name that a soldier could possibly think of, and if they ever see him, his life isn't worth a nickel. Some fellows went out while it was being read and wrote letters home. The news spread over the camp like wild fire."

True Today As Then

"The candid citizen must confess that if the policy of the Government upon vital questions affecting the whole people is to be irrevocably fixed by decisions of the Supreme Court, the instant they are made, as in ordinary litigation between parties in personal actions, the people will have ceased to be their own rulers, having to that extent practically resigned their Government into the hands of that eminent tribunal."

Lincoln's Inaugural Address,
March 4, 1861.

Retlaning

Our forefathers did without sugar till the 13th century; coal fires till the 14th; buttered bread till the 15th; potatoes or tobacco till the 16th; coffee, tea or soap till the 17th; pudding till the 18th; gas, matches, or electricity till the 19th; canned goods till the 20th; and we have only had automobiles for a few years. Now what was it you were complaining about?

Hilltopper In Guadalcanal Discovers He is Not Citizen of This Country

By Shalmir Springer

A Hilltop boy who is in the service and who has participated in the battles on Guadalcanal, was discovered recently as not being a citizen of the United States. It all happened his way:

Ferdinand Maier, 118 N. Ogden-av, left Germany with his mother and step-father, Mr. and Mrs. Fred Moier, in 1927, when he was seven and a half years old.

Because his father was dead, Ferdinand couldn't become a citizen of the United States on his parent's papers. Before his induction into the army he applied for his first papers, but before the two years had expired so that he would have been able to take out his second papers, he was inducted.

Now resting from his experiences on Guadalcanal, on an island out of the war zone, Ferdinand visited the American consul in a large city there, and inquired how he would become a citizen. Though highly recommended by his commanding officer, he must return to the states before taking out his second papers.

Mr. and Mrs. Moier, with their son, Ferdinand, moved first, on their arrival in the United States, to Cedar Rapids, Iowa, where Ferdinand began his schooling. From there they went to Wisconsin, then to Chicago. In 1930, the family moved to Columbus, where Ferdinand attended Dana Ave. School until he started to West Jr. High. He graduated from West High in 1938 and then attended Ohio State University, studying chemistry, until the time of his induction, June, 1941, when he was a junior.

He was first sent to Camp Lee, Va., where he trained in specialized carburater work for trucks, automobiles and tanks. He was transferred to Camp Blanding, Fla., where they put him in the office due to his typing and bookkeeping knowledge, both subjects which he took while at West. He is a corporal in the Ordinance Co.

Christmas a year ago, Mr. and Mrs. Moier with the dog, Elmer, visited the camp. Mr. Moier returned from his vacation after two weeks but Mrs. Moier remained a week longer at Daytona Beach; then, with her son, she came back to Columbus.

After his 10-day furlough here was completed, Ferdinand went back to Camp Blanding, when he was sent out of the states. He arrived in Australia but stayed there only three days. He remained at New Calendonia for eight months, where he bought a horse and a deer for companions. He was missing a pet as badly as Elmer was missing him. Elmer kisses all the letters received from him and when Cpl. Maier's friends visit, Elmer is friendly but watchfully waiting for his master to come, also.

Mrs. Moier inquired in her letters about the natives of New Caledonia and he replied they were more friendly and more helpful than the white people there. The next letter she received was from Guadalcanal written in the fourth week of November, 1942, where he saw the Japanese fleet destroyed by the U. S. Marines "right in our own back yard." His last letter from Guadalcanal was dated Feb. 27.

Cpl. Maier has told his parents in his letters that he is in better health since he has been in the army than ever before.

Ferdinand has crossed the oceans four times. When he came to America and when he visited in Germany with his parents, he crossed the Atlantic. He crossed the Pacific only once.

Hilltopper Named Air Raid Warden

Lt. Glenn H. Barr, 734 S. Eureka-av, of the Fire Department has been appointed by Mayor Green as Chief Air Raid Warden of Franklin County. Lt. Barr has been active in Civilian Defense training and the fire department drill school teachings for the past two years.

The new air raid chief will have offices in the Civilian Defense headquarters, fourth floor of City Hall.

He graduated in the January class of 1938, West High School. He was associated with Pfeifer Printing Co. and for the past two years The Chas. Haas Co., Detroit.

Pvt. Donald Howard Bierly, son of Mr. and Mrs. C. H. Bierly, 27 Schultz-av, is assigned to training as a liason pilot in the army air corps. He is now stationed at the Liason Detachment, Waco Flying School, Waco, Tex.

Sgt. Arthur E. Baker, son of Mr. and Mrs. James W. Baker, 2109 Sullivant-av, is stationed at Tarrant Field, Fort Worth, Tex., where he is an aerial engineer. He was graduated from West High School in 1939 and was employed by the State of Ohio at the time of his enlistment, Oct. 4, 1940.

Pfc. W. J. Freudenberger, son of W. J. Freudenberger Sr., 123 S. Brinker-av, is stationed at Drew Field, Tampa, Fla., in the finance office. He has been qualified and accepted for officers' training but has not yet been called. He was first sent of Fort Benjamin Harrison, Indianapolis. He went through specialized training and received 97% over-all rating. He went to Tallahassee, Fla., then to Drew Field where he is now stationed.

New Hours Set Up For Ration Board

New hours for the local War Price and Ration Board at Franklinton School, Sandusky and Broad-sts, have been announced as follows:

Monday, Tuesday, Thursday and Friday, 8 a. m. to 5 p. m.; Wednesday, 12:30 to 9 p. m.; Saturday, 8 a. m. to 12:30.

Persons who can conveniently visit the ration board earlier in the day are asked to conduct such business earlier than Wednesday night, that period being reserved for war workers.

Retail meat dealers were this week warned that sale of meat without surrender of red stamps is flagrant violation of the meat regulation and subject to prosecution. Retailers so violating the regulation will be cut off from their supply.

Rubber director William M. Jeffers described car-sharing as an efficient, economical and necessary means of wartime transportation in a statement received today by C. C. Hartley, chairman of the local War Price and Rationing Board.

The statement was made by Mr. Jeffers in support of the program set up by the Office of Price Administration and the Office of Civilian Defense to help the nation's car owners form car clubs to save rubber.

Mr. Jeffers' car-sharing statement follows:

"From the standpoint of rubber conservation car-sharing is good common sense.

"It is obvious that when neighbors or fellow workers ride to work together less rubber is worn off tires than if each man drove his own car alone. Yet every man gets the transportation he needs to get to his job.

"Passenger cars can be operated on recapped tires while buses require tires made with much larger quantities of crude rubber. Hence passenger cars filled to capacity, and used efficiently as they are in car clubs, can provide much needed economical war transportation. Most busses are already overloaded.

"Car sharing has rightly been a requirement which applicants needing supplemental rations for occupational mileage have been asked to fulfill under the mileage rationing program. It is also right that the government, having required car owners to share their cars should give motorists all possible help in forming these clubs. The government, through a program set up by the Office of Price Administration and the Office of Civilian Defense, is providing this help, and it should mean that before long added millions of ride sharers will be giving real impetus to our efforts to conserve tires."

The Hilltop party will include in addition to Pastor Mitchell, James Hiland, Robert Busick, Kenneth Beymer, Barbara Busick, Betty Ann Keidel and Marion Puckey.

COAL OUTLAWED

In 1306 King Edward I of England forbade the burning of coal as a fuel. Its use was believed to be dangerous to health and vegetation.

WestHigh Round-Up

By Shalmir Springer

I had loads of fun at the G. P. A. skating party and so did all the others who went. Some of those skating together were George Hopkins and Wilda Swain, Joan Kent and Tom Calhoun, Jane Hawthorne and Jack Remington. Jane Gibbon was with Firman Moore. . . . Mollie Mills and "Bunny" Watkins were there and so was Gladys Sahr with Woodrow Pickering . . . Shirley Meyers took Jack Boggs and Ruth Black took Tom Webb with her . . . And that red polkadot jumper of yours is really a fashion note, Ruth . . . Stanley Frost and Doris Waddell were certainly skating in rhythm. Do you go in for the name Stan, Doris, or is it just a coincidence that you and Stan Stensell entered the auditorium the other day? . . . Jean Ann Spohn was having a good time with her man for the evening, Donn Crosby . . . Brunette beauty, Doris Huey was with Sammy Johnson.

Some of those who couldn't go to the G. P. A. were Gloria Hill who fractured her ankle but is back at school now . . . Glenn Chevalier had his tonsils out . . . Rosemary Rich is still out of school but she's improving. Everyone hopes you're back soon, Rosemary. . . . Joan Gill was out a week but she came back Mon.

Stuff and Such — When you're gloomy just have Pat Leach tell you her moron jokes . . . her favorite entertainment . . . Virginia Frim objected to ens. 12A getting a pineapple . . . Paul Berndt was told in shorthand class that the 'woman was always right. The girl in this case was Donna Spellman . . . Sally Kirkpatrick looks forward to her typing class each day . . . We should report Pauline Alderman to the Humane Society for her treatment of her cat. . . . Are car breakdowns always fakes? Ask a certain couple of girls over at school. . . . Beverly Phillips, Marjorie Norris and Helen McHenry never stay home on Saturday nights . . . Want to read something interesting? Get Edythe Seabolt to show you some of her letters she receives . . . Barbara Bill was cross-examined in 1st period health class about vitamins and such . . . Ellen Clark's birthday was Monday . . . Alumnus Dave Riggs is a frequent visitor at West.

We congratulate Bob Campbell who doesn't have to wait till June to graduate but is starting in pre-med at State this quarter . . . Also Dick Hoover for being a "find" for the New York Giant's scout.

Descriptions — "Curley," or in other words Stanley Smith. "Shorty with the red necktie" is John Brown.

Our two poet laureates of West are Charles Fairn and Bob Howards, so until next week when I hope to have a representative work from each.

O. K. TO BE DUMMY

It is no discredit to be the "dummy" in bridge.

MY GAS STATION HOURS

Until eleven P. M. I sell gasoline
Seven nights in the week,
Sealed Tiolene refined pure and clean
In my station antique and unique.
Wisconsin and Broad is the location
Drive in when you need fuel
My station is rationed for the duration
But my hours are really a jewel.

Jewels to help you on your journey
Get you home late at night
The phyrician, optician, layman, attorney
All smile when they see my light.
Uncle Sam I'm trying my best to assist
Though I have very little skill
And I think everybody should now enlist
And force Hitler to lay still.

The imprint carries a patriot and Christian symbol with the main lettering: "The Church Always a Priority," and the motto: "A Changeless Christ For a Changing World."

THE 2ND WAR LOAN STARTS APRIL 12

13 billion dollars must be raised!

The government of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we must do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough now to win this war!

WE'VE GOT TO BUILD MORE!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year still won't be enough!

WE'VE GOT TO FIGHT MORE!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

AND WE'VE GOT TO BUY MORE WAR BONDS!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battlefronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion extra dollars this month. 13 billion dollars over and above our regular War Bond buying! In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever forget this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and get the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your own sake—invest all you can!

THERE ARE 7 DIFFERENT TYPES OF U. S. GOVERNMENT SECURITIES—CHOOSE THE ONES BEST SUITED FOR YOU:

United States War Savings Bonds—Series E: The perfect investment for individual and family savings. Gives you back $4 for every $3 when the Bond matures. Designed especially for the smaller investor. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: $500, $1000, $5000, $10,000, $100,000—also $1,000,000 if registered. You are Invited to See Rugs Weaved

Ever see rugs weaved? You are invited to see them made.

Visit the Feather Craft Bedding Co. showroom at 1012 E. Main-st. There, before you is a charming lady weaving rugs of beautiful designs and patterns.

Fifty years ago, so says Edna Rader, operator of the loom, weaving rugs by hand was a thriving business. They were even popular up to 20 to 30 years ago, we are told. But hand operated looms were cast aside in the mad scramble of progress. They became a thing of the past—for youngsters to read about in their school books, like the cotton gin and the first phonograph.

Since the war, rug weaving is again becoming popular, Miss Rader says. The shortage of manpower and raw materials at the large factories is forcing the hand loom back into service. Beautiful rugs can be made to order either from old rags or from new yarn and Miss Rader will make up the pattern desired to suit individual tastes.

So unique is the hand loom in this day and age that H. S. Irwin, manager of the Feather Craft Bedding Co., is inviting the public in to see the loom in operation. School classes in particular are extended a cordial invitation.

Persons who are acquainted (and those who are not) with the long wearing, old-fashioned woven rugs can bring their rags or other material to Miss Rader, who incidentally has been weaving rugs since she was nine years old, and watch them be transformed before their eyes into amazingly beautiful floor pieces at very reasonable prices.

Dedicate Concert To Service Men

A collection of favorite classconcert of the season with the Time" Symphony by Schubert—combined with folk tunes and popular melodies will comprise the program as arranged by conductor Izler Solomon for the Columbus Philharmonic "Pop" concert, April 11 in Memorial Hall at 8 p. m. This concert, marking the first attempt of the orchestra to present a program of this nature, is designed for the layman and musician alike. It is dedicated to all service men and war workers.

The board of directors of the Philharmonic Association wish to point out that the Sunday afternoon concert is a supplementary one, that the fifth and last scheduled concert of the season, previously announced for April 20, will be presented on Monday, April 12. The rapid induction of orchestra personnel into the armed forces necessitates this change in date in order that Mr. Solomon might present the last concert of the season with the present orchestra members.

Tickets for the "Pop" concert will be sold by section, rather than reserve seat, and may be secured at Long's Book Store. Mrs. Hoyt Sherman is in charge of the sales in the University district.

JITNEY SUPPER

The Ladies Aid of Hilltop Church of Christ will have a jitney supper at the church at the corner of Burgess and Olive-st, Friday evening, Apr. 16, starting at 5:30 p. m. Everybody is welcome.

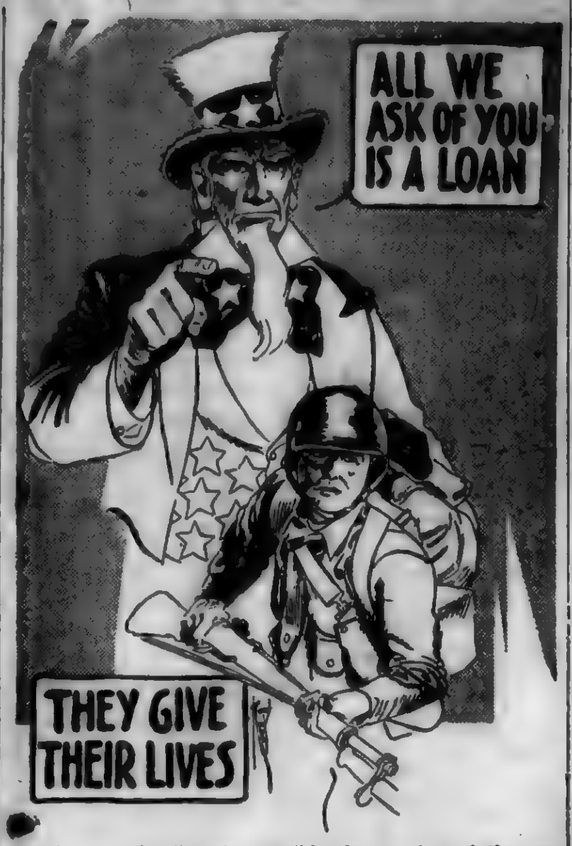
Here's Home Front Job for You

We on the home front face one of the most personal challenges of this war to date. That challenge is whether or not we are willing to sacrifice to a sufficient extent to lend our government thirteen billion dollars within the next few weeks.

To do the job, you and I, and everyone we know, are going to have to dig down in our sock—to dig out some of those dollars we have salted away for a rainy day — as well as to take a good hunk out of this month's pay check.



This is a job that has to be done. Sure, we on the home front are feeling the pinch of war. We have gasoline rationing, food rationing, higher taxes and a lot of other little discomforts. But they are nothing compared with the agonies faced daily by our men — men from this community among them — out there on the fighting fronts of the world.

Yes, we know that this constant demand for more money out of our pockets and out of our paychecks—an increasing amount each month — is monotonous. But so is sitting in a fox-hole or lying in a slit-trench day after day, slogging through the hell of a humid jungle or that of Sahara sand.

Our sons, friends, brothers, husbands and others we know are doing that for us. They are facing something more terrible than cutting down on a few things that we once thought were essential to the American standard of living in order to do it, too. As Secretary Morgenthau has said: "Shall we be more tender with our dollars than with the lives of our sons?"

The Second War Loan is an order to the home front to go on a new offensive. Your dollars are the weapons in this attack. They will make possible the passing of the ammunition to those boys up there in the front lines. To win this war is going to cost more and more money—and more and more lives. But the price of freedom is high. We can not; we dare not let our fighting men down.

You can't let George do this for you. You must pitch in with your dollars. Just keep in mind those boys in the front lines. They give their lives—you lend your money! Don't wait for someone to come around and ask you to do it. Do it today—and do it until you feel worthy of them.

B.-M. Buy Bonds, Plan Garden Show

A Victory Garden and Flower Festival will be sponsored late in the summer by the Hilltop Business Men's Association, the group decided at their meeting Tuesday evening.

Details of the affair will be planned by a committee to be appointed later by Dr. E. E. Mey Namee, president.

Present plans are to offer prizes for the best vegetables and flowers in numerous classes.

Representatives of West High School debated at the meeting.

Herbert Deems, secretary of the First Federal Savings and Loan Association, a representative of the speakers bureau of the Second War Loan campaign now on, addressed the association and sold a total of $4500 in War Bonds at the meeting. The association bought a $500 bond.

Honor Roll Funds Sought

Plans are progressing for the erection of the memorial to men in service at the present time. All residents of the Hilltop are requested to send the names of their boys in service to the Hilltop Record.

Any person wishing to donate to the memorial fund may do so by contacting members of the committee or can leave their donations at the Record office. Arthur J. Bellar is chairman of this committee.

Herbert Eggleston Jr., son of Mr. and Mrs. Herbert Eggleston, 231 Haldy-av, left for the Navy Apr. 13.

Guadalcanal A Great Experience But He Doesn't Care For More

He wouldn't take anything for his experiences of recent months on Guadalcanal but he has no burning desire to go through them again.

So expresses Ralph Waldo, 86 S. Harris-av, just back from the Pacific war front where he encountered first hand contact with the Japanese war machine and all the disagreeable things that go with living in fox holes and having to be on a constant alert for tormenting Jap planes.

Ralph, a graduate of West High in 1938, is in good health and says he feels fine but just can't get used to this chilly weather back here. Over on Guadalcanal he has been used to temperatures in the 90's except at night when they always took advantage of a comforting blanket. They had plenty of rain too, he reports.

Commenting on the war as a whole he thinks the Japs are not to be taken too lightly and that the boys in service feel that they are being backed up pretty well by the folks back home. One bit of news from home does "burn them up" — that of strikes and delayed production of war materials.

Ralph will be home an approximate two weeks and then will probably take up duties in the states for a period. He is rated as an aviation ordnanceman second class.

He enlisted in the service in September, 1941, having previously been associated with David Davies Packing Co. He took his training at Great Lakes, then to Seattle, then to Norfolk and finally shipped out from California July 21, and arrived on Guadalcanal eight days after the Marines had landed.

From the start the boys had plenty to do and lots of exciting experiences and not too much food or equipment to work with. The food for some time consisted largely of captured Jap provisions which, incidentally, included "saki," a rice wine, which, he explains is quite potent. And for some time they smoked Jap cigarettes and were glad to get them.

Ralph Waldo

Carl Holland, another Hilltop boy, enlisted with Ralph and trained with him for some time but they were separated when still in the states. Some months ago Ralph was in New Hebrides and who should walk into the armory but Holland! The boys had quite a reunion and enjoyed the visit. When last heard from Carl was at Espritu Santos in the islands.

Ralph, proud of the navy, wants the world to know that men of his outfit played a very important part in seeing that the Jap was properly taken care of in that vicinity.

One of their main forms of entertainment, he points out is to beat it for a fox hole when a Jap starts dropping bombs then take a ring side seat for the dog fights that follow. It's just like a big football game at home he declares. The boys from the states really get a thrill out of seeing their superior airmen knock the yellow boys from the skies while the lads on the ground cheer them on.

West Track Team Is Tops

A West track team which previously had been somewhat of an unknown quality exploded Friday at the expense of Upper Arlington and South.

Jack Bates, West's junior cinder star, led West's triumph with 13 points with the support of "Lefty" Kelly who copped 8 points. The West superiority was a walk away as "Ironman" Steward again displaying his unbeatable endurance, took first with Dick Carey and Don McCready, both of West, following in second and third places. The 880 relay was the next event to fall under West guns. This fast moving baton team was [illegible] Dick Ewing, Bob Howard, and Harbon Reed.

Newcomer Jim Alles sparking the fight, tieing for first place in the pole-vault spectacle, evenly matched with South's Guy Jacks who pole-vaulted nine and one-half feet. Ernie Dahlen followed close behind with a tie for second with Dick Krausi from South.

Don Jenks, slim junior and Bob Jones, one half of the famous Jones track duet, held first and second respectively in the 220 yard dash. Grabbing another second place, Bob Jones repeated in the 440 yard dash.

Once again West track cinder men showed their ability as Bill Jones, the other half of the Jones track duet; Maurice Embleton and Russ Selly acquired first, second and third positions. Top scorer, Jack Bates, repeated in the winning column as he ran the low hurdles in 28 seconds for another first place.

All in all, this years track team gave promise of great things to follow, and most certainly deserving a praise is Coach R. C. Glass.

Coach Glass arriving here from Eaton, O., took over an uncertain squad and the results of his labor was shown at the Arlington oval. He was a member of the Illinois Big 10 Championship Track Team in 1928 and 1929.

The Spectator

by C. C. Hartley

Hitting The Nail On The Head

I liked Capt. Eddie Rickenbacker's speech Monday night. Regardless of what some may believe, I think he is sincere and as much interested in the cause of labor as he is in any cause.

There are many today who are fearful that labor stands to lose much that it has gained because of the infiltration of the racketeering element in many unions. Those old time labor leaders who have done so much for their cause are likewise aware that a certain element is doing much to undo the good that has been accomplished.

But regardless of what you may or may not think about the subject, wasn't it a mighty good time to point out to the august body he was addressing, the state legislature, that they have been about the world's worst offenders on the subject of lack of wartime accomplishment.

Outside of a lot of horse play they have done little more than TALK . . . and that is a thing we have entirely to much of these days.

★ Ask any kid "Who's going to win the war?"

He knows . . . because he and all the others in America are putting their playtime into wartime work. They're out pitching for Uncle Sam, helping to sell the War Stamps and Bonds we must buy to finance the war.

And our kids are *buying* them, too. A dime here and a quarter there, earned by odd jobs or part time jobs, isn't a dime or a quarter to them any more. It's five good bullets for five bad Japs or a part of a bomb for Berlin. It's War Stamps *now*—for a better world *after*—to them!

Our hats are off to our kids.

West High Round-Up

By Shalmis Spelnger

Last week I promised some poetry from each of our poet laureates and with Easter so near, Bob Howard submitted a fitting poem:

EASTER MORN

On Easter morn our Christ
In whom we all abide
No matter what the people say
It was for us He died.

On Easter morn when He arose
Many people rejoiced to see
Our Christ in pure white linen robe
But He was dead . . . He could not be!

When all the haters of our God
Had seen this wonderful thing,
It made them cringe, and slink,
To see the happiness it did bring.

So to the people of our world
There came to pass above the earth
A time for us to celebrate
This heavenly Easter morn.

—Robert E. Howard

And Charles Nairn renews our hope that Spring will come this year after all, which I had begun to doubt, the weather being what it was all last week.

MY LOVE IS SPRING

I met you, Spring, not long ago,
We met within the March wind's blow.
Yes, you were there despite the cold,
Your beauty waiting to unfold.

You stood there in your scanty gown—
The earth half covered all around,
Your newly made gown so green and fair
Glistened with life in the morning air.

And so, dear lady, I love you so
With all my heart—more than you know.
Your resurrection makes me sing.
I love, I love, I love you, Spring.

—Charles Nairn

When both of these boys are famous in the Literary world I'll be proud to say that I had their poems in my column, and I'll claim them as my protegees.

I have heard . . . Esther Ongaro admires Lewis Strickland . . . that Elmer White has been banished from physiology for having too large of an appetite, and eating in class . . . Rumors of David Scoles and 'Tootie' . . . that Juanita Tannehill saw her soldier from Camp Grant recently.

I have seen . . . a lot of the girls in downtown stores doing their Easter shopping. Irene Luckshaw and Esther Garner together on High-st, Edith Neff looking for shoes, Billie Cale and Betty Eicher waiting for a bus.

Bits . . . Since Stanley Smith has retired from his position as advisor to the lovelorn, Bill Richards has taken over and Jane Yoder and Tom Cline are going to have that long-awaited introduction . . . Why can't someone patch up the quarrel between Francis Ford and Betty Eicher? There's a job for you, Bill . . . Is that Southern accent of his evident in his letters to you, Barbara McNutt? . . . Claire Ellen Knight has returned to West for the rest of the semester . . . Aggie Hart has been absent for almost two weeks.

Some things to be envious of . . . Marjorie Bast's golden voice . . . Jean Sayer's lovely hair . . . Ruth Black's popularity . . . Barbara Dauber's grades . . . Margaret Webber's sweet smile . . . Aggie Hart's height (perfect for a model) . . . Janice Judy's and 'Tubby' Underwood's vivaciousness . . .

Until next week when I intend to have several surprises. 'Bye.

Soldier Back From Samoa Islands Visits With Brother Here

Albert Kocis, brother of Joseph Kocis, 273 S. Brinker-av, spent two weeks at the home of his brother and sister-in-law on his 10-day furlough, recovering from fever, which he had contracted in the Samoa Islands. The climate was hot and damp and he did not like it there.

A first class pharmacist mate, he went to the American Samoa Islands in 1940. There were no shelters so the men had to build huts and a hospital. Outside of the Navy men, he did not see a white man for over a year. He served in the hospital there and helped to care for Rickenbacker after he had been rescued from the raft, and sent to the islands. He also saw Barney Ross.

After his visit here, he left for his home in Hicksville, O. He returned to San Francisco, Apr. 9; he has another year sea duty. Albert joined the Navy four years ago.

County Quota Is $48 Million

A volunteer army has been mobilized in Franklin County for the greatest finance effort in all history—the $13 billion Second War Loan. Headed by County Chairman Dr. Howard L. Bevis with the assistance of hundreds of the community leaders who are all giving their time and effort in this war task without one cent of compensation to raise the county's campaign for $48,000,000.

The campaign which opened Monday will continue through the month of April. The first day of the sale the amount of $1,267,198 went on the line to assist Uncle Sam's fighting men in our battle against the Axis.

Governor Bricker highly praised this volunteer army, saying that "We can help them by voluntarily enlisting our dollars for war service."

For The Boys Overseas

In order to assist those folks desiring to send gifts to the boys overseas, the Record herewith prints the latest overseas service mail rulings.

No package may be sent to a soldier overseas unless it contains an article requested by the soldier, and the request has been approved by a commanding officer.

A package must be accompanied by a written approval from the commanding officer, or the postoffice will not accept it!

No package may weigh more than five pounds, may not be more than 36 inches in length plus girth.

Unless a letter is sent by V-Mail, it will not go overseas by air. V-Mail will continue to go by air, others by surface transportation.

Newspapers and magazines may be sent to a soldier only by the publisher, then only if the soldier is a subscriber. However the soldier is free to subscribe to any paper or magazine he wishes. No permission required.

Remember, these rulings apply only to boys overseas. You may still send presents to boys in camp!

Our government needs our money to back up the armed forces with guns, ammunition, tanks, planes and many more items essential to the fighting man. It is necessary that these be given the men immediately in order to win quickly. The men at the front are sacrificing every thing for us while it is only our money being loaned.

ETHYL GASOLINE

Referring to solvenized ethyl gasoline
Which some don't like to use,
They say it's too hot for their machine
But that isn't a logical excuse.
It's the coolest gas you can buy today
That's a fact and not a surmise
Extra pennies many are glad to pay
Who are experienced and wise.

The best you can buy is the cheapest
Auto tires or a mowing machine
The quiet man is always the deepest
And he buys solvenized ethyl gasoline.
Engineers know what they're talking about
I'm only giving their point of view
They've studied it out without any doubt
More thoroughly than me or you.

washing machines and other household appliances are not available today. Manufacturers have converted their plants to war work. If you save today, however, by buying War Bonds, this money saved will start these factories rolling and put millions of Americans to work after the War is won.

The Spectator
by C. C. Hartley

The Record Completes 26 Years

This issue of The Hilltop Record is Number 1 of Volume 27, which indicates the beginning of our 27th year of publication. In all this time the paper has never missed an issue or been delayed.

The beginning of our 27th year finds the paper an entirely different one from that of previous years. Now, as a paid circulation paper it goes only to those homes that have subscribed for it and is delivered by mail under second class mailing privileges.

It is our sincere hope to be able to continue publication of this type of newspaper. Being a paid circulation paper makes it possible for us to print all the news that is made available and render far greater service than would be possible, especially today, under free circulation.

Today we thank those many faithful advertisers who have been consistent users of space in our paper over the years. They have been a very loyal lot. We sincerely believe their business is evidence that their money has been well spent.

To those who have expressed their congratulations on a special page in the paper today we also say thanks and point out that we did not believe circumstances justified any big observance of the occasion of another birthday at this time.

In the coming months of war we trust we may have a vital part to play that will be helpful on the home front, and in the peace that follows we are confident we will be better able to give the Hilltop the finest possible community newspaper.

Hitler's Birthday

Tuesday was Hitler's birthday and students at West High appropriately celebrated it by purchasing $1215.45 worth of War Bonds and Stamps. In the amount was money for 17 bonds.

Mack Sauer down at Greenfield, O., had this to say on the occasion:

"Well, today is Hitler's birthday. We wish him hell."

And . . .

Oh, what a different world
'twould be,
And I do not mean maybe,

The Stuff They're Made Of

That the present Ohio legislature is one of the weakest we have had to contend with in a number of years was again witnessed this week when members of the house voted down a bill aimed at numbers writers and operators.

Week after week the legislature has been sitting . . . and sitting . . . and sitting.

A number of important bills have been introduced in this session. But to date they have all gone out the window.

There seems to be more and more evidence that the party leaders are the ones who dictate the way our legislators vote.

There may have been a time when the country needed a good five cent cigar. But today it needs a man with the semblance of enough courage to stand up and fight for the things that are good for the greatest numbers.

Hilltop Sportsman's Club, In Second Year, Has Served Farmers, Members

Two years ago 10 men got together and organized the Hilltop Sportsmans Club for the purpose of getting closer cooperation between the farmers and the hunters and fishermen.

They simply got tired of being ordered off the land on which they hunted and from along the streams they fished. They could easily see the farmer's viewpoint but knew that if they could present their side of the story to him they would get along alright.

So this is what they did: Each of them during the summer months would drive into the country and contact these landowners and tell exactly who they were, what their purpose was and show them that they were responsible citizens, who, if permitted to hunt and fish on their land would care for their property the same as if it was their own. Needless to say, this plan resulted in nearly 100 per cent cooperation.

They then decided they would like to aid in the feeding of game and the planting of fish so that future generations of sportsmen might profit by the work. This is how the Hilltop Sportsmans Club was started.

They now have about 30 members and would like to add to the membership. To join, one must conform to the fish and game laws of the State of Ohio and to religiously respect the rights of the landowners on whose ground he hunts.

They held their bi-monthly meeting at the club rooms at 2700½ Sullivant-av, Sunday, Apr. 18.

Officers present included: George Ell, president; Roy Heskett, vice-president; Charles Butler, secretary and treasurer, and Matt Bybee, recording secretary.

There were about 20 members present at the meeting and plans were laid for the coming summer. These will be greatly curtailed this year due to the gas shortage. However, they do expect to be able to do a little fishing and views and opinions were exchanged among the members as to the best places to go and still save the most gas.

The club is a member of The League of Ohio Sportsmen and is incorporated under the conservation laws of the State of Ohio.

Shank & Saunders Ads In Record For 15 Years

This week marks the beginning of the 27th year of publication of The Hilltop Record.

And during that period perhaps the greatest number of people have had service from the paper through it's regular Want Ad columns.

This feature of the Record has from the beginning been well read and widely acclaimed as a result getter. From a few ads each week the section has grown to a full page containing as many as 250 or more individual small messages each week.

One of the staunchest supporters of Record Want Ads is Shank and Saunders, real estate, rentals and insurance, 2450 W. Broad-st.

Jack Shank this week stated, "Nothing could affect our business more than not to be able to advertise in the Record. For 15 years we have never missed being represented in a single issue."

Shank and Saunders are in close touch with the rental situation on the Hilltop having the management of 250 local properties, and today claim that this community as well as Columbus generally is facing a real housing shortage.

As for sales, Shank states it is merely a matter of being able to get listings. They have numerous buyers but cannot find the property for sale.

Cut Point Value On Frozen Foods

Starting this morning the Office of Price Administration orders drastic cuts in the point values of canned and dried soups, all frozen fruits and vegetables, and removed from the ration list for the present time, black-eyed peas. The last named item which is sometimes known as black-eyed beans or cow peas is a staple diet in the south and were removed from the ration list due to the approach of warm weather

In order to encourage the housewife to purchase more items of reduced point values, OPA has in most cases cut the coupon value to half or more.

The popular 10½-ounce can of tomato soup was cut from six to three points, and all other canned soups of the same size were cut from six to four points. This will be the second time that the point value of dehydrated soups have been halved since with the new point value, the 2½-ounce package is reduced from two points to one.

— Letters — To the Editor

Please publish Mark Twain's satirical prayer for war time.—T. L.

It is as follows: O Lord our God, help us tear their soldiers to bloody shreds with our shells; help us to cover their smiling fields with pale forms of their patriot dead; help us to drown the thunder of guns with the shrieks of the wounded, writhing in pain; help us to lay waste their humble homes with a hurricane of fire; help us to wring the hearts of unoffending widows with unavailing grief; help us to turn them out roofless with their children to wander unfriended through wastes of their desolate land—for our sakes, who adore Thee, Lord blast their hopes, blight their lives, protract their bitter pilgrimage, making heavy their steps, water their way with tears, stain the white snow with the blood of their wounded feet! We ask of one who is the Spirit of love and who is ever faithful refuge and friend of all that are sore beset, and seek His aid with humble and contrite hearts. Grant our prayer, O Lord, and thine shall be the praise and honor and glory now and ever. Amen.

Household Hints

To prevent bacon curling notch the edges, before cooking, with a knife or scissors.

• • •

When serving grapefruit and oranges in salads, use scissors and cut off all the white portion.

• • •

Leaking faucets can waste gallons of hot or cold water in a few months. See that faucets are tight.

• • •

To soften shoe polish that has hardened pour a little turpentine over it.

Frozen vegetables which have varied in point values for the 12-ounce size packages from six to 18 points will now be at a uniform cost of four points each. This was done, OPA states, because sales of frozen foods have been slow and supplies have been filling refrigeration spaces rapidly.

SUNSET LITERARY CLUB

If you examine the symbol of pharmacy, you will discover in it The Cross which is the symbol of mankind's faith in a better world and a brighter future. Introducing Irene

Pert, dark-haired, sparkling 11B, Irene Luckshaw, is the first to be interviewed for this column by this reporter. But she won't be the last. Irene's favorite color is red—which goes perfectly with her gay moods. As for food, a T-bone steak with mashed potatoes are IT, but if the ration stamps have been torn from her book, she's not particular . . . just so long as it's food!

It's a tossup between AS TIME GOES BY and THAT OLD BLACK MAGIC for her number one spot on her hit parade. But Tommy Dorsey is definitely her pick to play any tune.

An all-round girl, Irene is in many different activities. She's a member of Latin Club, Girl Reserves, and Nature Club. Her hobbies are swimming and bowling, she loves to play volleyball and she can become very excited at a football game.

You will see "Lucky" at practically all school activities . . . she's a swell and loyal West High fan.

ODDITIES — Noble Allen looking very domestic in apron, peeling apples in Chemistry class . . . Chut Meechem's picture being passed around in fourth period History class . . . Fred Mills and Donn Crosby eating vitamin pills and feeding them to their dates.

WORKERS are Dan McPherson, Lauralee Greathouse, Rollin Chapman, Jim Jessup, Pat Smith, and Claire Knight, who all work at the Palace.

HEARINGS . . . that George Briggs and Hope Strickland's names are linked on Karen Dentner's notebook. If you want to know who goes with who, just consult afore-mentioned notebook, for the current romances . . . Patty Sherwood had an alibi all ready for her mother when she came in the other A. M. . . . To hear Aggie Hart tell it, she was on her death-bed the week before this.

CONGRATULATIONS — to the kids who made Rotary Luncheon.

APOLOGIES—to Fran Ford for YOU KNOW WHAT.

SPRINGER PRESENTS — a skit.

MAKE-UP COMMITTEE — Jimmy Cotner and Mollie Mill.

Scene I
Gladys Sahr and 'Bunny' Watkins, Ruth Haines and Stanley Smith, Joann Beh and Dick Hoover on a triple.
Dialogue: Bunny says of Gladys, quote, I think she's swell, unquote.

Scene II
Guy Kent and Millie Shaffer at a weiner roast.

Scene III
Room 151 on a hayride.

Scene IV
A party at Charlie Palmer's house. Guests include Bob Hess, Jane Dugan, Pat Jones, Bette Sherman, 'Spunky' Edwards, Ima Hughes, Bob Barok, Bill Brookey, Juanita Adell, 'Jake' Sharon, Betty Demory, Marie Blaney and Tom Courtney.
Dialogue: none.
Action: plenty.
CURTAIN

Something new has been added. I now have spies snooping around West Jr.

Jr. High girls seem to be in the Spring Parade . . . Red skirts and white blouses are quite fashionable, gathered from seeing so many around the halls. No wonder, they're West Jr. colors! Yet with Spring on the way (supposedly) there are pinafores in view, and peasant dirndls. And of course, huaraches are all the rage (squeak, squeak).

BOYS! Examine the girl's hair ribbons closely . . . If the ribbon is white, it means, "LAY OFF, I'm going steady." . . . If she's wearing a blue one, go ahead and ask her to that Saturday night movie, she won't turn you down. She want's a date . . . Better start running if you don't want to be caught. That wolfess with the red ribbon is out to get her man! . . . Perhaps you just better ignore that yellow hair ribbon. Chances are she'll ignore you . . . or give you mighty dirty looks. She's a man-hater. (a few do exist).

P. S. Any West Jr. kids or West Sr. ones who have some gossip, see me in 315, before school. I'd like a wider variety in this column. It will all be appreciated. Thanks, loads.

THE 2ND WAR LOAN DRIVE IS ON!

Come on, Let's WIN this war!

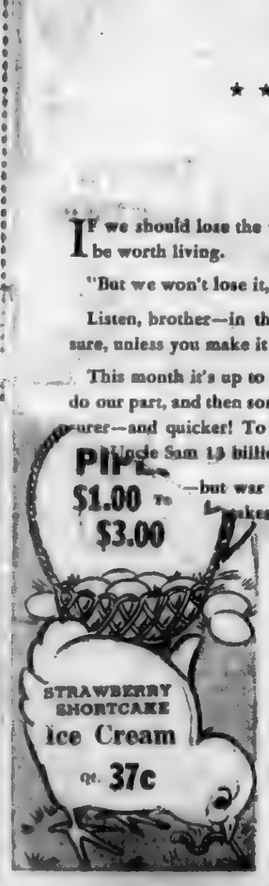
★ ★ ★ ★ ★ WAR FINANCE COMMITTEE ★ ★ ★ ★ ★

If we should lose the war, life would not be worth living.

"But we won't lose it," you may say.

Listen, brother—in this world nothing's sure, unless you make it so.

This month it's up to us here at home to do our part, and then some, to make Victory surer—and quicker! To do it, we've got to lend Uncle Sam 13 billion *extra* dollars.



Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!

There are 7 types of U. S. Government securities to meet the needs of every purse. They offer the finest investment in the world—liberal interest, plus securities guaranteed by Uncle Sam himself.

A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patroit—and buy all the bonds you can. But don't wait for that call. Go—today—to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo explosion or a bone-crushing bullet.

Dig deep, brother, and do it NOW!

SELECTIVE SERVICE BOARD NO. 12

E. O. Melvin, Chairman; M. W. Seiller, Vice Chairman; Herbert G. Deems, Secretary; W. W. Wylie, Reemployment Committeeman; Herbert G. Hahn, Member; Miss E. Herman, Clerk.

Speeders To Have Gas Ration Books Taken Away As Added Penalty

Speeders are to have attention of the ration board, according to instructions sent out by OPA. The following penalties have been suggested:

1: No board should revoke gasoline rations without first giving speeders hearings.

2: In the first offense involving speeds of 36 to 40 miles per hour, a warning letter is recommended.

3: For speeds of 41 to 45, suspensions of all rations for five to seven days is considered in order.

4: Between 46 and 50, suspensions of all rations for 10 to 15 days.

5: Between 51 and 55, from 15 to 30 days.

6: Between 56 and 60, from 40 to 60 days.

7: More than 60, revocations of 60 days and "the duration."

8: Second and third offenses, involving speeds of 50, "duration" suspensions.

Coupons are to be detached from the books for the period of suspension and voided immediately.

Price Administrator Prentiss M. Brown has authorized regional OPA offices to set maximum prices for food and beverages served by restaurants, hotels, cafeterias and other eating and drinking establishments. Ration boards are notifying all eating establishments that menus for the base period, Apr. 4 to 10, must be on file by May 1. They must also have available, two copies of the menu for each meal served since the base period.

V. F. W. Assists In Examining Air Cadets

Young men, 18 to 20 inclusive, may now volunteer for induction as Army Aviation Cadets, and receive more than one year college and military instruction, according to the War Department's description of the new Air Force procurement and training program.

Under the revised plan cadet applicants 17 years old may enlist in the Air Force Reserves, for active duty when they become 18. Older candidates, 18 through 26, may volunteer for induction into cadet training. All applicants, however, must first pass rigid army physical and mental entrance examinations. Those accepted are given five months special instruction in one of several selected colleges before being assigned to combat flying training. Cadets receive 10 hours dual flight training during their college course.

Commander Paul Linder of Westway Post No. 3441, Veterans of Foreign Wars at 2393 W. Broad-st, said today his committee is ready to give candidates the special V. F. W. examinations. Applicants passing these tests are recommended to army and Selective Service officials for enlistment or voluntary induction.

Young men, 17 to 26 inclusive, may get complete information and examinations from Westway Post No. 3441, Veterans of Foreign Wars headquarters, at 2393½ W. Broad-st, or Chairman W. T. Cannon, 151 N. Chase-av, Ra. 5216. Interviews and tests are given at that address at 8 o'clock every Friday night, starting Friday, Apr. 30.

Hilltop Boy In Hospital Puts Thoughts In Verse

Pvt. Robert M. Spencer, Hg. Btry. 264 F. A. Bn. Bk. 1, Camp Swift, Tex., son of Mr. and Mrs. H. I. Spencer, 63 N. Burgess-av, was recently confined to the hospital with flu and light pneumonia.

His thoughts at the time were set to rhyme as follows:

EFFECTS OF A HOSPITAL

Oh I am lyin' in the hospital,
Just a gazin' at the wall,
Wishin' I was a fishin'
Or a huntin' in the fall;

I'd like to be a walkin'
On the Hilltop once again,
Where the malted milks are biggest,
And the hamburgs fit for men;

I wish I was a boat'n'
On the river wide and clear,
Where the smell of gasoline
Would be O! so very dear;

I'd like to spend just half a buck,
Just to go and see a show,
For if it was at the Ohio,
I know it would be worth the dough;

I'd like to hear the Stuart kids,
For here it's quiet as it can be,
And the only sound you hear is,
"His was one hundred and three."

One thing that I like so very much,
I have my meals in bed,
But what good is that to a boy like me,
When it's not my double bed:

I'd like to go a swimmin',
In a river or a creek,
But I know if I did that,
Then I surely would be sick:

But most of all I'd like to see
My Mother and my Dad.
Just to be with you once again
Would make me so very glad.

REALISTIC JOB

"How realistic that painting is! It fairly makes my mouth water."

"A sunset makes your mouth water?"

"Oh, it is a sunset, is it? I thought it was a fried egg!"

Better to know us

Need Volunteers In Defense Corps

Volunteers are headed for training in two branches of the Franklin County Civilian Defense Corps, it is announced by headquarters.

First, persons with training in chemistry or having experience with war gases are particularly needed at this time to serve as Gas Reconnaissance Agents.

Then the Emergency Medical Division, under the direction of Dr. Charles A. Doan of Ohio State University, will have a special school at Central High starting Monday evening at 7:30 o'clock. It will give training in First Aid of gassed casualties. Persons who have registered with Civilian Defense for the Emergency Medical Division, but have not as yet been assigned, are asked to be in attendance, for during one of these meetings they will be assigned to a section so that they may participate in the activities of this division. Volunteers may enroll at the Volunteer Office, 409 City Hall, Columbus, or at the office of S. H. Zaayer, Chief Plans and Training Officer, located at the fire department drill school, Communications Building, Russell and Hamlet-sts. Both of these offices are open for this purpose from 8:30 a. m. to 4:30 p. m. daily, except Sunday. On Saturdays, these offices are open until noon only.

WAGE EARNER

Swift—Where are you going to spend your vacation?

Smith—I'm not going to.

Swift—Huh?

Smith—I just earn that vacation, my family spends it.

Lancaster Falls Before Bucks

Last year our Cowboys were freezing along slipping off every team that faced them, but on their tenth engagement they were to face the Lancaster Golden Gales. Well as the story goes on, the Lancaster boys knocked the Cowboys from the undefeated class, by the score of four to two.

This year the Cowboys came back for some sweet revenge and downed the Golden Gales by the score of seven to two.

Although the Bucks looked a little weak on the hitting side they pushed across seven tallies which proved too much for the Gales.

Dick Hoover who returned from New Jersey the same day was handling the pitching duties. Hoover held the Gales to two hits in seven innings and set 15 down by the strike out route.

Knot Hole Games Are Announced

Wednesday, Apr. 28, has been set aside as registration day for the Red Bird Knot Hole Gang.

Blanks will be supplied to the schools throughout Central Ohio and the following games will be on the menu for the members this year:

Saturday, May 1, Louisville; Saturday, May 15, Minneapolis; Saturday, May 22, Milwaukee; Saturday, May 29, Servicemen's Day; Saturday June 26, Louisville; Saturday, July 3, Indianapolis; Saturday, July 10, Kansas City; Saturday, July 17, St. Paul; Saturday, Aug. 7, Milwaukee; Saturday, Aug. 14, Minneapolis; Saturday, Sept. 4, Indianapolis.

PAYS OWN WAY

"Mother writes that she is going to send us a rabbit for Easter."

"Read on a little farther and I bet she will come on with the rabbit and spend a couple of months."

Do not sprinkle all your linen napkins when preparing for ironing. Dip every third napkin into clear warm water, place one between two dry napkins, fold and roll together. Napkins dampened in this way are ironed easily.

THAT DOES IT

"Is she pretty?"

"Well, she always gets a seat in a bus."

MODERN POETRY

By Esther Weekley

FRAUD

I touched a star; and rude the shock
Of heat beneath my touch.
It looked a bit of frozen sky . . .
Can all of life be such?
—Dorothy Dalton,
In "The Lantern."

• • •

QUATRAIN

Hate is like a boomerang,
Striking with its hardest blow,
Not the object of its aim
But the author of its throw.
—Rev. Leavitt C. Sherburne,
In "The Dream Shop."

FACTORY GIRL

At the whir of wings in the cloudless skies
She suddenly lifts her eager eyes:
"Bombers! I helped to make that plane."
Winged pride! She does not boast in vain.
—Bernice Barton,
In "The Lantern."

• • •

WOMAN

A scant spark,
Fanned into rich flame
By a god-like one (pray, lest
He prove a counterfeit with flapping
Paper wings!)
—Alethea Hillhouse,
In "Quickening Seed.

• • •

THE HORNED LARK

His plumage is of neutral tint,
He flies with hesitation,
He chooses clod or tone for perch
His home a low creation.

He has no complicated song
Yet it is wild and thrilling,
He is a dusky bit of life
His destiny fulfilling.

He does not care for towering trees,
He loves the things terrestrial,
But when his mating season comes
He soars to realms celestial.
—Frank Hartman,
In 'Singing Quill."

WHITE LIGHT SHINING

What is that white light shining
Across the coming years?
Whence comes that white light's shining
Making rainbows of our tears?

It is the promise ever
Of peace and love and rest
Of faith that's strong forever
In our land by heaven blest.

It is our hope's far shimmer
On the years that are to be
With war-clouds growing dimmer
On our country, that I see . . .

Its gallant banners flaunting
Against a starlit sky
Where brave boys who knew no daunting
See glory as they die.
—Millicent Easter,
In "Singing Quill."

A SILENT PRAYER

Lord, bring the Spring!
And take the pain
From weary bones of marching men.
Give them, I Thee beseech
The warm clean rain and take
Hard strain from faces (fight they must)
But still upturned to Thee in trust.

Lord, Bring the Spring
And ease sad hearts
So long grown tired of bloody strife.
Give them, I Thee Beseech!
Warm soft clouds and sky so clear
Thru which my manly son may fly
Chart his course clear! To Thee I cry.

Lord, Bring the Spring
And teach tired souls
The way to pray and hope for peace.
Give us, I Thee Beseech!
The will to live and dare
The strength to keep our faith in Thee
To bear our Cross up Calvary.
—Orpha G. Reed.

• • •

TREE IN FOG

To think a thing devised of air,
So shaped of cloud could be so sure
A challenge to that darkness where
Nothing seemed certain to endure.

Some presence from beyond had made
A mutual compromise with breath,
Had fused the elements and laid
Its finger softly upon earth.
I only know it was a sense
Of permanence that held us bound,
If fog can offer permanence,
And life such greenness from the ground.

A pale branch stirred with more than wind;
A spirit tree, it flowered there.
Pressing its hallmark on the thinned,
Unwritten parchment of the air.
—Harold Vinal,
In "Wings."

• • •

SEASONED LOGIC

A thesis may be deeply wrought,
And logic most discerning;
But brain and heart are easier taught
By seasoned hearth-logs burning.

Persuasive is the lore of birch—
A treatise on content;
And rare rebuttal that can quench
The pine's hot argument.
—Marion Lee,
In "Wings."

• • •

A SOLDIER ASKS . . .

If an arrow is drawn from the quiver
And fitted to the bow,
May it feel an exultant shiver,
"Where do I go?"
May it thrill to the wind-song crying
As it slits the air,
And rejoice in the swift-winged flying
Clean and fair?

Since the target is not of its willing
Nor the flight nor start,
Is the arrow guilty of spilling
Blood from a heart?
—Corporal Don Blanding,
"Florida Magazine of Verse."

THAT'LL DO IT

"What your wife needs is more physical exercise."

"But, doctor, I can't induce her to go outside the house."

"Oh! Yes, you can. Mark all the bargain advertisements in the paper and give her $50."

SLOW UPTAKE

"I hadn't been talking to the fellow for more than five minutes when he called me a fool."

"What caused the delay?"

Easter Greetings

The harsh season of Winter is over, and Spring breaks forth with a rush of new life. At this vibrant season we commemorate the life of a Man whose only sword was love, whose only persecution was persuasion. In these days of strife and oppression it is most fitting to recall the ideals for which He stood.

Let us wish you a most Joyous Easter.

HOW TO RAISE FOOD ON THE FARM

Men are leaving all farm employment
Some going away every day
Going to the city for more enjoyment
Shorter hours and better pay.
That looks like a great calamity
When the farm loses its charm
But I think the farmers ingenuity
Can solve all problems on the farm.

Everybody should study this question
How to raise food on the farm.
I believe I will venture a suggestion
That surely can't do any harm.
I would furnish them cheaper equipment
Keep bureaucrats out of the zone
Reduce the freight on every farm shipment
Then leave the farmers alone.

Buchanan New Coach

By Bob Watkins

A West High faculty member for 13 years, Arthur Buchanan will again take over the title of "Coach."

Mr. Buchanan will take over Coach Williams' physical education, first aid classes, and also "commando" training.

He received his college education at Ohio University and received his Masters Degree at Ohio State University. He then was principal and coach for three years at various schools.

"Buck," as he is commonly known, coached sports here four years before he became a tutor of history. In his last year as line coach, West had a Championship Football Team in 1933. He also has a very good record in his coaching of track.

In the sports sphere Mr. Buchanan prefers to play baseball and coach basketball.

With baseball being the only sport event played in his high school career, he was known as a "Diamond Star."

Mr. Buchanan participated in all four major sports in college. He played four years of football, receiving his numerals in his freshman year, and played in his sophomore, junior, and senior year. He received three varsity football letters, receiving seven varsity letters in all.

He also played baseball, track, and basketball at Ohio University.

Mr. Buchanan is known city-wide by Hi-Y members and officials. He coached both Hi-Y basketball and softball and won several championships. A. E. Buchanan is the adviser of the West Hi-Y club.

In the past nine years, he has been officiating basketball and football.

17 Seniors To Attend Rotary Luncheon

On May 3, 13 West 12A's and four 12B's will be guests at the Rotary Luncheon, to be held at the Deshler-Wallick Hotel. In the selection of the students who are eligible to attend, both service and scholarship are taken into consideration. The number of service and scholarship points are added and the pupils having the highest total are the ones who are chosen. Service is especially stressed because the Rotary Club is a service organization in itself.

West High has been chosen as one of the two schools to give an oration. John Brown will represent West as its speaker. His topic of discussion will be "The Physical Training Program of the Boys."

The seniors who were chosen to attend are as follows: John Brown, Bob Gulcher, Dorothy Hingst, Erline Johnson, John Layman, Bonnie Lear, Regina Matlock, Alice Miller, George Ours, Woodrow Pickering, Mary Storch, Gordon Taylor, Marjean Trappe, Alice Remington, Edith Neff, Betty Moore, and Maurice Embleton.

Constance Doherty was selected as an alternate. If someone is unable to attend the luncheon she will replace him.

Last P.T.A. Meet To Be Held May 4

Last West PTA meeting of the year will be held on May 4, in the high school auditorium, in which students will participate in a discussion on the subject, "Does the school meet present day needs?" The student participants will represent the various department of the school, giving talks on work of the respective departments.

The following students will represent the various departments, respectively: art—Peggy Fergus, music — Colleen Chevront, mathematics — Tom Calhoun, language — Beverly Phillips, science—Bob Watts and Paul McClain, manual arts—Ted Scharenburg, history — Gordon Taylor, English—Alice Remington, physical education—Marvin Allison and Martha Colmery.

A short style show will be presented by the Home Economics club, under the direction of Mary Kay Marchant.

David Tingley will speak on the work of the various departments of West Junior.

The following teachers are in charge of the meeting: Leona Glenn, French chairman; Herbert Hutchinson, music; Carl Painter, history; Inez Gooley Bus. arithmetic.

Entertainment will be furnished by junior and senior high vocal groups. Junior high pupils will present a miramba solo and piano duet.

Annual Easter Service Held

This Easter Assembly, a popular tradition at West for many years, is sponsored by the Girl Reserve and Hi-Y clubs.

The assembly was held Wednesday, April 21, in the auditorium, benefiting the entire student body.

Dr. James O. Young, Methodist minister of the Worthington church for five consecutive years, presented a message of greatest value. Dr. Young was recently honored in "Who's Who in the Clergy" also in "Who's Who in the Western Hemisphere."

The choir, directed by Mr. Hutchinson sang the beautiful "None Other Lamb" — by Edmundson and "Theodulph's Hymn"—by Teschner-Old.

Girl Reserve president, Alice Remington read the scripture.

The speaker was introduced by the Hi-Y president, Doris Crosby.

Benediction was read by Betty Moore.

Two Easter services were held in Room 317, April 19, and 20, at 8:00 A. M.

On Monday, Rev. Mitchel, Lutheran minister, delivered the sermon. Gene Wolford, senior, sang.

Tuesday the program consisted of a worship service for all who wished to participate. Emaline Fansler played a violin solo, and Louise Yost sang the famed "Lord's Prayer."

PEDESTRIAN NOTE

"Well, I've got one record to be proud of anyhow."

"What's that?"

"I've lived in this town seven years and haven't been run over by an automobile yet."

Careful Soil Preparation Pays Dividends To Victory Gardeners

Doing a good job of soil preparation is an important step toward success for the Victory gardener who has chosen a suitable site for his work in the 1943 food-for-freedom campaign.

Of prime importance is the selection of a suitable site. Garden areas should have sunshine, and they should have good soil, selected if the gardener has no better way of judging soil by applying the rule: "If weeds grow rank, the soil is usually fertile." This rule, however, does not apply if the soil is wet.

Third item in the 1-2-3 of first steps in garden growing is a careful preparation of the soil before planting.

Where there is a deep layer of the fertile top soil, the garden should be spaded or plowed to a depth of 8 to 10 inches, but gardeners who have thin layers of top soil should be careful not to dig up much subsoil.

Well-rotted leafmold, horse manure or cow manure, or other decayed organic matter, if obtainable, should be worked into the soil. As much as a bushel can well be used for each 25 square feet, this being equal to about 20 tons per acre. The spaded-up masses should be crushed and roughly leveled out as the spading progresses.

Immediately before planting any part of the garden, that part should be finely worked up and smoothed with the rake before laying off some rows.

There are few soils on which vegetables do not benefit from the proper use of fertilizer. Farm and small-town gardeners usually have access to animal manures, but city and suburban gardeners rely largely on commercial fertilizers.

Commercial fertilizer is best used when applied along the garden rows in a band about 3 or 4 inches wide, about 2 inches from the line where the seeds will be sown or the plants set. A wide furrow about 2 inches deep is scooped out with a hoe. The fertilizer is spread uniformly along this furrow, mixed with the soil, and covered about 2 inches deep. It should not touch the seed.

Insects, weeds and diseases are the chief Axis agents known to be operating in Victory Gardens. The gardener's "follow-through" and vigilance against enemies are essential to success in the nation's home-food-production effort this year.

Weeds can be kept under control by thorough shallow cultivation, but protection against the garden's insect and disease agents of the Axis requires special forethought and preparations.

From the time the seeds of garden plants are put into the ground until the crops are gathered, diseases and insects must be fought. Prevention as always is better than cures, and thus it is important not only to plant locally adapted, disease-resistant varieties but also to use disease-free seed plants.

Spring is not the only planting season for Victory gardeners who make the best use of their home food plots.

Effective gardening requires thought and work before and all through the entire season. Much of this thought and work is in connection with a schedule for planting succession crops; that is, crops planted after others have been harvested from the same area.

Gardeners are thus advised to consult with their experienced neighbors and such authorities as county agricultural agents, and also to obtain publications from their state agricultural agencies.

The old school Southerner, brimming with pride over his farm in the Alabama coastal region, was extoling its merits to a northern friend.

"Why, man," he said proudly, "the trees grow so thick on that land that you couldn't put your arm between them. Deer are so big that their antlers have a spread of ten feet!"

The Northerner's eyes looked questioning. He said: "It's interesting, Colonel, but how in the world do the deer get their antlers between those trees?"

One dark night in Prague a Czech policeman spotted a man who appeared to be chalking something on a wall. Going closer he saw, written in Czech, the words: "Perish Hitler!"

Immediately the conscientious policeman stopped and shouted indignantly at his countryman:

"Fool! Haven't you heard that all public inscriptions must be written first in German then in Czech?"

Ed Alexinas West Coach

Edward Alexinas, a senior in the college of physical education at Ohio State University, took over the Cowboys baseball team last Monday. He succeeds Coach George Williams, who started his leave of absence Monday, one week before he is to report to his naval training at Chapel Hill, N. C.

Coach Alexinas will also teach physical education in the afternoon.

An effort to land a full-time replacement in the West physical education department is still in progress by the Board of Education. At present R. C. Glass, head track coach, is the only full time member.

COME TO CHURCH Easter

COME TO CHURCH Easter

Attend Church On Easter!

FOR GENERATIONS the Cross was an emblem of sorrow, pain and death. Thieves, murderers and other transgressors of the law paid the penalty of their crimes on the Cross.

It was not until after the crucifixion of Jesus Christ that the Cross ceased to be an emblem of shame. It became the insignia of Christian society with the promise that whosoever looked upon the Cross and believed would have life abundant and beautiful.

SUNDAY, APRIL 25 is Easter Sunday in every church throughout the land. Ministers will tell again the story of life, death and resurrection of this same Jesus who changed the Cross from one of death and disgrace to one of life, honor and glory.

You are invited to attend the church of your choice somewhere Sunday. A welcome awaits you. You will hear a message that will help you bear your Cross without complaint.

Want A Receipt For Your Subscription?

We like the following story that may serve to remind our subscribers to ask for a receipt:

Down in Oklahoma, an Indian went into a newspaper office to pay his subscription. He handed the editor the money and then asked for a receipt. "You don't need any receipt, John," the editor said. "You know you paid it and I know you paid it." "But John wants a receipt and must have it," the Indian persisted. "Indian may die. He go up to St. Peter and try to get into Heaven. St. Peter will ask John if he has been honest Indian and paid all bills. Indian John will say he paid all bills. Then St. Peter will ask if Indian paid for newspaper. Indian will say 'yes.' St. Peter will ask to see receipt, what can he do? He can't go all through hell searching for newspaper editor."

Ration Board To Have Price Panel; More Gas For Workers, Gardeners

In line with national Office of Price Administration policy, War Price and Rationing Board Chairman, C. C. Hartley announced today that he would appoint two men to work with Robert Draper, Price Advisor, as a price panel which he said would be fundamental in OPA's future price program.

These men will be unpaid, will have the responsibility of administering the OPA price program on the Hilltop and West Side. They will act as the channel through which business men and housewives can reach the OPA Columbus District Office and through which OPA can distribute information.

Like other price panels now being appointed throughout the nation to handle a variety of local price problems, the new members will arrange trade meetings and panel discussions, hold conferences with business men, answer inquiries from store keepers and consumers, and hear complaints from housewives.

Under a new order from the Office of Price Administration many B gasoline ration book holders in this community will be entitled to a C book starting May 1.

The amendment will allow any B bookholder, regardless of whether or not his occupation is classified as "essential," to get a C book, good for 720 miles of driving a month, provided he can show he needs his car in his work.

To qualify for the additional gasoline rations an applicant must:

1: Show he needs it entirely for course-of-work travel.

2: Meet regular car sharing requirements (arranging to carry three or more persons in the car if possible.)

The fact that a person is entitled to additional mileage up to 720 miles does not entitle him to new tires unless his tires are beyond repair and there is evidence that the owner has taken proper care to see that his tires provided all available mileage, even through recaps.

Additional gasoline rations for the purpose of driving to a Victory garden are available after Apr. 30 if he regularly cultivates a garden containing not less than 1500 square feet (30x50) of land devoted exclusively to the raising of vegetables, and can show his labor is necessary and that he has no other means of transportation.

See schedule of new point values on page 4 of Record today.

1918 Memorial Day Issue of Record Had 261 Stars

"The cause of human freedom has ever held a sacred place in the deeper feelings of the American people. The khaki clad boys of today are worthy successors of an heroic past.

"May God speed them on their mission and hasten the victory which will bring them again to the sacred ties of the homeland."

These are excerpts from a message of Dr. W. F. Wykoff in The Hilltop Record of May 30, 1918. A copy of the old paper is the property of Mrs. Elsie Westlake, 2499 W. Broad-st. This Memorial Day number, devoted to the boys in the service, had a flag on it, containing 261 stars.

Included in that issue of The Record was the following, an appeal which might well be heeded today.

"An appeal to the women of the Hilltop. There is plenty of room, plenty of machines and plenty materials for Red Cross sewing at the Glenwood Unit. What excuse have you for not being at the sewings on Wednesdays?"

A new course of training has been added to the curriculum of the National Youth Administration War Manpower Commission Training Center, 270 Greenlawn-av. It is aircraft sheet metal work.

In this course, layout work is the first step learned. Students are taught to read blue prints, scales, micrometers and all the tools essential to sheet metal work are explained. Erymine Harrison, 316 Clarendon-av, and Marie L. Wolfe, 263 Souder-av, have completed their training in the machine shop. While in training the girls not only learned how to run an engine lathe, drill press, read blue prints and how to run many other machines, but worked on actual production.

At the training center courses are available in machine shop, welding, inspection, aviation, sheet metal fabrication, riveting and blue print reading. These are open to any one between the ages of 17 years and nine months and 24 years and nine months, a citizen of the United States, unemployed or working in a non-essential industry. A training wage of $40 per month is paid to defray car fare, lunches, etc.

Potato Rationing Forecast This Year

The humble potato is slated for a place on the ration list, according to officials of the Department of Agriculture. This assure ... eliminate ...

Consumption is declared to have dropped sharply because consumers have been unable to obtain all the potatoes they can eat.

Over the past five years average per capita consumption has been about 134 pounds annually, and it is planned to shave that figure to 125 pounds or lower.

VICTORY ITEM

Noticing a colored American soldier cycling on the right side of the road, an English police-inspector stopped him and explained that the rule of the road was the other way round.

"But you cycle on the right side in France, Italy, Switzerland, and Germany," he added.

"Suh," said the Negro, "when I gets to Germany Ah cycle on whichever part of the road Ah likes best, and nobody going to stop me—no, suh!"

CAN THEY SHARPEN A HOE

Students are failing in old history
But don't blame them for that
No man can read pages of the dark ages
And keep it under his hat.
Who was in power in our darkest hour
Thomas Jefferson or James Monroe
Jessie James, Ed Rutlege or Calvin Coolidge:
Do they know how to sharpen a hoe?
My grade is zero on any deep subject;
Who is governor of Tennessee
Where do sea gulls rest and build their nest
The deepest place in the sea.
Such things in school I couldn't remember
How tall does the Eskimo grow
Did Lee surrender in June or December:
Do they know how to sharpen a hoe?

C. D. Laylin Heads Church Campaign

For the first time in history 16 different Christian and Jewish denominations will join efforts in a central cause for the church when they participate in the United Church Canvass, an affiliated religious and financial campaign, to be held in Columbus and Franklin County May 2 through May 16. Laymen, as well as church leaders, are working in behalf of this project, which came about following a national survey made last fall by religious leaders. Increased need of spiritual aid, as well as financial support of the churches during the war was responsible for organizing the national United Church Canvass of which the local campaign is a part.

Clarence D. Laylin, 1972 Indianola-av, is serving as general chairman for the Columbus and Franklin County Canvass, with the Rev. J. Carlton Babbs, pastor of Morgan Memorial Methodist Church, as vice-chairman; the Rev. Robert Parsons of Fifth Avenue United Brethren, secretary, and Mr. A. T. Copeland, treasurer. Others who are serving on various committees are: Rev. Frank G. Helme, Rev. John G. Rhind and Howard L. Bevis, president of Ohio State University.

With the war, churches are carrying many extra burdens, according to the Rev. Babbs, who points out that the purpose of the canvass is to bring religious principals to community attention, as well as securing financial support for the church. "By uniting in a single cause it is hoped to relieve the pressure of war emergencies which churches today are facing." The individual churches will hold their own financial campaign during the canvass period.

Appeal For More Volunteers For Aux. Med. Corps

Mrs. William Fresure

What seems to be your answer when somebody asks you to attend a meeting? Do you answer "Well I have arranged something else tonight." Do you think that our boys would stop their fighting and go to a picture show or go to a party, just because they felt that they would get more from those things and still win their fight?

Why don't each one of you who read this, think awhile and ask yourself if you are helping your country any. "Yes," will be the answer, but that is in the way of collecting grease, rationing, tin cans and bonds. I agree, you're helping, but don't you think if you're ready for any disaster, whether war or flood, you would at least feel that you are qualified to help?

I am not asking you to give up anything but just three or four nights a month by joining up with the Emergency Medical Corps which can really use your service.

Any one interested may call any of the following for information: Katherine Scott, 267 S. Wheatland-av, Ra. 9795; Mary Heil, 273 Belvidere-av, Ra. 3765; Gertrude Sager, 628 S. West High Round-Up

By Shalmir Springer

Girls were wearing their Easter pretties all this week. June Mugrage had a lovely corsage she was sporting.

This warning is a little late for Easter, but remember it, boys, for the next time when you might say it.

Careful

Say it with flowers,
Say it with sweets,
Say it with kisses,
Say it with eats,
Say it with tender words,
Say it with smiles,
Say it with gallantries,
Say it with wiles,
Say it with perfumes,
Say it with jack,
Say it with dinner gowns,
Low in the back,
Say it with diamonds,
That sparkle and shine,
Say it with lingerie,
Dainty and fine,
Say it with jewelry,
Trinkets of gold,
Say it with vintages,
Mellow and old,
Say it with ermine,
Or say it with mink;
But don't be a darn fool
And say it with INK!

THE OHIO OIL COMPANY

Round at each end and high in the middle,
Guess that riddle I'll give you a fiddle;
I heard that song at a show a long time ago
But the name of the author I do not know,
A song often appears after the writer is dead
Who studied for years in a loft overhead;
It was sung by a damsel in cheap calico
And the answer to the riddle is—OHIO

Now the OHIO Oil Company I'm writin' about
Better known than the song I haven't a doubt,
Reliable and sincere — known near and far
By every one here who drives a good car,
Supplying supplies for any make of machine

Batteries, oil, tires, and Ethyl gasoline
If you go to the middle of far off Babylon

You won't find any riddle about it. —MARATHON.

The Spectator
By C. C. Hartley

Dear Mom:

All over the world this week men and women are thinking of their mothers and from every corner of the globe mothers are receiving tokens of love and letters of acknowledgement of the affection for a mother.

And the least of these is not the letter she is receiving. Nor is the memory of a mother's love the least to those who have no mother.

On Sunday we are remembering you with love, through small tokens of our affection. It's our highest hope that this shall be a day of pride and glory for you.

Recent years have wrought numberless changes but it has not changed this love for you. The years to come may take us from you for a time but only that we can come back to feel proud that mothers like you all over the world can too enjoy the happiness and joy that comes from a land that's free to honor motherhood.

The following bit of verse received in Thursday morning's mail seems most appropriate so close to Mother's Day:

My Mother's Garden

My mother's garden is so fair
It spreads its fragrance everywhere.
Her magic touch has brought to sight
A row of Crocus, small and bright.

Soon from the Sleeping Tulip bed
Spring blooms of yellow, white and red
Then shyly in a mass of gold
A patch of Daffodils unfold.

My mother's garden is so fair
And how I love to linger there
To hear the first soft sounds of spring
That burst from earth and fairly sing.

Only God can put the grace
Into each nodding flower face
But they could not be half so fair
If my mother were not there.

To The Boys

One of the best notes to the boys serving "over there," we've come across:

"Dear Boys. Remember, among the 135 million Americans John L. Lewis and his gang are only a drop in the bucket. In fact, Lewis isn't even a drop. He's just a drip."

Two Hilltoppers Are Reported Prisoners of War In Italy, Germany

Lt. "Duds" Grubbs

Two Hilltop men were this week reported to be prisoners of the Italians and Nazis.

Mr. and Mrs. Forest Grubbs, 111 N. Hague-av, have received word through three scources that their son, First Lt. Eugene "Dude" Grubbs is a prisoner of war of the Italians.

The information came through the War Department, the International Red Cross and a mesage from the Pope via Bishop Hartley and Fr. Raymond Bauschard of St. Mary Magdalene Church.

Grubbs, a pursuit flyer, is apparently in a prison camp in Italy and it is believed his plane must have been shot down during one of the recent heavy raids over that country.

He has been stationed in North Africa since October 1942. His parents received a letter from him written March 29 in which he stated his squadron was in it "hot and heavy," and they were then occupying a town that had been held by the Germans three weeks before.

His wife, Edna Marie, and six weeks old baby daughter, Barbara Carolyn, live at 1004 Bulen-av. A few days ago his wife received a letter from the wife of another member of the squadron stating that the entire squadron had been decorated.

His parents doubt if he has yet received the cable sent him upon the birth of his new baby daughter.

Hoover In Good Form As West Wins

By Bob Busick

The West High Cowboys behind Dick Hoover's one hit pitching defeated North on the local diamond, Tuesday, 3 to 1.

Hoover allowed only one hit while Jack Linscott, North's little southpaw gave the Cowboys only two hits.

Linscott's wildness lost the game for him when Ira Blackwell was hit by a pitched ball, advanced to second on a steal and Haines was safe on a fielders choice, walks to Gilmore, Hoover and Hosler produced three runs without a single hit being recorded.

Barney, North's first baseman spoiled Hoover's bid for no-hit fame by dropping a short single between West's shortstop and centerfielder in the seventh and last inning of the ball game.

North's lone run came at the expense of "Shug" Haines' error which enabled Clark, North's leftfielder to steal second base and score on an infield out by Brockman, North's third baseman.

With Dick Hoover, ace Cowboy hurler in superb form, West defeated Aquinas last Friday 8 to 4 on the losers diamond.

Hoover, after a shaky first inning in which Aquinas scored three of their four runs, was invincible from there on.

Hoover struck out 16 Aquinine batters and allowed only four hits in which three of them went for triples with a heavy wind pushing the ball.

George Ours and Scanty Lowery led the Cowboy attack with two hits apiece, with Ours connecting for a double and a home run and driving in four runs.

Aquinas jumped into an early lead by scoring three runs in the first inning. West tied it up in the fourth and went ahead one run in the ninth but West scored four runs in the seventh inning from Bill Reider, Aquinas pitcher to sew up the game.

West will meet East on the East field this evening at 4 o'clock.

If You Want To Get "Out of Frying Pan" Go To West May 14-15

By Betty Noel

The West High dramatics department is presenting the hilarious Broadway comedy hit, "Out of the Frying Pan," on the evenings of May 14-15.

When I attended one of the rehearsals, I laughed until my sides ached, as you will too, when you see the finished production. This play was acclaimed "the year's funniest" by New York critics after it's long successful run on Broadway. Some of their comments were "It's uproarious . . . a riot . . . It's a scream . . . It will leave you feeling as gay as a striped awning." So you see you can't go wrong in seeing it.

The cast includes: Tom Webb, John Brown, Bonnie Lear, Don Murphy, Gloria Calentine, Margorie Bast, Jane Gibbon, Alice Erb, Dick Janes, Roger Miller, Louis Womeldorf, and Don Stout.

Urge Early Renewal of C Gas Books

If the bulk of the mororists in this community who operate their vehicles with B and C gasoline rations want to assure themselves of a supply of gasoline on June 1, they will begin at once to go to their local War Price and Rationing Boards or plant transportation committees for renewal application blanks.

The "stitch-in-time-saves-nine" suggestion will have a valid ring to the hundreds of motorists who last February delayed making application for renewed supplemental mileage until the very end of the month and who were stranded for several days in gas-thirsty cars.

C. C. Hartley, chairman of the local WPR board, today reminded drivers of the regulation which permits application for renewed rations a month before the expiration of the old and said the bulk of supplemental rations would expire May 31.

"As our harassed board members well remember, they were over-wheimingly swamped by a last-minute flood of applications which they just could not get to by the end of the month," he said. "It is for their sake and for the interests of the drivers that we are appealing for early applications."

Applicants need not take their application blanks to the board but may mail them accompanied by their tire inspection records. Several days before the expiration of the old books, the board will mail the new rations and the record back to the applicant.

Boards are also enlisting volunteer workers early for the ration renewal period and are being supplied with all the forms needed for a successful, smooth application period.

Men Wanted To Help In Clean Up Campaign

An appeal is being issued to men of this community to assist in the forthcoming city-wide clean-up campaign.

In view of the fact that the city is in an embarrasing financial condition and cannot provide the manpower to make refuse collections throughout the city the mayor has agreed that facilities of the refuse collection department may be at the disposal of the Junior Chamber of Commerce in their drive.

The Jr. C. of C. is asking that any men who can do so give a few evenings of their time, after 4 to 5 p. m. for this work in their immediate neighborhood.

Those desiring to help have been asked to register by calling The Hilltop Record office, Ra. 1125. Their names in turn will be given to the Junior Chamber of Commerce from which they will receive further instructions.

John Kuhn, 2287 Sullivant-av, is secretary of the organization.

West High Round-Up

By Shalmir Springer

In the Spring a Young Man's Fancy—this must account for the gossip I've been hearing all this week . . . Suzy Johnson thinks it's a shame that Seniors must graduate this spring . . . Anna France admires Phil Bowser from a-far . . . with Betty Evans carrying the torch for John Patterson, it seems Duke's left out in the dark . . . Tom Cline has been forgotten for Fred Rucker by Jane Yoder—ah! how fickle is woman . . . Neil Mowry and Betty Ham are still coke-sipping after the Saturday night dates . . . rumors couple John Herbert with a blonde (what is her name?) . . . Carol Graham's engaged—but don't forget, Carol, a wedding ring may not be as tight as a tourniquet, but it certainly stops the wearer's circulation . . . that goes for Jean Wynkoop, too . . . Bill Link dating a girl from Hilliards and Ray Grabill with a girl from Rome . . . Lois Crum and Lyle Beaver are still going good after having had dates for five years . . . since Beatrice Minor's boy is in the army, all she has left is a convertible—as though that weren't enough! . . . and it is Laura Henny and David Scoles . . . So, though the weather isn't exactly spring-like, thoughts are.

In The Navy

West is minus one swell kid, but the Navy has gained a good man. Last Friday, 11A Louis Gross left, but not before I could pin him down to a few things. His hair is medium brown, and his eyes a greenish-bhie. His favorite food is meat (unqualified). Swimming and track rate tops with him in the sports line, and nothing can beat "Black Magic" when it comes to popular tunes, according to Lou. Model airplanes occupied his spare time but after the war he wants to build something big—his ambition is to be an architect. If the Navy had nothing else to offer, Lou would find solace in just being away from those squeaky huaraches — his pet peeve. "A girl in every port" so they say of the Navy, and Lou's gotten off to a good start—he's left one in the home port, hasn't he, Lois?

We Will See The Day Yet—when Aggie Hart is washing dishes for not paying for her meals—that steak dinner was about $.80 too much, wasn't it, Aggie? . . . when "Rabbit" Evans and Lewis Strickland are really punished for playing truant . . . when Ima Jean Hall is no longer late to class . . . when Betty Grant realizes it is spring house-cleaning time and actually starts cleaning that dirty locker of hers . . . when yours' truly never goes about singing her theme song, "Have you any gossip?"

Tidbits — We wish GOOD LUCK to Bill Richards and John Leaman who have joined the Navy . . . Congratulations to all those who helped make the Band Variety a swell show; every act was excellent . . . WELCOME BACK—Jean Lyons is back after having visited [illegible]

"C" Books Do Not Make Car Owners Eligible For New Tires

Possession of a C ration gasoline book does not make the owner eligible for new tires unless the present tires are beyond recapping, it was pointed out today.

The warning followed reports that tire recapping volume at local stores had dropped off noticeably, immediately after it was announced that persons who use their cars in their work, regardless of whether or not the work is essential, are now eligible for C books.

B and C ration holders must have permission from their local rationing boards to buy new tires only when their tires are worn beyond recapping.

But if such wear indicates that the tire could have been saved by earlier recapping, the local board has the authority to deny "mileage" to the owner. "Mileage" means both tires and gasoline.

Eligibility for tires does not change when the car owner graduates from a B to a C book. Both must recap worn tires if they will take a recap. When the tires are worn beyond that stage, both are eligible for Grade One (new) tires.

FORGET YOUR HAIRS OF GRAY

Too many are found everywhere around
Wearing crape around their head,
No smile of cheer for any one here
But a gloomy frown instead.
Harboring grief, self pity, unbelief
Never cheerful or satisfied
Doubtless the reason so many each season
Try to commit suicide.

There is a way to be happy and gay
Redeemed from a living tomb;
Cast in the sea all doubt and lethargy
Raise the window blinds in your room.
Early tomorrow throw away your sorrow
Throw away your shroud today
Don't make your bed with the living dead
And forget your hairs of gray.

Weather In England Unlike What We're Having According To Soldier

With the weather being what it has been for the past week, this letter from a boy in England is interesting.

Charles Herron, son of Mr. and Mrs. H. H. Herron, 26 N. Harris-av, writes his family "It is Sunday morning, around 9:15 a. m. as I start this letter. I have been sitting by a window in our Supply Office, just looking out and wondering what kind of a day it is back home, and what everyone might be doing. It is as pretty a morning as anyone could possibly wish to see. However, this good weather seems to be the exception, rather than the rule, because we have had a lot of rain and cold weather." This letter is dated May 2.

He continues, describing the country. "Although the country over here seems to be very much like the central and southern part of Ohio the people are different. Their speech and appearance make it plain that they are not Americans, but one can hold nothing but admiration for the individual sacrifices these people have made and the high spirits they have retained through this war. They, like us, have their faults, but they also have their good points, which cannot be overlooked. They take great pride in keeping their lawns and shrubberies trimmed and their flower gardens in the best possible condition and appearance."

He also tells how he is being treated, what they do and what they eat. "We have movies yet about three or four nights a week and an occasional stage show. Through a recorded broadcast from BBC we hear Bob Hope, Jack Benny and a few of the other weekly American radio programs. They are feeding us well with an occasional breakfast of hot cakes, syrup and corn flakes with milk and sugar. The good food, the excellent living conditions and the diversified recreational program on the base here undoubtedly play a large part in keeping the spirits and morale of most of us at such a high peak."

Charles gives all of those who write to soldiers overseas a hint as to the quickest and most reliable method of sending letters. He says "I receive most of your letters in about 14 days. 'Air Mail' sometimes comes through within that time and if in good condition, but letters without any enclosures from activities around home 'V' mail is probably a little more reliable."

West Class Play Tonite

West senior dramatics class will present its annual school play, "Out of the Frying Pan," a hilarious three-act comedy again tonight at 8:15 p. m., in the school auditorium.

Under the direction of Jeanne Gilmore, dramatics instructor, the cast has worked hard to make this successful Broadway play, a success at West Hi also.

The cast follows:

Tom Webb as George — lazy, but good natured and easy going; *John Brown as Norman* — dependable, sensible, watches over the others as a mother hen with her chicks; *Bonnie Lear as Mrs. Garnet* — flighty, stage-struck, slightly bewildered landlady; *Don Murphy as Tony*—romantic, sincere, but discouraged; *Gloria Calentine as Muriel*—suspicious and definitely woe-begone after her experiences with the stage-struck six; *Marjorie Bast as Kate*—cynical after a long hard fight for glory in the theater; *Jane Gibbon as Marge*—sweet, kind, in love with Tony; *Alice Erb as Dottie*—the very dumb-Dora type, cheerful and happy about everything; *Dick Janes as Mr. Coburn* — strict, egotistical, domineering and Boston-bred; *Roger Miller as Mr. Kenny*—eccentric, theatrical producer with a hobby of cookery; *Louis Womeldorf as Mac*—a cop who tries hard to be intellectual and obliging; and *Don Stout as Joe*—a very, very, dumb policeman who couldn't understand if you drew him a diagram.

The entire action of the play takes place in the living room of a brownstone front apartment in New York City.

Sugar For Canning Is Available

Procedure by which housewives will obtain sugar for home canning and freezing of this season's fruit crop on and after May 15 was announced today by chairman of the local War Price and Rationing Board.

Persons who have not yet sent in their applications for renewal of their C gasoline rations are requested to do so immediately in order to avoid the rush.

As previously announced by Price Administrator Prentiss M. Brown, sugar for home canning is being allotted on substantially the same basis as last year—that is, one pound for each four quarts (or eight pounds) of the finished product; and by essentially the same procedure — written application to the local board.

A top limit of 25 pounds of sugar per person is set in the new regulations, which become effective May 15. The OPA emphasizes, however, that the 25-pound figure is a maximum, to be granted only in relatively few cases where this large amount of fruit will be canned and preserved.

An appeal is being made to women of the community to volunteer their services in the issuance of canning sugar. Those interested are asked to call Mrs. Curran at Ration Board 25-10, Ad. 5279.

Within the 25-pound-per-person limit, any family can apply for sugar to put up jams, jellies, and preserves at the rate of five pounds per individual. This is a more generous allowance than last year, when sugar for preserves was limited to one pound per person.

The applicant must furnish the following:

1. A copy of War Ration Book One for each person for whom home-canning sugar is sought;
2. The total number of quarts or pounds of finished fruit to be put up; and
3. The amount of sugar to be used for making jams and jellies (not more than five pounds per person, within the 25-pound overall maximum).

It also provides that the time change shall cease six months after the war, or until Congress rescinds the fast war time.

The change Sunday will put city clocks in accord with railroad and federal offices, but all state offices, the courthouse and city hall clocks will be on the state's slow time.

Exchange Vows On Easter Sunday

On Easter Sunday at Glenwood Church with altar banked with lillies and ferns, Miss Betty Bowers, daughter of Mrs. Mary L. Bowers, 2155 W. Broad-st, became the bride of Mr. Delmar P. Hornsby, son of Mr. Frank Hornsby and the late Mrs. Hornsby of Springfield, O.

The ceremony was performed by Rev. J. B. Shellhaas.

The bride was given in marriage by her uncle, Mr. Robert Tope. She wore a powder blue street length dress with a hat of powder blue, and carried a bouquet of gladioli and roses.

Only attendants for the couple were Miss Martha Jane Bowers and Mr. Wayne Tope, cousin and sister of the bride. Martha Jane wore a navy blue dress and hat and corsage of gardenias.

For her daughter's wedding, Mrs. Bowers chose an old rose dress with navy blue accessories and a corsage of gardenias.

The bride attended West High School and Bliss Business College. She is now employed at the Battelle Memorial Institute. The bridegroom is associated with the E. J. Thomas Co.

They are now at home to their friends at 2671½ Palmetto-st.

Karnival Kids . . . No one seems to have missed the carnival, for all the rain we've been having. Marilyn Stamper is quite a carnival fan—she has gone several nights . . . Ruth Black went and afterwards met Fran Ford at Hamilton's . . . Colleen Cheuvront was debating whether to go Wednesday on 'count of the blackout . . . Sam Morgan was down there doing his darndest to win a prize, we hear. Did you succeed in getting a doll for Doris, Sam? . . . Dick Ewing was trying to get Katherine Wisdom take one he had won, it was reported to me . . . Freda Williams and Barbara Dauber were there . . . Jackie O'Brien with a non-West boy on the Merry-Go-Round . . . Jim Remington and Tom McCarley whipping 'a-round . . . Paul Zeisler and Carl Hossler wandering from booth to booth . . . Shug Haines and Harold Buchanan playing Bingo . . . When you go up on the ferris wheel, you'll get a thrill—ask Alice Remington, she KNOWS . . . Kaye Newman and June Henery were seeing the sights . . . Bob Harvey and Neil Mowry rode, and rode and rode and rode—they were in a rut! . . . Guy Kent, John McCready were looking for something they hadn't seen, ridden, played or eaten before . . . Betty Schwindler and Esther Ongaro were having fun—just eating! —as who wouldn't be having fun? . . . Others having a merry time were Matere Alban, Bus Compton, Tom Cline and Bob Anthony.

Queen Creatures—wandering in the halls this week. Hair was down and girls were wearing no make-up . . . Gum was being passed, favors done . . . I've never seen girls be so nice to one another—nor some so mean . . . New members were being initiated into the G. A. A. —Karen Dentner was forbidden to speak—and she musn't cut her hair! . . . Doris Nelson and Shirley Meyers housecleaned. The gym office is all spick-'n-span now . . . Jean Heaney will look like one of these traveling libraries—she lives in the neighborhood of active G. A. A.'s and they're promising her books to carry to school every morning. What a life!!

This week we have 12A Dorothy Lightner. Happy-go-lucky, she has no pet peeve and loves sports. Sports seem to be her recreation, work and hobby. Basketball is her favorite. After exerting herself in games, she just ADORES steak dinners and then a romp with Roxy, the dog, or to follow Tommy's (that's the cat) example and take a snooze. She thinks Kay Kyser is pretty swell, though how she could have time to listen to the radio is beyond me. She is vice-president of G. A. A. and a member of the G. R. and Spanish Club. Her one ambition is to be—you guessed it! A physical education teacher.

The next time you creep in just as the clock strikes that early morning hour, just remind your irate parents that they were also foolish, disobedient, deceitful and irresponsible, and look how well they turned out!

Sick List . . . Margy Stimmel has measles . . . and Miss Campbell is rumored to have same . . . Mary Louise Taylor has a broken toe.

Apologies To All Concerned—Through some error it was stated last week that Lyle Beaver and Lois Crum had been dating. This is not so. I'm sorry, kids!

Anybody Heard—Ella Marie Hoopman saying, "Eeny-meeny-miny-moe?" Seems she can't decide between Frank Sherman and Jack Boyer . . . Anything lately of the Jennings-Fishinger situation? . . . Emmett Smith's comparison of Julius Caesar with Adolph Hitler? . . . that Bea Miner's Navy man is expected home soon on furlough . . . that Barbara Busick and Bob Maxwell are "that way" again, for the 8th time—so it's being said . . . that Anna Lee Brown corresponds with some boy in Massachusetts—tell us more! . . . that a knife is cutting the bonds between Freda Williams and Fred Mills.

Junior High Jabber — Suits play a major part in these girls lives—and no wonder! they're really sharp! Suzanne Walker in a mellow yellow suit . . . Beverly Thurell showing off her light blue beauty . . . Donna Hergesell parading in red . . . Charlotte Jones sporting a plaid . . . Betty Dickendasher flashing that zoot soot jacket of hers.

We Have Heard—that Dulse Knute has threatened to give Ward Walcott a pineapple . . . that Barbara Bing and Lucille Stevens no longer spend their spare time roller skating . . . rumors flying, saying Charlotte Jones and Russ Seely are dating . . .

Can You Imagine?—Buddy Dean with blond straight hair? . . . Bunny Baker being mean and disagreeable? . . . Francis Sapp sophisticated and sad? . . . Dick Slager in dark, dull colors and without a joke? . . . and Phyliss Mesler not being able to sing?

A Parting Admonition — to all those who feel the urge to gamble, remember, "Rolling bones gather much loss." Voice of Experience signing off.

A man's own good breeding is the best security against other people's ill manners.

Make Meat the Center of Your Victory Meal . . .

Thrifty housewives have a double purpose for planning their meat purchases. Each pound of meat costs both money and coupons, when you shop you want to get the most meat for your ration coupons
One of the principle ways of getting the most from your coupons and spreading the meat flavor is by mixing the meat with bulky mild flavored foods like macaroni, noodles, eggs, beans, rice, etc.

Cowboys Wallop East Tigers

By Bob Buslek

The West High Cowboys coasted to a 20 to 1 victory over a weak East nine at Harley field last Friday.

George Ours set the Tigers down with seven hits, while fanning ten.

The 16 hit attack against three [illegible] going to bat, no matter how [illegible] re grocery counters become, hit safely four times out of five and batted in five runs. "Scarty" Lowery had a nice day at the plate also, connecting three times out of five.

West pulled into an early lead in the first inning by scoring five runs on one hit, three errors and a hit batsman. West led 18 to 0 at the end of the third inning.

East's lone run came in the seventh inning when Jack Leo doubled and shortstop Fearing drove him home with another double after two were out. Ira Blackwell almost prevented the run when he threw a perfect peg to catcher Parkey only to have Ours intercept it.

West's game with South scheduled for last Tuesday was postponed until a later date. The Cowboys will entertain East this Monday at West. Tuesday, Central who gave West their initial loss will play the Cowboys at 4 p. m. This game may decide the championship in the City League.

BUILD TO SAVE THE WORLD

Great words in marble we may inscroll
Build a mansion ten stories high
The mansion'll decay the words fade away
Unseen by the throng passing nigh
Then what can we build that's permanent
If not brass, marble and stone
If cured lumber and clay soon fade away
And we stand in sand alone.

And where shall we find an architect
To draw up a blue print plan
That'll hold together, indure all weather
A refuge for woman and man.
The answer comes back from our Master
I have made you a permanent scroll
In my book you are told by prophets of old
"Build to save your soul."
—C. S. Parks.

At a recent meeting of the West senior class, the motion was made by Bill Schneider and seconded by Guy Kent that the senior class choose as its project the buying of War Bonds. It was voted upon and unanimously decided to buy $75 in War Bonds for the class project of the June graduating class.

A special committee will be appointed to meet ten years hence and decide what should be done with the interest drawn from the bonds.

The following are members of the project committee: Chairman, Gordon Taylor, Bob Maurath, Ted Scharenburg, Mary Harold, Pat Lauer, Kaye Newman, and George Ours.

12 Boys Pass V-12 Exam

Twelve West Hi boys have been notified that they received a high score in the V-12 scholarship tests, which were given at West, April 2, covering physics, English, math, and reading comprehension, to qualify for future examinations. The test required two hours, covering content of 150 questions, of which 120 were necessary to be answered correctly. July 2, 1943, the boys will go into training at some college; when they have finished their course they will go into six months officers' training school, and will graduate with a rating of Lieutenant (j. g.). They will take their physical examinations at Cincinnati which lasts two days.
Marvin Allison, Guy Kent, Bob Gulcher, Ralph Thomen, and Paul Prior have already taken their physical examinations.
John Layman, Woodrow Pickering, Jacob Hall, Bill Bryan, Louis Erf, and Louis Womeldorf will take their examinations at a later date.
Gordon Taylor received word that he had passed V-12 the same day he was accepted for the Army Air Corps.

The Legend of The Dogwood.

About this time every year or so we have requests for the printing of the legend of the dogwood and are repeating it as follows:

In the time of Christ, so the legend goes, the dogwood attained the size of the oak and other trees of the forest; and so strong was the wood of the tree that it was chosen as the timber of the cross.

This of course distressed the dogwood mightily, and Jesus sensing regret at having been chosen to serve such cruel purpose, made this promise:

"Never again shall the dogwood tree grow large enough to be used as a cross. Hence forth it shall be slender and bent and twisted, and its blossoms shall be in the form of a cross — two long and two short petals, and in the corner of the outer edge of each petal there shall be nail prints brown and rust stained with blood, and in the center of the flower will be a crown of thorns.

"All those who see it will remember it was a dogwood tree that I was crucified on, and this tree shall not be multilated or destroyed, but protected and cherished as a reminder of my agony and death upon the cross."

Down in the hills the dogwood is out in all its glory, growing as the legend promised, with slender branches, bent and twisted, with its snowy blossoms.

My Bray

Because he once in awhile was critical of the Democrats and the Roosevelts some 'friends' of Jack Shank were this week responsible for a column entitled "My Bray" by J. Shank, (with apologies to Eleanor), portions of which are printed herewith:

"W. Broad-st, Friday—Upon arising this morning I remarked, as usual, to Mabel, how fortunate she is in her choice of a husband. It always makes me feel so good to start the day off for others so well. At the office I perused the morning paper. I always read the editorials in the morning paper because they are always giving Roosevelt and the Democrats H.

"Time flies so fast these days. I looked at the clock and it was 10:28, and I was due at the Grotto at 10:30 for my daily conference with Elder Shanklin on his Sunday sermon. Before leaving however, I told the office girl to put herself down for $5 more on the week. There is something beautiful to me in doing little deeds like this . . .

"My day had been so full that it was a tired person indeed who lay his head down to sleep that night. I told Mabel, just before falling to sleep, what a lucky woman she was."

These Industrious Hilltoppers Hope To Eat If Big Garden Is Successful

Some industrious Hilltoppers are going to eat, no matter how bare grocery counters become. Among the many other dishes that will be eaten as products from the gardens of Westgate Victory gardeners are green and lima beans, lettuce, radishes, cabbages, corn and tomatoes.

The Westgate Victory Garden har been organized into two separate projects, North and South, with a president and secretary-treasurer for each. R. E. Lewis is president of the North project and John Rohr is secretary and treasurer. The South project elected as its officers Paul Linder as president and Joseph Ryan as secretary-treasurer. The presidents make incidental decisions as to the spending of the funds, and the secretary-treasurers have charge of correspondence and the recording of admissions and all responsibilities the club must assume.

At the first meeting which was held in February, each member was voted responsible for the clearing of his own lot after harvesting. Looking forward to next year's project, they are going to plow again in the fall.

West Wins One-Hit Ball Games

By Bob Busick

Last Thursday West opened their district tournament play by downing the Grandview Boosters 2 to 1, behind the one-hit pitching of sophomore Carl Hosler.

Ira Blackwell and "Scanty" Lowry each got two hits with Lowry driving Hosler home in the sixth inning with the winning run.

Bexley, last Friday, ended West's tournament play by downing the Cowboys, 3 to 1, behind George Spencer's five-hit pitching. West's shaky defense and weak hitting led to Dick Hoover's downfall, who pitched sensationally, giving up only four hits and striking out eight batters.

Tuesday, behind the magnificent one-hit pitching of Dick Hoover, the Cowboys defeated the league leading Central Physics, 4 to 0, on the loser's diamond.

Hoover, who struck out 12 batters, while his mates were pounding Ray Louthen for nine hits was never in trouble throughout the whole game.

The attack against Louthen was led by Ira Blackwell, who hit safely three times while scoring twice himself.

West scored two runs after "Scanty" Lowry singled with the sacks loaded in the first inning. West's third run was a gift as George Ours sent a slow roller down to Hoffman, who fumbled it, allowing Hoover to score from third. West's other run came in the sixth inning.

Ray Louthen spoiled Hoover's bid for a no-hit game by sending a sharp single with one out in the seventh inning.

J.-B. Pupils Raise Tomatoes

The Hilltop has visions of plenty of ripe, luscious tomatoes to be had on their tables this summer. This will be due in part to the efforts of John Burroughs School pupils.

Seventy five hundred tomato seeds were distributed to grades 4, 6 and 7, which they planted in March, in seed "flats." After they sprouted, they reset them several times as they grew larger. When warmer weather arrives, they will either set them outside or place them in cold frames.

Thirty one hundred have already grown to maturity.

Boy Choir Off To New York

The Columbus Boy Choir School will leave on The Jeffersonia Friday for New York City where they will make their debut in Town Hall, Monday night.

The school is located at 788 E. Broad-st. Herbert Huffman is the director. Several Hilltop boys are in the choir.

West High Round-Up

By Shalmir Springer

Several kids are fretting that they're going to fail certain subjects, namely, more-or-less, geometery or chemistry. (Include me in on that last!) But, why worry?—So I'm passing on my philosophy of life with this piece.

Why Worry?

"There are only two reasons for worry. Either you are successful, or you are not successful. And if you're successful, there's nothing to worry about. If you're not successful there's only two things to worry about—your health is either good, or you're sick.

"And if your health is good, there is nothing to worry about, and if you're sick—there's only two things to worry about. You're either going to get well, or you're going to die.

"If you're going to get well, there's nothing to worry about; if you're not going to get well, there's only two things to worry about. You're either going to heaven or you're not going to heaven.

"And if you're going to heaven, there's nothing to worry about; and if you're going to the other place you'll be so doggone busy shaking hands with old friends you won't have time to worry. So, why worry?"

Baseball Scenes—Joan Beh and Kate Wisdom watching two of those certain players . . . A constant fan is Ray Garrison . . . and not to be forgotten is the letter the boys from Room 137 wrote Coach Williams.

Too Bad—If the food rationing becomes any more strict Allen Ett is rumored to have a huge appetite . . . that Aggy Hart's sleeping party didn't materialize — it would have been interesting.

The Show Must Go On — Bill Davis and Emmett Smith are still giving anti-Caesar plays in 3rd per Latin, despite the absence of their co-star, Edway Johnson.

Report From The Record Office—Barbara Busick rushing into the office, to get the first Records from the press. Dave Cornwell, circulation manager inquires, "Going to read Shalmir's column?" Barbara breathes excitedly, "No, I'm going to read my BROTHER'S . . . Mary Graham in here with her handsome sailor lad. . . .

Clap Hands—For all those who made the senior class play rate with the best. Everyone put on a swell performance. Wouldn't be a bit surprised to see some West kids with their names in lights and known as top-notch actors and actresses some day.

We Bet—Joan Powers fascination for 9th period library isn't all from being such an ardent admirer of literature. Could be, she ardently admires something—or somebody else.

We Hear—Joan Kern is exerting all her wiles on that certain junior. Keep tuned to this column for later developments . . . a merry little triangle exists, concerning Geneva Hinkle, Chuck Richards and [illegible] Johnson . . . Louis [illegible] and John Lehman went alone to the senior play.

Much Missed—Will be Betty Van Gastle who is moving west to California.

What's What From West Junior

It's Been Rumored—Phyliss Lauer and Duke Kernute are steadying . . . Charlotte Jones has three men on the string . . . Bunny Baker has finished his sewing project — Diapers! . . . Shirley Uridil goes with a boy who lives out of town, and we hear he is SHARP! . . . "Joe" Sapp secretely aspires to play little-boy parts on the stage — we hear he is getting plenty of experience from Dramatics . . . Phylis Spradling arrives here at school every morning at 8 . . . Urge Filling Coal Bins At Once

"Filling the coal bin at the earliest possible opportunity is a precaution this year for which those who do so will be grateful next fall," says J. M. Jackson, owner of The J. M. Jackson Fuel Co., Dana and Thomas-av.

"In cooperation with the National Coal Administrator, Harold Ickes, all dealers are urging coal heating users to fill bins to capacity now so as to minimize rail transportation of coal for civilian use next fall." He said that not only is the increasing use of railroads by the government for troop and supply movement a factor which is certain to cause a shortage of coal for home use, but the prior needs of war industries, labor shortages and curtailed production of furnace and stove sizes must be considered.

Realizing that an immediate outlay of money for next winter's coal needs may find some people unprepared, we are offering a deferred payment plan which extends the total amount over several small convenient payments," declared Mr. Jackson, and added that his company has ample stock of all the wanted grades and sizes on hand for prompt delivery, but could give no assurance of such available supplies later on.

Mr. Jackson is an old Hilltop resident, residing at 575 Wiltshire-rd. His son, Jack Jr., is associated with him; another son, "Bill," who graduated from West High School is a bombadier in the Air Force. A younger son, Donald, attends St. Mary Magdalene School.

This month marks the first anniversary of The J. M. Jackson Fuel Co., and Mr. Jackson expressed his sincere appreciation for the fine support given by the many customers and friends who have helped make his venture successful. Although a newcomer in the coal business of the West Side, Mr. Jackson has acquired a valuable knowledge of coal heating requirements and says it is his earnest desire to give his friends and patrons the best possible quality at the most reasonable prices.

Your Opportunity To Help The Blood Bank

Window displays in local drug stores are invitations for you to make a contribution to the Red Cross Blood Bank.

Arrangements have been made whereby people in the outlying communities may participate in the program through a plan of cooperation with the drug store. Details may be had by visiting your nearest drug store today.

The need of additional blood is urgent. The approaching invasion of Europe will no doubt find such contributions aiding the Red Cross in saving thousands of lives of American boys.

Bits and Bits: Humblest apologies for not telling the world that Whitie Looker, down at Budd's Barber Shop is now a grandpa . . . a daughter, April Lee, was born recently to his dotter, Betty Ann Shuck, down at Pensacola, Fla. Mrs. Looker was to arrive home from the south this week . . . Whitie says cigars come only with grandsons, but he's still about the proudest guy in these parts . . . The interior of Vogelsang's Bakery is newly decorated and looking bright as a new dollar . . . Mrs. Goins on Fremont-st, is seen frequently digging worms for three little robins made motherless by a cat . . . that was some patriotic parade of youngsters up N. Hague-av way recently when the 18-month-olders up to eight years dressed themselves in everything from nurses uniforms to those of the coast guard . . . Thanks to Edith Salee for the 'chicken dinner,' but I did expect one without feathers.

• • •

Onward Victory Gardeners: Reports have it that Clyde Moore has a fine crop of grass, a tree and a hammock . . . George Bornheim paid to be instructed in gardening and he may be the wisest of a lot before this thing is through . . . Curt Wilcox and Harold Link have been sitting up at night watching their potatoes and now are trying to get a detail of Civilian Police to take over the job . . . Bob Draper expects to get a good crop of cabbage, having waited till the plants were three-fourths grown before he set them out . . . Clarence Story finds that the weather is causing his corn to be quite yellow but daughter, Marilyn reminds him that is to be expected since he planted yellow corn . . . Art Corn, one of the Hilltop's most progressive gardeners went out to his small garden patch last Friday morn only to find some vandals had erected a large sign that could be read some distance away which stated, "Art Corns corny truck patch, please walk on my peas if you must pass through this garden." . . .

Sophie Naumcheff, sister-in-law of Jimmy Phillips of the Biltmore, has made the news.

For the past several weeks she has been with her mother at Fort Wayne and during the past week their house has been surrounded by flood waters. The other day she got tired of it and called the police who came out in a boat to find out what was the trouble. She told them she wanted to go to town and they took her there in the boat.

When they arrived in town the police inquired what she wanted. Her reply was that she wanted to pay a bill. Result: her pictures made the Ft. Wayne papers.

Boards will issue sugar canning coupons or certificates for 10 pounds less than the total requirement (10 pounds may be bought with stamps in War Ration Book One), and will record on the cover of each person's ration book the amount and date of sugar allotted.

If application is made after Oct. 31 (the date on which Stamps 15 and 16 in the sugar book expire), and no sugar has been previously granted or bought with Stamps 15 and 16, boards may issue coupons for the full canning requirement—in no case more than 25 pounds per person.

Cowboys Are Champs

By Bob Busick

With Dick Hoover invincible throughout the game West secured themselves a tie in the city League race by downing Aquinas last Tuesday at West, 7 to 1. Playing on a wet and muddy field West had no trouble with the offerings of Dick McQuade, Aquinas hurler by scoring a run in the second and four in the third when nine men faced McQuade in this inning.

A run in the fourth and the fifth sewed the game up for West. Aquinas prevented Hoover from a shutout when Mussio in the seventh inning slammed a long triple over Ira Blackwell's head in centerfield. Litzinger sent a fly to Lowery in left and Mussio scored after the catch.

A visitor to the game was former coach of West Lt. (j. g.) George Williams, U. S. Navy, Chapel Hills, N. C., who is home on a ten-day furlough.

Behind the two hit pitching of Geo. Ours, West defeated East on the home diamond last Friday 7 to 3. Ours had the Tigers handcuffed until the seventh inning when East scored two runs. Fearing, pinchhitting for Hale, secured the first hit from Ours to start the seventh inning by sending a sharp hit to short which Bell knocked down but could not throw. A walk, wildpieth and the second hit by W. Jones dorve in the other run.

Dick Gilmore and Ira Blackwell were the big guns for West with the former gathering two hits and driving in three runs while the latter also secured two hits. West led 5 to 0 at the end of the third inning by jumping on the offerings of Headlee, East's pitcher. Two runs were scored in the seventh on a hit, two wild pitches and two walks.

They defeated Simpson 49 to 42 and Appleseed 58 to 33. This concluded a very successful season in which they were undefeated. This was the first year for all the West Junior material, there being no holdovers from last year.

Finals in the city high school track meet were held last Monday afternoon at O. S. U. The winner was Central, 71½, East finished second with 64½, North was third with 47, while West finished fourth with 27½, and South last with 11½.

West High Round-Up

By Shalmir Springer

Hi, boys and girls! Back again as I promised with more mud to sling and dirt to tell.

We're Told—boys don't like being pursued—so Fred Rucker says . . . Hope Strickland was not to be found in classes nor at home one day this week . . . Mary Stimmel bought a sharp shirt identical with one of Bob Howard's—when this paper went to press, neither knew it . . . the good-bye the farmer date of Jean Lyon's gave her must have been thrilling—he shook hands with her! . . . Aggy Hart may be bugler at camp this summer . . . Phil Bowser is housecleaning—Girls, be prepared for the brush-off . . . Sam Morgan is teaching Doris Huey to dance, now . . . Pat Leech has a 'big moment;' he's 6 ft. 5 and mellow! . . . Rennie Parkey's new nickname is "Stubby" . . . that Ron Fuller is heading for summer school, since he will be of draft age before he is graduated.

We Wonder—to whom Betty Grant was talking when she used the phone booth in the office the other day—clocked her—ten minutes exact!

Working Gals—are Dorothy Henderson, Miriam Hedges and Barbara McNutt.

Have You Seen?—I Haven't!—Jim Tory walk with some girl to class every 9th period? Jackie Kienle's leg make-up? —an admiring crowd stood in front of Hamilton's appraising it . . .

Bits—Coach Williams was at the game t'other day, wearing his Navy uniform . . . Marvin Allison's haircut is really something to be mentioned! . . . Margy Ruddock had mumps, but is over them now . . . Neil Mowry has measles, I hear . . . Fourth period history class collected money for war stamps for ex-member Lou Gross, now in the Navy. They wrote him a round robin letter to go with it . . . Silence reigned in the first period girls' gym class Wednesday . . . Leslie Laird goes around throwing handle grips off bikes at girls and into dishes . . . Mary Grimm is interested in a sailor—but who can blame her when he's tall, dark and handsome.

When Asked — if she knew any gossip, Donna Hoover replied, "No," cause 'I don't get around much any more" . . . to the same question, Martha Griffis said, "I'm all gossiped out." IMAGINE!

Congratulations kids who did so well in the scholarship tests up at State. West High is proud of you.

Junior High Jabber

We hear Jim Rennie is about to make a big decision—Betty Dickendasher is still carrying the torch . . . Jo Insley receives letters postmarked Bellefontaine . . . Rose Hubbard and Bob Penn are the latest twosome . . . Duke Curnutte can't make up his mind between two Phyllis' and a Mary—indecisive, aren't you? . . . Jeanne Grady's notebook contains all sorts of information . . . Marilyn Works spends all her spare time walking by Kroger's—for Ed Compton's benefit, no doubt . . . We're curious to know just who is Pam Mosier's latest . . .

Well, there's mud in your eye.

THE SPRING OF FORTY THREE

Women and Men three score and Ten
Never saw this kind of weather,
No one can explain why so much rain
Why the clouds hang together.
Some tell of a frost and the crops lost
Since Lincoln set the darkies free
And some will relate in Ninety Eight
About the spring of Forty Three.

Millions in need whom we should feed
At home and far away Bombay,
But who can sow and make anything grow
When it rains every night or day?
Nothing we can do if the sky isn't blue
And the Sun refuses to shine;
Maybe a reminder to make us more kinder
A warning from our ruler Divine.

—C. S. PARKS.

Be Careful With Those Ration Books

In recent weeks numerous people have reported loss of their ration books to the local War Price and Ration Board. In many instances it has been proven that persons were very careless and oftimes find their books shortly after they have reported them lost.

Regulations from O. P. A. state that no lost books are to be replaced until a certain waiting period has passed. The boards have the privilege of not issuing new books until 60 days later.

Because of the great load placed on the local board by such careless people such action may be made necessary in the near future and no books will be replaced until 30 to 60 days after their reported loss.

If you value your rations, better be careful with your books.

Is This The Way To Keep Costs Down?

This past week the government announced there will be a "roll back" in the price of butter to the extent of 5c a pound. This applies to other farm products too.

What the government plans to do is reduce the cost of the item to the consumer, then in turn pay the difference to the farmer. In other words, the consumer will pay 5c less for butter but will eventually pay more than double this amount in increased taxes necessary to pay the farmer the difference plus all the red tape he'll have to go through to get the refund.

Here and There: Their first wedding anniversary will be celebrated apart from one another. Seaman 2/c Jack Caldwell and his wife, the former Gloria Braden, were married a year ago this Sunday, June 6. He enlisted last December and is now stationed in Boston, Mass. . . . Paul Wichterman who managed the Record a year back is now working out of Wright Field and reports he flew to Oklahoma City and back last week and will fly to San Antonio this week-end . . . Pvt. John Adair reports from Ft. Riley, Kan., that he once thought he worked hard but the army has sure changed his mind . . . Hiram L. Gain, 143 S. Wheatland-av, has been named to serve on the Federal jury for the June term . . . Chet Rinehart has been transferred to Fratt Army Air Field at Pratt, Kan., and Don Bailey is now an aviation cadet at Camp McCoy, Wis. . . . An important meeting of Boy Scout executives of the Southwest District will be held at 3184 W. Broad-st, June 8, at 8 p. m. . . . Richard Berry, 641 Racine-av, has been inducted into the army.

Camp To Graduate From Naval Academy

A member of the graduating class from U. S. Naval Academy, Annapolis, will be Midshipman James Clarence Camp Jr., son of Mr. and Mrs. James C. Camp, 188 S. Terrace-av. The members of the graduating class will receive commissions at the commencement exercises June 8.

Camp, attended West High School and preparatory school at Norfolk, Va., before entering the naval academy. Mr. and Mrs. Camp have another son, Sgt. John Camp, who is in the air force, stationed at Scott Field, Ill.

Court of Honor

The quarterly Court of Honor for Southwest District Boy Scouts will be held Wednesday, June 16, at 8 o'clock in the State Office Building auditorium.

PURSE STOLEN

Mrs. Gusta Smith, 108 N. Warren-av, was attacked in front of her home Saturday morning by a man who threw her to the sidewalk, then grabbed her purse and fled when she screamed, police were told. The purse contained ration books.

HAS LEG AMPUTATED

Charles Burris, 322 S. Hague-av, had his left leg amputated just below the knee on Thursday, May 27. His friends may call on him at Grant Hospital.

Renew "A" Gas Books After June 22

New hours for local ration boards have been announced as follows: The boards will be open from 8:30 a. m. to 5 p. m. each day except Sunday and Wednesday. They will be closed Sunday and on Wednesday will be open from 12:30 to 9:30 p. m.

Plans have been completed for another big job of renewing ration books by mail, thus eliminating the necessity of trips to the board for millions of persons.

Beginning about June 22, holders of gasoline "A" books may pick up application forms at filling stations and other places designated by local boards. This form is to be filled in and mailed to the board, together with the signed back cover of the motorist's present "A" book and his current tire inspection record. The back cover of the current "A" book is an important part of the application because it is evidence that the owner is entitled to a renewal.

Any motorist who has not had at least one tire inspection by a qualified inspector will be denied a renewal. Attached to the application form will be a new tire inspection record which the board will tear off and mail back to the applicant with the new book.

Applicants must write in their own tire serial numbers, thus eliminating clerical work at the board. Boards will begin processing applications as soon as they start to come in and mailing of the new books should be completed by July 21 — expiration date of the last coupon in the first book.

Furlough Food Rations

Under a new plan effective June 2, the procedures service men must follow in obtaining food ration certificates while on leave of absence will be simplified. The order, which applies to any member of the armed services on leave for 72 hours or longer, will provide the service man with a complete application form before he leaves camp, at the same time he receives his leave papers.

It will no longer be necessary for him to appear before the local board. If he does not present the application to the board he may turn it over to the person named as the provider of his meals, who then will have 15 days to turn it in to the board for food certificates. The new plan covers all four food rationing programs —sugar, coffee, processed foods and meats and fats.

Allotments for next fall's fuel oil ration to home owners will be made automatically through the mails by the ration boards when the regular application for a renewal of rations are processed this month, C. C. Hartley, chairman of the local War Price and Rationing Board, announced today.

Inductees Assigned To Army Posts

Newly inducted Hilltop men have been given their assignments from Ft. Hayes. William J. Valentine, 188 N. Guilford-av, to Camp Bowie, Tex., and John H. Adair, 39 Whitethorne-av; Jerry N. Grabill, 109 Midland-av; Clyde H. Grady, 389 Midland-av, and Perry C. Mason, 1103 Sullivant-av, are all to report to Ft. Riley, Kan.

Edmund D. Martin, 80 S. Eureka-av, and Everett H. Lincicome, 203 Clarendon-av, have been assigned to Camp Edwards, Mass.

Sirens Sound!

Enemy bombers won't be making regular weekly raids, so don't be alarmed when you hear the sirens each Monday afternoon. Beginning last Monday at 3 p. m. this same schedule is to be continued each week when the city's air raid sirens will be tested with a two-minute steady blast. These tests are being conducted to keep the mechanisms in good condition; no air raid precautions will be taken on these signals.

On previous Mondays, warning signals were sounded to acquaint the public with the various air raid signals and their meanings.

PLAN RUMMAGE SALE

St. Francis Hospital Circles held their second quarterly meeting at the nurses home, 620 E. Town-st, last Tuesday, June 1, at which Mrs. Thomas Murnane, president, presided. The circles are planning a rummage sale June 10-11 at 360 W. Goodale-st.

Cowboys Win Fourth Ball Title

By Bob Busick

Under the guidance of Coach Ed Alexinas and the combined pitching efforts of Dick Hoover and George Ours, the Cowboys of West won the City League baseball title for the fourth straight time.

With George Ours tossing a three-hit game against South last Thursday, the Cowboys defeated South 2 to 1 for their ninth win in 10 starts.

South threw a scare into the Cowboys when the Bulldogs scored their lone run on an error by "Shug" Haines and the Cowboys were unable to hit the offerings of Dick Scott.

West scored their first run in the fourth when Hoover, who had doubled, scored on a passed ball by Catcher Dodson. West's other run came in the fifth inning after Hosler had walked, advanced to second and scored on Bob Byerly's single.

Ira Blackwell gained two of six hits received from Scott to lead the Cowboys.

Noble Allen Buys Kohn Home

Announcement is being made this week of the sale of the Kohn Funeral Home property at 2456 W. Broad-st, by Mrs. Mary Kohn to Noble L. Allen.

Mrt Allen stated this week that the Noble L. Allen Funeral Home will occupy the building about July 1 after certain remodeling and painting has been completed.

"There's never anything too good for Hilltop folks," was one of the reflections of C. J. "Cliff" Kohn who operated the Kohn Funeral Home along with Mrs. Kohn from 1919 until the time of his death, Feb. 23, 1940. He was always a very active worker for the betterment of the community. In the fall of 1928 the present building was remodeled and has always been maintained as one of the finest appearing buildings west of the river.

Mrs. Kohn this week expressed her sincere appreciation to all her many Hilltop friends and neighbors for their kindnesses of the past and stated her plans for the immediate future are not definite.

Former Record Reporter Writes of Life With Army Somewhere in Alaska

The following is from Dave Shiflet, former Hilltop Record reporter, now serving as a lieutenant with the army somewhere in Alaska.

Trying to write you a story from these parts is like trying to pare potatoes without a peeler due to censorship regulations, for, as you probably have heard, the ADC is well-known as the command having the strictest censorship regulations. However, I shall endeavor to mark down a few notes on our living conditions which may be of interest to you folks back there on the Hilltop.

Training of the personnel goes on as always when troops aren't actually engaged in combat. The men of my particular unit are a cross-section of America, soldiers hailing from New York to Oregon—Texas to Minnesota. It's an All-American doughboy team!

We eat unusually well for being so far from home. This helps keep up the morale, for, as you know, an army travels on its stomach. We have very few shows for entertainment but recently we were lucky to have one of the U. S. O. groups stop over and I think every man in camp attended the performance. The cast included two girls! You see the only members of the opposite sex who are located near here are nurses and their numbers are very small.

As recreational means we have some organized athletics although facilities for competitions are limited even though we do have some equipment. The terrain in this part of the world reminds one of the hills in Southern Ohio except that the tundra makes hiking far more difficult.

The men wash their clothes by dipping water from the streams in buckets, heating it on their sibley stoves located in the quonset huts, and then inserting the dirty articles in the bucket to be scrubbed by hand. For several months our troops "roughed" it in pyramidal tents and bathed in buckets. Lately we have had showers installed for bathing, although the personnel still use an outdoor latrine. Rough, isn't it?

This is no picnic for any of our boys whether they are located in Alaska, in North Africa or in the Southern Pacific. They know they have a job to do and they are willing and able to do that job. Any item received by the men is certainly appreciated. Of course the army furnishes the food, clothing and shelter but recently, as an example, we were fortunate to have coca-colas for the camp personnel. It was the first coke the men had tasted in over six months.

Children's Day At Hilltonia U. B.

Sunday morning at the 9:30 a. m. worship service the Hilltonia United Brethren Church will observe Children's Day. This will be Rev. Herbert's first appearance in his pulpit for three weeks because of an appendectomy. The emergency operation was performed in the Good Samaritan Hospital in Dayton, O.

Sgt. Stump Dies In Jap Prison

Following a wire received from the adjutant-general's office came a letter from the war department to Mr. and Mrs. Charles R. Stump, 3241 W. Broad-st, concerning the death of their son, Master Sgt. James H. Stump. Sgt. Stump was captured after the fall of Corregidor and he died May 21, as a prisoner of war in a camp in the Philippines as a result of cerebral malaria, the letter stated.

He enlisted in the army here in 1938 and left this country in 1940, when he was connected with the detached headquarters but at the time of his capture he was in the Tank Bn. (Inf.) Sgt. Stump was 23.

His parents operate Stump's Food Shoppe at Sylvan-av and Broad-st.

West High Round-Up

By Shalmir Springer

Come, gather, curious ones, around the gypsy Shalmir. But no, I can see only into the futures of the seniors, those illustrious personages. I see a group of boys and girls being handed papers; THIS will bear importantly upon their lives. But, before I tell you the future, I will show you your past as it really was, and as you never recognized it. John Brown, an amazing kid with vim, vigor and vitality plus a ready grin for all . . . slim Haroldine Terry, with laughter and jokes forever bubbling to her lips . . . James Torrie, with a brilliant past and a promising future . . . Peggy Fergus who is one swell fem . . . Ted Scharenberg, who is popular and peppy—doing jitterbug and such . . . Jean Symes, dashing with personality and fun . . . Wanda Wagner, who makes friends with everyone . . . and last, but not least, class president was Woodrow Pickering who was very successful and, the crystal ball predicts him successful in whatever he may do.

Lend me your hand, and I will tell you what the future has in store for you! Aha! John Brown has a future in a small town, being the resourceful (?) sheriff . . . Bob Maurath, chemist, has just perfected seaweed for building purposes . . . Donn Crosby, cub reporter, has just interviewed Marjorie Bast, who is in town to sing with the Metropolitan Opera . . . I see Don A. Baker's law office—he is having a hard time concentrating on deeds with Regina Matlock typing and Virginia Woda taking dictation . . . Bennie Lear is number three to the left in the first line . . . Harry Andrews is the stage-door admirer (along with any number of other West High wolves) . . . Norma Swepston is receptionist for Don B. Baker, who pulls teeth . . . Marjorie Norris is the pretty who decorates the nurses uniform . . . Kelen Robertson, perhaps from force of habit, is still hooking class, although she is a teacher . . . Pat Leech has dates with her present 'big moment' between French lessons . . . Dick Hoover is batting balls for the New York Giants . . . Commercial artist is Helen McHenry, who is as famous as Petty and who needs but to look in the mirror to have as pretty a picture as we might hope for . . . Playboy is Bob Harvey . . . George Ours is fire-chief . . . Marvin Allison is a Fuller brush man . . . Bus Compton, dish washer at Waldorf-Astoria . . . Guy Kent is number-one street cleaner . . . Fred Mills is a southern plantation owner with hammock and mint julep . . . Kaye Newman, night club singer . . . Fran Ford, a swell 'leatherneck' . . . Charlotte Koons was Miss America 1945 . . . Don Murphy is circus barker . . . Introducing Harry Hopwood, the featherweight CHAMP . . . Tom Cline is professional grass-cutter . . . West High seniors are very promising.

This column would not be complete if I didn't mention the hayride—or so I've been told all last week and this. So, here goes! To mention only a few of the 19 couples or so who went are Mollie Mills and Jim Cotner (again!), Dick Hoover and Pat Smith, Marg Barnes and Neil Mowry, Fred Hysell and Pat Donahue, Normalee Worthington and Joe Moore, Martha Colmery and Firman Moore, Aggy Hart and Bob Harvey, Gladys Sahr and Bunny Watkins, Betty Ham and Glenn Chevalier, Ruth Black and Mark Embleton . . . I'd almost have to make a sequel to go on with them all but, I guess all present had a BIIIG TIME!

WE SEEM TO BE GETTING HUMBER

We boast of our American ingenuity
Efficiency in factories and mills,
Block busters, twisters, four row listers
Plateaus we make out of hills.
And with all our flaunted proficiency
Many have made a great blunder
In copper or tin without an within
Overhead, at the side, or down under.

I'll tell you what I am talking about
If you give me a little more time,
I could make it plainer without any doubt
If I didn't have to make it rhyme.
To run a gas station and give satisfaction
Everything must be neat and clean
So why don't they make a spout that'll take
Without strangling, one unit of gasoline?

—C. S. Parks.

Two Matters That Need Attention

Down in the vicinity of Mound-st and S. Wayne-av, there is need for some relief to residents of the community.

Since the opening of Mound-st, the traffic through from the newly paved street west of Wayne-av, has grown more and more and in view of the unimproved road over which this traffic must travel the dust has become a terrible thing to cope with.

Residents of the community are experiencing a very unhealthful situation that needs the immediate attention of the city either in the way of diverting this traffic or providing something to quell the dust.

Then too, the city can be of service down there by providing stop signs on the proper streets. Serious accidents are expected any day.

Keeping The Cost Of Living Down

In this day of mad rushing and with most pockets jingling with coin that is more plentiful than it has been in many a day there is an ever willing tendency to pay any price for the goods we buy.

It has often been said that Americans will buy what they want if they have the money and today they have the money and are doing just that thing regardless of cost.

But have you stopped to think that each time you pay the price without questioning what you are getting you are contributing to inflation in a greater degree than any other method you might pursue?

Intelligent economical buying will contribute to the stability of the nation now and following the war.

Record To Have Service Edition

The Hilltop Record will issue a special Service Edition the week the Hilltop Honor Roll is dedicated. This special edition will contain numerous features about local men and women in the service as well as stories from these individuals.

Parents of men and women in the service are urged to submit copy at once regarding the activities of their sons and daughters. Letters from boys in camps and abroad will be welcome at once.

Extra copies of the Service Edition will be available at 5c each or will be mailed anywhere in the country for 10c each. Orders should be placed by calling Ra. 1125 anytime.

In the meantime if you know of men or women in the service submit their names for the Honor Roll. Every local man and woman serving his or her country should be so honored with a place on this large community honor roll.

More Surgical Dressings Needed

The response to the call for surgical dressings workers by the Red Cross has resulted in the opening of an evening unit at West Broad Street School. It will be open on Wednesday evenings, 6:30 to 9:30 in addition to the daytime units held 9:30 a. m. to 4:30 p. m. on Tuesdays, Wednesdays and Thursdays.

Victory Haircut Minshall Style

This is the photo of a haircut, the product of a former Hilltop barber, well known to many localities.

The head is that of a Sgt. Collins stationed down at Oklahoma City Air Depot, and the haircut is the product of First Sgt. E. L. (The One and Only) Minshall, as the boys down there call him.

It is one of the first V for Victory haircuts Minshall turned out. How popular they were has not been determined yet.

How small a world it is in wartime is indicated in the route over which this photo and story came.

Staff Sgt. Louis T. Gray of New Vienna, O., sent the picture to Mack Sauer, editor of The Greenfield Times and Mack sent it on to The Record, all because Gray became acquainted with Minshall in camp and found out Minshall knew C. C. Hartley of The Record and Thom...

Porch Swing Sold Within 40 Minutes

There is never a letdown in results that can be obtained from Record Want Ads.

Every week we have repeated evidence to substantiate such a claim. For example, this last Friday, Mr. and Mrs. H. G. Deems on Powhatan-av, advertised a porch swing for sale. Within 40 minutes of the time they had advertised for calls they had sold the swing and during the evening had an additional 24 calls.

Evades Robbery With Hammer

Wearing dark glasses and under orders of no reading for two weeks, Miss Ellamarie Lambert returned to work Friday in the Vance Dry Goods Store, 2516 W. Broad-st. Miss Lambert was alone in the store Thursday when a man wearing a short-sleeved sport suit entered and asked to see "underwear, shirts and shorts." After selecting several items, the man threw a cupful of liquid into her face.

"My eyes burned and smarted and I screamed," stated Miss Lambert. "I couldn't see but I knew the hammer was under the counter and I grabbed it and swung. I hit him one good whack, at least, and he ran out of the store."

Remembering her Red Cross first aid training she groped her way to the back room and washed her eyes with water. Dr. W. Duane Burnard, 2528 W. Broad-st, treated Miss Lambert immediately. Though he was unable to identify the liquid he said the odor was like that of diluted ammonia.

Miss Lambert, who is emergency medical corps leader in her ward, disregarded the incident and took the final examination in the Red Cross instructors' training course that night, but her examination, unlike the others, was oral.

Curlis, assistant treasurer; Misses Peggy Cesner and Marjorie Walker, secretaries; Howard Dellinger, assistant secretary; Prof. E. Newell, chorister; James Recob, pianist; Miss Margaret Thomas, assistant pianist; Mrs. Frank Waller, flower fund secretary; Mrs. Ray Anderson, cradle roll superintendent; Mrs. Wilbur Jones, assistant cradle roll superintendent; Joe Gill and Alan Williams, librarians; Ralph Brown Jr., assistant librarian; Chester Hill, Wilbur Jones and Paul Matthews, athletic committee.

Snakes Alive! Commotion Reigns As Blacksnake Invades Back Yard

There was a snake in the grass up Warren-av way Wednesday afternoon!

The story started when Mrs. Harry Fleming, 104 N. Warren-av, went out to hang up the weekly wash when she saw something wriggle across the walk: Now sticks just don't move about by themselves even on Warren-av, so Mrs. Fleming went to the next door neighbor, Mrs. Bert Ray, 100 N. Warren-av, and identified the serpent as being the real thing, whereupon Mrs. Fleming took to the upstairs back porch and Mrs. Ray progressed rapidly to her own ballwick.

Then came to the rescue "Uncle Dan," a newcomer to the community, who poked the bushes but to no avail. Mrs. Dorothy Moritz, 90 N. Warren-av, was attracted by the commotion as was Jean Ray.

Finally a youngster who was passing by picked up a spade and chopped the five-foot black snake agressor right in two, picked him up to inspect him and went on about his business as calm and quietude again descended on the neighborhood.

There seems to be some doubt about Mrs. Fleming and Mrs. Ray going about their back yard duties again this summer.

Named Winner In Baby Contest

The Hilltop was well represented with winners in the Moose Baby Contest which was held last week. "Master Columbus" was Ronald Allen Younkin, two-year-old son of Mr. and Mrs. E. H. Younkin, 565 S. Wheatland-av. The "supreme king" was Richard Kaiser Jr., two-year-old son of Mr. and Mrs. Richard Kaiser, 22 S. Princeton-av.

The following are winners, without their titles, in their classes in the preliminaries who competed for the titles Miss or Master Columbus in the finals: Stephen Ballinger, 18-month-old son of Mr. and Mrs. L. W. Ballinger, 2020 Floral-av; Roberta Ashbaugh, 18-month-old daughter of Mr. and Mrs. W. E. Ashbaugh, 476 S. Ogden-av; Diane Doyle, four-year-old daughter of Mr. and Mrs. Thomas Doyle, 180 Belvidere-av; Connie Barber, 16-month-old daughter of Mr. and Mrs. Edward Barber, 1477 Thomas-av; and Rita Frazier, two-year-old daughter of Mr. and Mrs. F. G. Frazier, 129 N. Oakley-av.

Victory Gardener Has Fatal Heat Stroke

Stricken Saturday noon while working in his Victory garden at his home at 627 S. Wayne-av, Russell M. Obert, 41, died of a heat stroke at Mercy Hospital where he was taken by the emergency squad.

A civil engineer with the Ohio Fuel Gas Co., Mr. Obert was a member of the St. John's Evangelical Protestant Church, the Gasco club and American Society of Civil Engineers.

Besides his wife, Lola, he leaves his parents, Mr. and Mrs. William Obert, 452 Whitter-st, and a brother, Floyd H. Obert. Funeral services were held Tuesday at 2 p. m. Burial followed in Greenlawn Cemetery in charge of Jerry Spears.

Thrills! We Are Taken For A Ride On Hilltop's New Fire Ladder Truck

By Shalmir Springer

What youngster, or oldster has not, at some time or another, been thrilled by the thought of being able to ride on a brand-new, shiny, red fire truck?

This thrill became the real thing when your reporter was invited to take a ride on the aerial ladder truck just received at No. 17 engine house.

This all come about when I went down to the fire station at Wheatland and Broad to cover a story on their new fire truck. It is made of steel, with a 65 ft. ladder revolving on a turret, and works automatically with a series of gears which enables it to be lifted at any angle [illegible]

school and multiple alarm fires. Clarence Ogborn, city fire chief, who lives at 314 N. Harris-av, is responsible for the local station receiving this truck. Art Hartung demonstrated the use of the ladder to the firemen at the station.

In its stationary position jacks are placed beneath the truck to brace it while the ladder is being raised. The pump must make the fire runs also since the hook and ladder truck carries no hose. Captain Kidd stated that the new truck is 50 per cent more efficient and 50 per cent faster than the old engines used.

Whereas it took six men to raise the ladder originally, one man can operate the ladder quickly and efficiently, carrying a man up on it to the building. This ladder also gives the public more confidence, since it has a tail of 14 inches and is similar to a staircase.

If, and when, they organize this firemen's auxiliary, releasing firemen for the service, it would be nice to be among the first to enlist.

Drawing of Hilltop Honor Roll

Pictured above is an artist's drawing of the Hilltop Honor Roll to be erected on the hillside facing Broad-st at Glenwood Park.

The large board will have space enough to accommodate over 4000 names of Hilltop men and women in the armed services.

Names should be submitted through The Hilltop Record, 3485 W. Broad-st. The board is being sponsored by Camp Chase Post of the American Legion.

Persons desiring to make a contribution toward the expense of erecting the board may do so at the Record office or with authorized solicitors of the American Legion. A receipt and a window sticker will be issued to all who contribute, regardless of the amount. Names of contributors will be published in The Record.

The Weather In General, Rain In Particular

By "Jim 'X"

In Washington we have:

(1) rain.

(2) the four seasons are salt, pepper, mustard and vinegar, but here they have (a) the rainy season, (b) the wet season, (c) the damp season, and, of course, there's the autumn when they have floods.

The water here is composed of two gins. Hydrogin and Oxygin. Hydrogin is pure gin and Oxygin is gin and water. The air here can be made wetter while the water cannot

There are three states in which water may exist: Kentucky, Ohio, and hard. An example of hard water is ire. Hard water is bad for household use because it sometimes scratches the furniture.

Sometimes they have a gael here. A gael is a storm at sea. There was a gael in Shakespeare's "Tempest." Incidentally, Shakespeare was born in the year 1564, supposedly on his birthday. I don't know when he died, but he's been dead ever since.

The climate is such that its inhabitants have to live elsewhere. The earth here makes a resolution every 24 hours.

The farmers rotate their crops so that they can set the sun on all sides. The chief product is rainfall. The soil is so poor the people have to work hard to stay on top. The rural life is found mostly in the country.

The gravity here is particularly noticeable in the autumn when the apples are falling off the trees. Gravity was discovered by Isaac Newton. Gravity is that if there were none we would fly away. I wish there were none.

The rivers here generally flow from the source to the mouth. The cities are mostly populated by people. There is a great deal of nothing in the center of the state inhabited by a race of Morons. Their chief occupation is dying. Science says there are more dead people now than there ever were before.

Washington is behind Greenwich time because it wasn't discovered until very much later.

They don't get their silk from the silk worm here. They get it from the rayon which is a much larger animal and gives more silk

Their chief cause of divorce is marriage. The women here are very fond of divorce and are seldom seen without one. They have only two crimes visited by capital punishment; murder and suicide.

PRAYER OF A NAVY WAVE

Dear Lord:
As I kneel down to pray
I know I have so much to ask;

My prayers are for the strength to serve
a nation's mighty task.

I need the grace, with which to wear
in dignity and pride,

My uniform, and take with it, its meaning in my stride.

Teach me, O Lord, obedience—that I may do my best

Until my country once again is peaceful and at rest.

And having these to guide me while our Navy's in the war

I have but then to thank you—I cannot ask for more.

...instead of two and

...give you change in

...foods that aren't ra-
...d whenever possible.

... blame your grocer

West High Round-Up

By Shalmir Springer

Though school is out for the summer (for some of you) I am going to try to keep up this column so you can keep up with the doings of your friends. Any of you who know any choice bits of gossip or oddities about your friends, call here at the Record—I'll welcome it all!

West Activities—of the last days of school can be mentioned in one word—hooking.

Heard About — the sophomore blonde who strangely intrigued Evan Knox at a not so long ago weiner roast . . . Nola Faris who will miss Julian Naetzker; he moved to New York last Saturday . . . David Ely bringing an Oswald Rabbit comic book to school . . . Neal Ross, Johnnie Herbert, Chas. McKee are going to Calif. . . . Ernie Dahlen and Fred Hysell beating out Boogie Woogie in study hall . . . Aggy Hart getting and recovering from the measles the same day . . . Mary Louise Taylor having decided definitely this time . . . Elaine Bigler and Clem Wolfe returning for a visit . . . Martha Colmery might be a 'woiking gal too . . . Paul Miller and Bob Gatrill going to Ella Hoopman's house for her Latin homework . . . Betty Moore on the loose—after a man . . . Tom Rawlins finding a baby, bringing her into the office . . . Fred Heyl likes his mother's cooking—pork chops and French fries, his favorite dish . . . Mrs. Gilmore with a puzzled look, asked, "Who is that in pigtails?"—it turned out to be Doris Waddell . . . Rose Strasburger wondering if Tom Cline is available . . . Bob Van Order very charming, wearing a flower in his hair.

Welcome—West Jr. graduates to West Sr. High School . . . Peggy McSavaney to Brinker-av—it's a swell street, Peg.

"Hallelujah!" cried Lee Dunst upon seeing girl-friend Kay Erf's new bathing suit.

Summer Activities — swimming, Victory gardening, mowing lawns, croquet, tennis, golf, the races—and doing as I'm doing, attaining a sun tan. And sleeping these summer mornings away. Of course, some of you ambitious ones will have a job at which to slave away.

Gee! It's swell to be out of school.

Errors No Handicap In Receiving Book 3

Ridiculing statements that "we are behind schedule in our mailing program," Columbus district OPA officials today branded as untrue "reports that many will be denied War Ration Book No. 3 because of errors in their applications."

H. T. Beckmann, director of the Columbus OPA district, which will supervise the mailing of War Ration Book No. 3 to 7,500,000 Ohioans, said that it was true many applications had been filled out incorrectly. But, he added, "that doesn't mean we are going to deprive these people of their ration books and above all no one is going hungry."

Persons under the impression that mistakes in their original applications will make them ineligible for ration books were warned against obtaining new forms at their post office with a view in filing another application. "A second application will not be honored and might delay processing of the first application," Beckmann declared.

To complete the job by July 21, OPA will operate three three-hour shifts each day with 2,500 volunteers. Expressing his appreciation to the Franklin County Council of Defense for its "wholehearted cooperation," Beckmann said several thousand more volunteers will be enrolled before the job is completed. The state mailing center has been established at the Masonic Temple, 34 N. Fourth-st.

A DEBT WE CANNOT PAY

The onrolling waves of civilization
Stalked forward night and day
Forcing Indians to the reservation
No more to slaughter and slay.
At the time of which I am speaking
White renegades took command
Heartless, cunning, bold and sneaking
Red with blood flowed the Rio Grande.

Then we saw the birth of a Nation
When Rangers came on the scene
Subduing all forms of degradation
Made the border safe and clean.
Society owes a debt that cannot be paid
To those who established order
Who daily faced death and were not afraid
Now sleeping all along the border.

Soviets Devise New Medical Treatments

Soviet military surgeons have been able to return, within a short period, some 80 percent of the wounded to active frontline service, according to information received by the local War Chest office, 8 E. Long-st, from the National War Fund, New York City.

"Russian medical units are so organized as to function within the very shadow of the front lines," the report stated. 'Out of sheer necessity, their doctors have devised techniques in treating wounded soldiers on the long Russian front, which might otherwise have been lost for many years."

Russian War Relief, one of 20 agencies in the National War Fund and a participant in the Franklin County War Chest to the extent of $30,000, has supplied the Soviet with medical instruments, drugs, antiseptics and bandages for the military front. For the home front clothing, medical and surgical supplies, machinery and equipment and seed to replenish Russia's scorched earth have been shipped. No funds are sent abroad. Supplies only are shipped, and are carried on Soviet ships, free of charge.

TEN COMMANDMENTS FOR RATION SHOPPING

By August F. Gueltenberger
Secretary, New York State Food Merchants Assn.

1. Thou shalt shop early in the day and early in the week.
2. Keep thy ration list before thee.
3. Remember to use thy high point stamps first.
4. Thou shalt not fumble for thy ration book at the checkout counter.
5. Thou shalt place only valid stamps before me to redeem.
6. Thou shalt not select more merchandise than thou hast stamps.
7. Remember the unrationed foods.
8. Thou shalt not patronize the black market.
9. Thou shalt not sneer at rationing. It assures thee of thy share.
10. Love thy grocer and butcher as thy self.

50 BUCKS PER DAY

We think that life is hard for us,
With rationing and such,
The cost of living rising day by day,
We grumble, but we never think of men
Who really work, and all they get is
50 bucks per pay.
We poor downtrodden citizens our life is really tough,
It makes us mad if we don't get our way,
A good strong dose of army life would open up our eyes,
Especially that 50 bucks per pay.
Which one of us would trade our place with any of our boys,
Which one of us would quit our job and say,
I'd rather do my bit on foreign soil than stay at home,
All I ever want is 50 bucks per pay.
Let's put our shoulder to the wheel
And work with all we have,
And when our boys at last come home to stay,
Don't brag about the money that you made at their expense.
Their 50, should be 5c bucks per day.

—Jack Crompton.

Swim Classes

The Y. W. C. A. is offering for the summer, a Tiny Tots swim class for girls and boys from 3 to 5 years of age, beginning June 14. Older girls will join the speeder-up classes for beginners, and a boys' class has been organized for lads from 6 to 10 years of age. The usual junior and adult classes will also be offered.

THREE BILLIONS FOR HOME FRONT GROUPS

Spend, spend, spend. That is the theme of a war time government as economies effected in one spot are obliterated in another.

This week the government appropriated three billion dollars for operation of the home front bureaus. It is certainly a fact that a great amount of money is necessary for the operation of these vitally important programs. But they too can be operated in a more business like manner and at less cost if there is but the will to do so.

My connection with the local ration board gives me an opportunity to see waste at first hand. Local boards, regional boards, etc., for the most part, are too often concerned with adding employees and keeping operating costs high merely because Washington has set the glaring example of spend, spend, spend.

This past week evidenced a glaring example of what I mean. A local board was to hire a clerk. The girl had accepted the job at the lowest starting salary. She was a June graduate of high school, without a day's experience in any job. But the Civil Service Board told her she was worth more money and gave her a higher salary by about $300 per year and turned her over to another department.

Private business doesn't operate this way

No Charge For Name On Honor Roll

If you have a son, daughter, or relative in service send his or her name to The Hilltop Record to be placed on the Hilltop Honor Roll being dedicated July 4 by Camp Chase Post of the American Legion.

There is no charge being made to place names on the Honor Roll. The Legion wants every man or woman in the service, who had formerly lived in the community, represented on this display.

All names sent into The Hilltop Record and received by June 23 will be on the Honor Roll when it is dedicated July 4. Those received later will be placed on the display as received.

The complete Honor Roll will be printed in alphabetical order in the Service Edition of the Record July 2. Orders for extra copies of this edition are now being taken.

Mr. and Mrs. Jimmie Phillips of the Biltmore and Broad Hague Restaurants are getting a thrill out of sending cards to the service men on the "write a letter" plan but Mrs. Phillips says that her biggest thrill was getting a nice letter from one of the boys who was a former customer at the Biltmore.

Renew "A" Gas Books By Mail

Plans to renew motorists' "A" gasoline coupon books by mail under the streamlined renewal plan recently announced by the OPA beginning June 23 have been completed by the local War Price and Rationing Board, C. C. Hartley, chairman, announced today.

He coupled this announcement with a request that car owners file their applications as soon as possible so that the board may process them and mail out all new books before the present "A" rations expire July 21.

Volunteers Needed

Numerous volunteer workers to assist with processing and mailing gasoline A cards are needed by Ration Board 25-10, Sandusky and Broad-st. Men or women in the community who can give a few hours of their time to this work are asked to call Mrs. Curran, at Ad. 3279 to make such appointment.

The mail renewal plan, which also includes renewals of the basic "D" motorcycle rations, eliminates the school-house registration that was necessary when basic rations were issued last autumn. To get his new "A" or "D" books a car or motorcycle owner needs take only the following simple steps:

1. Pick up an application form at any service station. The forms will be available beginning June 22.

2. Fill out the form and mail it to the War Price and Rationing Board together with (a) the back cover of the present "A" or "D" book (properly filled out), and (b) the current tire inspection record showing that proper inspections have been made.

With volunteer help now being enlisted the board will begin processing the applications as soon as they start coming in. New ration books will be mailed back as soon as they are ready. Every effort will be made to have new books in the hands of all car and motorcycle owners by July 21, when their present books expire. But this can be assured only if motorists and motorcycle owners cooperate by getting their application forms as soon as possible and filing them promptly.

The new application forms, like those used last year, will have a tire inspection attached. In filling out the form, applicants should make sure that their serial numbers are accurately written in. These numbers may be copied from the old tire record, as corrected at the time of the last inspection, unless the applicant has acquired a new tire since then. In this case, he should write in the new number and attach a note explaining this to the board.

The back cover of the present ration book is required as part of the application because it is evidence that the owner held a properly issued ration and is entitled to a renewal, the chairman explained.

Any motorists who have not had at least one tire inspection by a qualified inspector will be denied a renewal.

"Navy Dads" Organize

A group of fathers of Navy boys and girls met last Sunday afternoon at the home of David R. Cornwell, 356 S. Roys-av, for the purpose of organizing a Navy Dads Club on the Hilltop.

Committees were appointed to arrange plans as were outlined and named on these committees were: Acting Chairman, David Cornwell: Acting Secretary, R. H. Harvey, 648 S. Harris-av; J. D. Thompson, 487 S. Burgess; O. L. Rayburn, 37 N. Westmoor-av; R. L. Hart, 700 Racine-av; J. I. Flowers, 444 S. Burgess-av; E. A. Howard, 346 Guernsey-av.

Mr. Cornwell announced that there will be an open meeting for all Hilltop Dads who have sons or daughters in the Navy, Coast Guard or Marines next Sunday night at 8 p. m. This meeting will be held in the Music Room at West High School.

Any Navy Dad is eligible for membership and those affiliating now will be on Charter Roll.

Purpose of the organization is to aid and assist Navy personnel both now and after the war, rendering such services and help as would not usually fall to the Navy and which are not a part of the Navy setup.

TROLLEY INJURES WOMAN

Two women were hurt and three utility poles and wiring knocked down at Sullivant and Harris-ava, when a west-bound Columbus and Southern Ohio trolley bus was involved in an accident Sunday. Lafe Carter, 40, 128 Morrill-av, the driver, told police the bus struck a stone in the street causing him to lose control of the vehicle. The bus sheared off one pole and the weight of the wires pulled down two other utility poles.

Seiller's Close Wednesday-Noon

Seiller's, 2404 W. Broad-st, announce that they will close at noon each Wednesday during the summer months. This will allow a half day holiday for their employees. Their previous schedule of opening hours will be continued with this exception.

'Lights Out' Here During Storm

Plunged into darkness were residents in several sections of the Hilltop Tuesday night when lightning during a terrific rain and electric storm struck trees, felling them across power and light wires.

Trees or large tree limbs were reported down at Steele and Eureka; 120 S. Wayne-av; 108 S. Wayne-av; Eakin-rd, and Terrace-av; Nashoba and Floral-avs; Chase-av and Grace-st; 101 N. Eureka-av, and the home of D. R. Johnson, 1490 W. Broad-st.

Live wires were down at Steele and Warren-avs; and 367 S. Eureka-av; and when lightning hit transformers at 758 S. Wayne-av, it caused short circuits in houses and on utility poles.

MOTHER DIES

Mrs. William Moore, mother of William Moore, Jr., linotype operator at the Hilltop Record, died Monday evening at her home in Dayton.

SUFFERS INJURIES

Mrs. Bertha J. Seuer, 77, of 2949 Sullivant-av, is in Mt. Carmel Hospital in a fair condition from injuries suffered Tuesday night when she was struck by a N. High-st, street car at Spruce-st.

Postman Sebring Is Remembered On His Sixty-First Birthday

For seventeen years I. E. Sebring, 226 Midland-av, has been the postman for people down Midland, Clarendon and Whitethorne way.

In many instances he delivered birth announcements telling of the arrival of their youngsters and in this past month helped deliver graduation announcements from these youngsters.

Starling Again Co-Champions

Carl Smith's Starling Junior High baseball team became champions for the second successive year, finishing the season without a defeat, making the Starling squad undefeated in two years.

Bob Phelps pitched all five games, limiting the opponents to seven hits and three runs, while striking out 47 batters. He pitched one hitters against West Jr., Mound, Franklin and Barrett, and established a record that is one of the best ever compiled in the Junior High League.

Albert White, who had a tryout with the Red Birds this spring, did the receiving for the champs, but played the outfield last year. Jack Buckingham led the team in hitting with a healthy .700 average. All three of the above mentioned athletes were selected by the coaches on the All-Junior High baseball team. Buckingham also made the All-Junior High basketball squad. This makes the tenth baseball championship that a Smith-coached aggregation have brought to the west side school.

Expiration Of Stamp No. 17 Jams Stores

With the expiration Tuesday of Stamp 17 in War Ration Book One, shoe stores could be nominated the busiest business for the week. The public, with their usual 'wait-the-last-minute' habit, crowded the stores.

One local shoe dealer had customers lined at the front door, letting them enter one at a time as they could be taken care of, and exiting by the rear door. In some instances it was observed that people just helped themselves.

Zall Kemp, manager of Mechem's Shoe Store, 2469 W. Broad-st, estimated his sales were between 400 and 500 for the three day rush, Saturday, Monday and Tuesday.

"Christmas was never like this," commented Miss Eva Berman, owner of Broadway Shoe Store, 2390 W. Broad-st, on what was her largest day since starting business on the Hilltop.

38 N. Chase-av, died Saturday. Another daughter, Mrs. Bertha Hetzler of Greenville, and one son, Stanley Young, Colorado Springs, Colo., also survive. Services were at Greenville, Tuesday.

Edward E. Engler

Edward E. Engler, 66, 107 S. Oakley-av, pressman at the Medick-Barrow Co., died at his home yesterday after an illness of a few weeks. He is survived by a son, Charles E., at home, and a brother, Charles, Fremont. Funeral services were held Wednesday at 2 p. m. in the Spears Funeral Home. Burial was in Amanda.

Dealer Advises Early Coal Buying

No easing of the coal situation is anticipated this fall and those who have put off getting their winter's supply in the bins should attend to it at once, warns J. M. Jackson, president of The J. M. Jackson Fuel Co., Dana and Thomas-avs. While stocks in yards are large at present and to observers give no hint of scarcity, the increasing tempo of invasion plans by our armed forces means a corresponding heavy increase in coal consumption by war industries and railroads.

As this absorption of available mined coal expands, the dealer stock piles will become more and more difficult to replenish, he said. "If all the winter's supply cannot be stored, fill the bin to capacity and be assured that the first cold snap next fall does not catch you in the midst of a serious civilian shortage," advises Mr. Jackson.

THEFT REPORTED

Observe Youth Week-end At Hilltop Lutheran

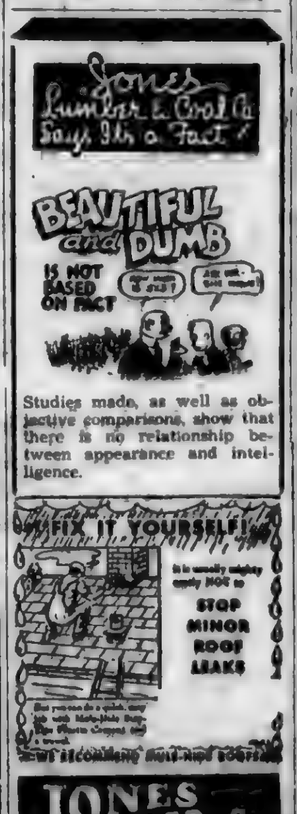
PROF. WILLIAM C. CRAIG

A banquet tonight at 6:30 p. m. will start the Youth Week-end at Hilltop Lutheran Church.

Planned for Saturday is a bicycle hike. All those who wish to go swimming should be at the church at 3 p. m.; those not desiring to swim will leave the church at 3 p. m. A car will be at the church to care for those working until 5:30 p. m. Point at which the hikers will stop is known only to the committee.

'Keeping Spiritually Strong," is the theme for Sunday morning when all 'week-enders' will attend services, at which there will be special music by Phyllis Ett, Helen Grenell, Bobby and Donald Ochs. Scripture reading shall be done by Jean Ett; liturgy by Kenny Linton.

Junior sermon will be given by Margie Hibbs. Recognition will be given those in service.



The group will gather Sunday evening to hold devotional services and to write group letters to the boys in the service on the back of the Youth Week-end program, letting the boys know their activities of the year. Program will start with 'call to assembly and end with 'mail call', the thought being "Keeping Up Morale of the Boys in Service." Speaker for the evening will be Miss Irene Dornhlazer who will speak on China.

Professor Craig of Capital University, head of the Speech Department will supervise the week end, cost of which is 75c, excluding swimming.

NOTHING LESS CAN WE AFFORD

The church is our only salvation,
Not guns nor ammunition,
The only sure way to save a nation
Is a Christian disposition.
The wings of prayer have unlimited power
Soaring beyond the sky
Assuring us peace in our darkest hour
By a Mighty General on high.

The church is our only security
It has no equal in power,
All worldly fame and ingenuity
Will wilt and fade like a flower.
We must make a stand with all we command
At the right hand of the Lord
The just put their trust in Beulah Land
Nothing less can we afford.
—C. S. Parks.

Studies made, as well as objective comparisons, show that there is no relationship between appearance and intelligence.

Pursuit of Happiness

Although we speak of "the pursuit of happiness" as one of our rights, we all know that happiness seldom is captured by pursuing it. It comes as the result of pursuing other things. Chase after happiness and you'll never find it. But go after other things and happiness will find you!

Edison found happiness in the chase after new ideas. Burbank found it in the search for new varieties of plants. Paderewski found it in his hours of practice at the piano. John Muir found it by climbing mountains. Gocthals found it by digging the Panama Canal. Joseph B. Straus found it by building the Golden Gate Bridge. Gutzon Borglum found it by carving the faces of five great Americans on Mount Rushmore, in the Black Hills.

Look for happiness and it hides its face. Look for opportunities to do good work, lend a helping hand, inspire the discouraged, radiate joy, say a good word, and before you know it happiness will be smiling upon you.

Some of man's biggest headaches come from directly pursuing happiness. And some of his truest happiness comes from apparently running away from happiness!

The Case For Democracy

Ray W. Sherman, the son of a country blacksmith, who was born in the upstate New York in the "horse-and-buggy" days, and who climbed to success because of the opportunity America gave him, has written an inspiring book: I BELIEVE IN AMERICA.

employ, and men who work," only a collection of men who employ, and men who work," writes Sherman. "Most of us want jobs—just jobs. Somebody's got to provide them. And we want bigger and better jobs in a bigger and better America."

Of poor boys who climbed to greatness in America he lists many: Henry Ford, son of a farmer; Walter P. Chrysler, once an apprentice in a railroad shop; the late Charles M. Schwab, once a stake-driver; the late John D. Rockefeller, born in a little country town.

"The corner druggist, grocer, barber, and all the rest are in the same class. They take their savings and start businesses. Thousands fail. A few succeed. And from the successes come our prosperity, our wages, and the development and improvement of our civilization. There isn't any other way."

The Honor Roll

Open our eyes that we may see
The way that Thou wouldst have us walk.
And help us by faith to take the hurts
That sorrow brings.
Anxious hearts and tear filled eyes are turned to Thee.
Our children, Lord, are far away and
Fighting for the rights of man.
And yesterday their names were placed
Upon an Honor Roll
That all who passed might see, and pause to tribute pay.
Just a short time ago upon these grounds
They laughed and played;
Yesterday in spirit we saw and heard them there again.
Among us Lord were some who have only memories left.
And as Old Glory by the color guard was raised
From clouded skies the tears of all the angels fell
To soothe their hearts
And later on when evening stars appeared, there shone
Some very golden ones, with radiant light
Help us to not complain or waste or shirk.
But to do our duty faithfully, until the end
So that, no single life be lost, because of us.
And may we ever prove as brave as they
Of whom we are so proud.

Wires Down, Streets Flooded, In Downpour

Deluged with a two-inch rain Wednesday afternoon and early evening, the Hilltop and near west side may have had a premature blackout if the owner of the Rivoli Theatre hadn't been anxious to continue his show.

George Pekras, 2937 Fremont-st, contacted the light company by telephone and the only satisfaction he received fom them was that it would be repaired as soon as it could be located. Tiring of waiting for results, he was on the way to the power house when he noticed wires down on McKinley-av. Upon investigation, they were found to be the wires which were causing the trouble. Shortly thereafter, they were repaired and the show went on.

Lightning and wind which accompanied the downpour, also blew down trees. A telephone transformer was struck by lightning at Wilson-rd and W. Broad-st, while traffic lights were damaged in Broad-st and were not repaired until late yesterday.

With as much as two feet of water flooding the streets, the trolley buses in Sullivant-av were halted at the peak of the rush hour when workers were homeward bound.
